Executive Board — 106th Session
Rome, 20-21 September 2012

For: Information

Planned project activities, 2012-2015

1. At the second session of the Executive Board (EB/2), it was agreed that information on planned project activities would be presented to the Board regularly to enable representatives to keep abreast of developments in IFAD's project/programme pipeline and prospective lending and, should they so desire, to comment on planned operations at an appropriate stage of the development cycle.
2. The information provided in this document reflects current IFAD approval procedures and investment activities. At its ninety-eighth session held in December 2009, the Board endorsed the proposal to streamline the approval process for investment projects and programmes and adopted rule 24 of the Rules of Procedure of the Executive Board. For IFAD-funded projects/programmes, the Fund will apply two approval procedures: (i) the standard procedure and (ii) the lapse-of-time (LOT) procedure as outlined in the Implementation of rule 24 of the Rules of Procedure of the Executive Board on the lapse-of-time procedure
3. Since the approval of the Spanish Food Security Cofinancing Facility Trust Fund in September 2010, this document also reports on how the Spanish Trust Fund resources are allocated. Further, in 2012, IFAD developed the Adaptation for Smallholder Agriculture Programme (ASAP), a multi-year and multi-donor grant financing window to provide a new source of cofinancing targeted specifically at scaling up and integrating climate change adaptation in 'regular' smallholder development programmes. The ASAP will channel earmarked climate and environmental finance to smallholder farmers through IFAD-supported programmes.¹ Information on specific planned activities under this programme are included in this document.
4. Part I - Table 1 of this document provides a comprehensive listing of all projects and programmes that have entered the pipeline as part of results-based country strategic opportunities programmes (RB-COSOPs) or after approval of concept notes, and which are planned for submission to the Executive Board under the standard procedure.
5. Part I - Table 2 provides a list of proposed and eligible projects and programmes planned for consideration under the LOT procedure, which will be considered approved by the Executive Board if no request for formal discussion by the Executive Board is received by a specified deadline.
6. Management also reports information in Part I – Table 3 on the proposed global/regional grants currently planned for financing under the LOT procedure.
7. In September 2006, the Executive Board approved a new framework for results-based country strategic opportunities programmes. RB-COSOPs provide a framework for entry of projects/programmes into IFAD's official pipeline. Some of these pipeline projects/programmes will be processed within the current 2010-2012 cycle of the performance-based allocation system (PBAS), while others will be included in subsequent PBAS allocation periods. Part II – Table 1 provides information/comments on planned RB-COSOPs, where available, and identifies dates of forthcoming country and stakeholder consultation meetings.²
8. As agreed at the Board session in April 2001, Part II – Table 2 of this document provides information on all COSOPs reviewed to date by the Operational Strategy and Policy Guidance Committee (OSC) as well as those reviewed by the Board.

¹ [Adaptation for Smallholder Agriculture Programme \(ASAP\)](#)

² As a result of lessons learned from the COSOP process since 2007, countries with three or more projects in a given PBAS cycle will normally require a full COSOP. Borderline cases such as transitional situations with three or more operations but a relatively modest PBAS allocation, e.g. below US\$15.0 million, will require guidance from Management. Countries with only two operations in the pipeline but with a PBAS allocation of a US\$20.0 million or above will require a COSOP to guide overall country engagement.

9. The above information is complemented by information on projects and programmes that are likely to be presented at a future session of the Board, which IFAD makes available on its website. Each of these operations is described in a two-page information note. This is intended to:
 - explore fully cofinancing opportunities early on in the design stage;
 - provide project/programme-related information in a timely and efficient manner; and
 - increase public awareness, knowledge and interest vis-à-vis the activities of IFAD and other development organizations.
10. To achieve this, with special attention to exploring cofinancing opportunities at an early stage in project design, and to reflect current IFAD design processes, as of September 2012 the information notes will be produced and published on IFAD's website when the project is in the concept stage, following approval by the Operations Strategy Committee (OSC), and at the detailed design stage (quality enhancement). When projects/programmes reach the design completion stage (quality assurance) and the President's Report is produced, a link to this document will be made available on the planned project activities section on IFAD's website.
11. It is expected that this new procedure will achieve the dual purpose of providing project/programme information early in the project design process to allow Members to explore cofinancing opportunities, and will lead to further efficiencies in the production of the information notes.

Overview

12. Interventions will continue focusing on priority areas as identified in the IFAD Strategic Framework 2007-2010, the IFAD Strategic Framework 2011-2015 (approved by the Executive Board in May 2011), the IFAD Medium-term Plan for the remainder of the 2012 and that for the period 2013-2015 and the relevant results-based COSOPs or concept notes. Enabling poor rural people to improve their food security and nutrition, raise their incomes and strengthen their resilience will be at the centre of IFAD's work.
13. This document includes the 55 projects/programmes currently in IFAD's official pipeline; others will be identified during the course of the year. The OSC plans to review concept notes for two projects/programmes in Brazil in the near future. Table 1 provides information on the number of planned financing activities by region and type of financing and figure 1 illustrates the official pipeline of financing in terms of geographical distribution.

Adaptation for Smallholder Agriculture Programme (ASAP)

14. ASAP is an IFAD programme founded in 2012 to channel earmarked climate and environmental finance to smallholder farmers through IFAD-supported projects. The goal of ASAP is to increase poor farmers' resilience to climate change, and the purpose is to provide a new mechanism of cofinancing for IFAD to scale up the work we are already doing on climate adaptation.
15. The five main ASAP expected outcomes are: (i) Improved land management and climate resilient agricultural practices; (ii) Increased availability and efficiency of water use for smallholders; (iii) Increased human capacity on adaptation and disaster risk reduction; (iv) Rural infrastructure made climate resilient; (v) Knowledge on Climate Smart Agriculture documented and disseminated. It is hoped that ASAP will build on IFAD's strong experience in community-based approaches, including through transparent and well-documented consultations with beneficiaries during design, implementation and evaluation.
16. A first wave of ongoing or new IFAD-supported projects to receive ASAP support are being identified. Of these, two are already in the official pipeline, for

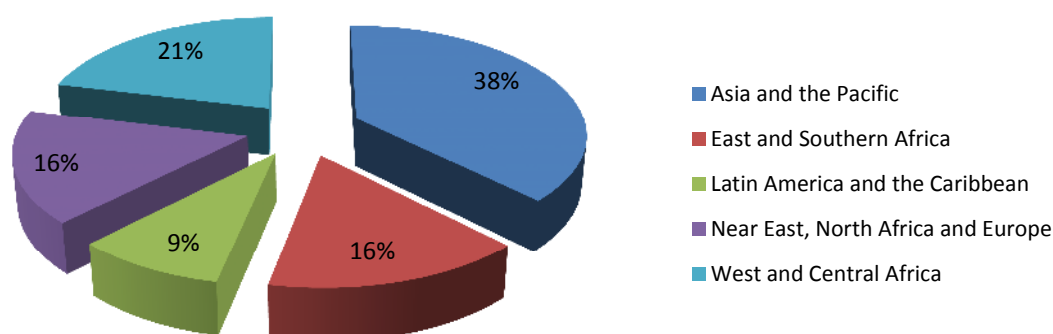

Mozambique and Yemen, for a total ASAP contribution of approximately US\$10 million.

Table 1
Pipeline of financing

<i>Region</i>	<i>IFAD Loan</i>	<i>IFAD Supplementary Loan</i>	<i>IFAD Grant</i>	<i>IFAD Supplementary Grant</i>	<i>DSF Grant</i>	<i>DSF Supplementary Grant</i>	<i>ASAP Grant</i>	<i>Total</i>

17. The COSOP for Egypt will be reviewed at the 106th session of the Executive Board, while COSOPs for Ghana, Honduras, Nicaragua, Niger and Uganda are currently planned for presentation at the 107th Executive Board session (December 2012).
18. The Spanish Food Security Cofinancing Facility Trust Fund (Spanish Trust Fund) was approved in September 2010 (EB 2010/100/R.29/Rev.2) with a loan of EUR 285 million (approximately US\$400 million) and a grant of EUR 14.5 million from the Government of Spain. As at 15 July 2012, a total of 12 loans have been approved by the Executive Board for a total amount of EUR 169.2 million (US\$233.1 million) to scale up 12 IFAD-supported projects: one in Asia and the Pacific (EUR 21.4 million); two in East and Southern Africa (EUR 27.1 million); seven in Latin America and the Caribbean (EUR 105.2 million), one in Near East, North Africa and Europe (EUR 8.46 million); and one in West and Central Africa (EUR 7.0 million). For the remainder of 2012, 10 loans are scheduled to be submitted to the Executive Board for a total amount of approximately EUR 96.65 million.

19. Table 2 below lists those eligible countries for which proposals are planned for Spanish Trust Fund cofinancing for the remainder of 2012:

Table2

Spanish Trust Fund Proposals

<i>Country</i>	<i>EUR (million)</i>	<i>Planned for Approval</i>
Brazil	10.60	Dec-12
Cape Verde	7.10	Sep-12
Gabon	4.25	Dec-12
Indonesia	6.05	Sep-12
Lebanon	8.20	Dec-12
Mozambique	14.50	Sep-12
Niger	14.00	Sep-12
Swaziland	7.10	Dec-12
Tunisia	14.25	Dec-12
Venezuela	10.60	Dec-12
Total	96.65
