Executive Board — 109th Session
Rome, 17-19 September 2013

For: Information

Planned project activities, 2013-2015

1. The information provided in this document is intended to enable representatives to keep abreast of developments in IFAD's project/programme pipeline and prospective lending and, should they so desire, to comment on planned operations at an early stage of the development cycle.
2. It reflects current IFAD approval procedures and investment activities: (i) the standard procedure and (ii) the lapse-of-time (LOT) procedure as outlined in the Implementation of rule 24 of the Rules of Procedure of the Executive Board on the lapse-of-time procedure.
3. It also reports on the allocation of resources from the Spanish Food Security Cofinancing Facility Trust Fund and on specific planned activities under the Adaptation for Smallholder Agriculture Programme (ASAP).¹
4. Part I – Table 1 of this document provides a comprehensive listing of all projects and programmes that have entered the pipeline as part of results-based country strategic opportunities programmes (RB-COSOPs) or after approval of concept notes, and which are planned for submission to the Executive Board under the standard procedure.
5. Part I – Table 2 provides a list of proposed and eligible projects and programmes planned for consideration under the LOT procedure.
6. Part I – Table 3 reports on the proposed county-specific and global/regional grants currently planned for approval under the LOT procedure.
7. Part II – Table 1 provides information/comments on planned RB-COSOPs, where available, and identifies dates of forthcoming country and stakeholder consultation meetings.²
8. Starting in 2011, and in line with efforts to enhance its efficiency, IFAD undertook a review of the Planned Project Activities document. One of the elements of this review included an assessment of the purpose of the two-page complementary information notes which are produced for pipeline projects with the aim of allowing Members to explore cofinancing opportunities at an early stage of design. A survey was conducted among 30 country programme managers, the results of which revealed that only a marginal level of cofinancing was mobilized as a result of the information notes during the period in question as well as based on past experience. Given that IFAD's Disclosure Policy prescribes the publication of project design reports ahead of the Board Session during which the project is discussed, Management concluded that the two-page information note on projects and programmes that are likely to be presented at a future session of the Board on IFAD's website will no longer be provided. This is currently the only change proposed. We will continue to identify options to provide Members with dynamic and up-to-date information on the Fund's pipeline of financing activities as a basis for future partnership.

¹ [Adaptation for Smallholder Agriculture Programme \(ASAP\): http://www.ifad.org/climate/asap/](http://www.ifad.org/climate/asap/)

² As a result of lessons learned from the COSOP process since 2007, countries with three or more projects in a given PBAS cycle will normally require a full COSOP. Borderline cases such as transitional situations with three or more operations but a relatively modest PBAS allocation, e.g. below US\$15.0 million, will require guidance from Management. Countries with only two operations in the pipeline but with a PBAS allocation of a US\$20.0 million or above will require a COSOP to guide overall country engagement.

Overview

9. Interventions will continue focusing on priority areas as identified in the IFAD Strategic Framework 2007-2010, the IFAD Strategic Framework 2011-2015, the IFAD Medium-term Plan for 2013-2015 and the relevant results-based COSOPs or concept notes. Enabling poor rural people to improve their food security and nutrition, raise their incomes and strengthen their resilience will be at the centre of IFAD's work.
10. This document includes 100 financing activities for a total of 62 projects/programmes currently in IFAD's official pipeline; others will be identified during the course of the year. These projects are scheduled for Board presentation in the period commencing in September 2013 to end-2015. Additional projects will be added to the pipeline for approval in 2015 as cleared by the Operational Strategy and Policy Guidance Committee (OSC). The OSC plans to review concept notes for three projects/programmes in Morocco, Niger and Zambia in the near future. Table 1 provides information on the number of planned financing activities by region and type of financing and figure 1 illustrates the official pipeline of financing in terms of geographical distribution.

Adaptation for Smallholder Agriculture Programme (ASAP)

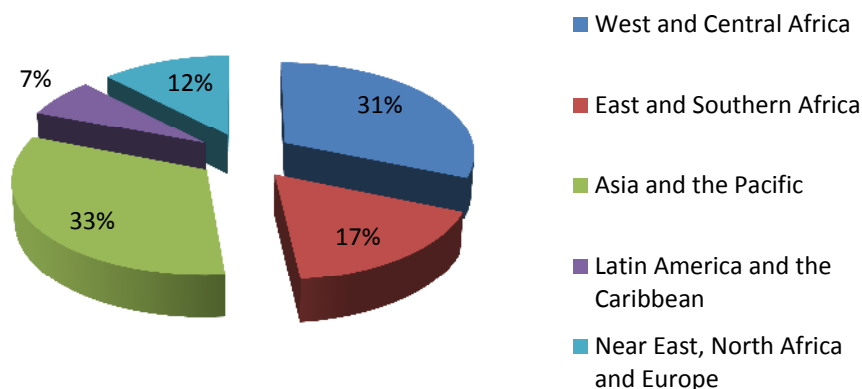

11. ASAP is a new multi-donor, climate change adaptation programme within IFAD to channel climate and environmental finance to smallholder farmers. Launched in 2012, ASAP has been established as a fully mainstreamed and integrated programme within IFAD9.
12. ASAP aims to improve the climate resilience of large-scale rural development programmes and improve the capacity of at least 8 million smallholder farmers to expand their livelihood options in a rapidly changing environment. It is well positioned to increase the climate resilience of IFAD's approximately US\$1 billion per year of new investments. In doing so, ASAP embodies one of the most concrete and decisive steps a UN agency has ever undertaken to transform itself into a truly climate-smart organisation.
13. In September 2012, the first ASAP grant (Mozambique, US\$4.9 million) was approved by the IFAD Executive Board. Thirteen new ASAP investments with a total financial volume of US\$125 million are in advanced stages of design (Bangladesh, Bolivia, Chad, Djibouti, Ghana, Kyrgyzstan, Lesotho, Mali, Nicaragua, Nigeria, Rwanda, Viet Nam, and Yemen). One project (Bangladesh, ASAP financing of US\$15 million) will be submitted for IFAD Executive Board approval in September 2013. Nine additional projects with a total ASAP investment value of US\$88 million are aiming for approval by the IFAD Executive Board in December 2013. ASAP scoping exercises are planned or under way in Cambodia, Cote d'Ivoire, Kenya, Madagascar, Malawi, Nepal, Niger, Tanzania, Uganda, and the Caribbean sub-region.

Table 1
Number of financing activities in the pipeline as at 15 July 2013

Spanish Food Security Cofinancing Facility Trust Fund

14. The Spanish Food Security Cofinancing Facility Trust Fund was approved in September 2010 (EB 2010/100/R.29/Rev.2) with a loan of EUR 285 million (approximately US\$400 million) and a grant of EUR 14.5 million from the Government of Spain to IFAD. In 2011 and 2012 a total amount of EUR 250 million was allocated to some 20 loans approved by the Board. An amount of EUR 50 million remained to be allocated, once agreement was reached in April 2013 with the Spanish Government to extend the commitment period up to December 2013. The remaining amount was allocated to cofinance new projects in Cuba (EUR 20.7 million) and Viet Nam (EUR 7.9 million), both to be submitted for approval at the September 2013 Executive Board, and in Brazil (EUR 11.5 million), Gabon (EUR 4.2 million), and Zambia (EUR 9.0 million) to be submitted for approval to the Executive Board in December 2013.
