المجلس التنفيذي - الدورة التاسعة بعد المائة

روما، 17-19 سبتمبر/أيلول 2013

للاستعراض

## المحتويات

iii	خريطة العمليات الممولة من الصندوق
iv	موجز الاستراتيجية القطرية
1	أولا - المقدمة
1	ثانيا - السياق القطري
1	ألف - السياق الاقتصادي والزراعي وسيق الفقر الريفي
3	باء - السياق السياساتي والاستراتيجي والمؤسسي
4	ثالثا - الدروس المستفادة من خبرة الصندوق في البلد
4	ألف - النتائج السابقة والأثر والأداء
5	باء - الدروس المستفادة
6	رابعا - الإطار الاستراتيجي القطري للصندوق
6	ألف - ميزة الصندوق النسبية على الصعيد القطري
6	باء - الأهداف الاستراتيجية
8	جيم - فرص الابتكار وتوسيع النطاق
8	دال - استراتيجية الاستهداف
9	هاء - الصلات السياساتية
9	خامسا - إدارة البرنامج
9	ألف - رصد برنامج الفرص الاستراتيجية القطرية
10	باء - إدارة البرنامج القطري
10	جيم - الشراكات
11	دال - الاتصالات وإدارة المعرفة
11	هاء - إطار التمويل بموجب نظام تخصيص الموارد على أساس الأداء
13	واو - المخاطر وإدارة المخاطر

## الذيول

الذيول الأول - عملية التشاور بشأن تصميم برنامج الفرص الاستراتيجية القطرية

- الذيل الثاني - الخلفية الاقتصادية القطرية  
الذيل الثالث - إطار إدارة نتائج برنامج الفرص الاستراتيجية القطرية  
الذيل الرابع - إطار إدارة نتائج برنامج الفرص الاستراتيجية القطرية السابق  
الذيل الخامس - اتفاق تقييم البرنامج القطري عند نقطة الإنجاز  
الذيل السادس - ذخيرة المشروعات خلال فترة برنامج الفرص الاستراتيجية القطرية

## الملفات الرئيسية

- الملف الرئيسي 1: الفقر الريفي وقضايا القطاع الزراعي/الريفي  
الملف الرئيسي 2: مصفوفة المنظمات (تحليل جوانب القوة والضعف والفرص والمخاطر)  
الملف الرئيسي 3: المبادرة التكميلية للجهة المانحة/إمكانات الشراكات  
الملف الرئيسي 4: تحديد المجموعة المستهدفة، وقضايا الأولويات، والاستجابة المحتملة

## خريطة العمليات الممولة من الصندوق

استعراض برنامج الفرص الاستراتيجية القطرية

إن التسميات المستخدمة وطريقة عرض المواد في هذه الخريطة لا تعني التعبير عن أي رأي كان من جانب الصندوق فيما يتعلق بترسيم الحدود أو الترخوم أو السلطات المختصة بها.

المصدر: الصندوق الدولي للتنمية الزراعية

## موجز الاستراتيجية القطرية

- 1- **السياق.** يدعم برنامج الفرص الاستراتيجية القطرية هذا السياسات الحكومية ذات الصلة، كما أنه يتسق مع الإطار الاستراتيجي للصندوق. وهو يستند إلى تحليل للسياق الوطني الحالي، وعلى وجه الخصوص للتحديات ذات الصلة بما يلي: بطء النمو الاقتصادي، تغير المناخ، انخفاض العوائد من الزراعة، محدودة فرص العمالة البديلة في المناطق الريفية، النمو الديموغرافي والهجرة، التفاوت في التخفيف من حدة الفقر وهشاشة البيئة السياسية. وهو يبنى على الإنجازات والدروس المستفادة من استثمارات الصندوق، علاوة على التوصيات الواردة في تقييم البرنامج القطري الذي أجري عام 2012. ويعتبر نتيجة لعملية تصميم تشاركية أعطيت الأولوية فيها على وجه الخصوص لصغار المنتجين.
- 2- **الميزة النسبية.** تنبثق الميزة النسبية للصندوق من انخراطه طويل الأمد في المناطق الريفية التي تعاني من أعلى حالات انتشار للفقر، حيث ضافر جهوده لدعم فرص التنمية الاقتصادية مع الآليات المجتمعية الهادفة إلى ضمان إدماج المجموعات المحرومة في جهود التنمية، وتمتعها بفرص وصول متساوية إلى الخدمات والاستثمار.
- 3- **الغاية والأهداف.** الغاية الإجمالية للبرنامج القطري للصندوق هي الترويج لنمو شمولي يتسم بالصمود في المناطق الريفية، والإسهام في توطيد السلام من خلال السعي لتحقيق ثلاثة أهداف استراتيجية، أولها أن الصندوق سوف يحفز تنويع مصادر الدخل والعمالة المنتجة من خلال الترويج لجملة من الفرص الاقتصادية التي يمكن أن تجلب فوائد متساوية لفئات اجتماعية واقتصادية مختلفة في كل من القطاع الزراعي والقطاع غير الزراعي. ثانيها إطلاق العنان لاستثمارات السكان الريفيين الفقراء في الأنشطة الموجهة نحو السوق مما سيؤدي إلى التخفيف من هشاشتهم في وجه تغير المناخ وغيره من الصدمات من خلال دعم الأدوات التي يمكن أن تخفف من المخاطر التي قد يتعرضون لها. وثالثها أن البرنامج سوف يعزز من المؤسسات الريفية بحيث يمكن لها أن تقوم بإيصال خدمات فعالة خاضعة للمساءلة وذكية بيئياً إلى المنتجين في المزرعة وخارجها على أساس متساو ومستدام. ويعترف الصندوق بأن التحسين المستدام لسبل العيش، وبناء المؤسسات الريفية التي يمكن أن تدعمها، وبخاصة في البيئات الهشة من الناحية السياسية والمادية الحيوية هو جهد طويل الأمد يتطلب دعماً متواصلاً للتنفيذ، وكفاءة في إدارة المعرفة، ومرونة في التأقلم، والتزاماً مطولاً بدعم بناء المؤسسات. ولهذا السبب سيسعى إعداد الحافظة إلى خلق التوازن بين المداخلات الرامية إلى تعزيز المشروعات الجارية وتلك التي تسعى إلى تطوير هذه الحافظة، بما يتماشى مع توصيات تقييم البرنامج القطري ومع الاستراتيجية الجديدة للتنمية الزراعية.
- 4- **ستستهدف استثمارات الصندوق مجموعتين رئيسيتين وهما: (1) الأسر الزراعية الهشة التي تمتلك ما يكفي من الأراضي لتنمية الأنشطة الزراعية كمصدر رئيسي لعيشها، وستتم مساعدتها في تنمية تكثيف وتنويع زراعي مستدام، وفي تحسين قدرتها على إضفاء الطابع التجاري على منتجاتها على طول سلاسل القيمة المختارة بما يتماشى مع قدرتها لدعم التفاعل مع الأسواق؛ (2) الأسر فقيرة الأراضي والشباب العاطلين عن العمل أو ممن لا يعملون بكامل طاقتهم، بما في ذلك المهاجرين العائدين الذين لا يستطيعون كسب عيشهم من الزراعة. وسوف يتم دعم هؤلاء بتطوير مشروعات صغرى في القطاع غير الزراعي.**

5- أما التخصيص الإشاري لفترة هذا البرنامج (2013-2018) فهو بحدود 84 مليون دولار أمريكي، وسوف يسعى الصندوق إلى تعبئة تمويل مشترك إضافي لهذا الاستثمار. وبموجب دورة نظام تخصيص الموارد على أساس الأداء الأولى (2013-2015) سوف يخصص الصندوق حوالي 32 مليون دولار أمريكي لمشروع جديد يروج للمشروعات الريفية الصغرى والصغيرة، ويدعم المهارات الحرفية للعمل، علاوة على الاستفادة من إمكانيات تحويلات المهاجرين لدعم الاستثمار الزراعي المنتج. إضافة إلى ذلك، سيتم توفير 25 مليون دولار أمريكي للمشروعات الجارية بحيث تستطيع تحسين قدرة أصحاب الحيازات الصغيرة على التأقلم مع تغير المناخ. وفي الدورة القادمة، سيمول الصندوق مشروعاً جديداً آخر بما يقدر بحوالي 30 مليون دولار أمريكي لتطوير عرض مستدام ومتنوع من خدمات الدعم الزراعي لأصحاب الحيازات الصغيرة. إضافة إلى ذلك، فإنه سيخصص حوالي 12 مليون دولار أمريكي آخر لمشروع جارٍ كتمويل تكميلي، وبالتالي فإنه سيعكس التزام الصندوق طويل الأجل بالمجالات الاستراتيجية التي يخطط فيها حالياً.

## نيبال

### برنامج الفرص الاستراتيجية القطرية

#### أولا - المقدمة

1- منذ عام 1978، دعم الصندوق 13 مشروعا وبرنامجا، بحيث صادق على قروض ومنح بموجب إطار القدرة على تحمل الديون بما مجموعه الإجمالي 146 مليون دولار أمريكي، بتكلفة إجمالية تعادل 363 مليون دولار أمريكي. وسوف يحدد برنامج الفرص الاستراتيجية القطرية الجديد هذا الإطار لشراكة بين الصندوق وحكومة نيبال على مدى السنوات الست القادمة. وسيتمثل المخرج النهائي في عملية تصميم تشاركية تركز على وجه الخصوص على صغار المنتجين، وتبني على التوصيات الناجمة عن تقييم البرنامج القطري لعام 2012.

#### ثانيا - السياق القطري

##### ألف - السياق الاقتصادي والزراعي وسيق الفقر الريفي

###### الخلفية الاقتصادية للبلد

2- **بطء النمو الاقتصادي وتزايد الهجرة.** يصل تعداد السكان في نيبال إلى 26.6 مليون نسمة، منهم 83 بالمائة ممن يتركزون في المناطق الريفية، و56 بالمائة ممن تتراوح أعمارهم بين 20-40 عاما. وتعتبر نيبال بلدا منخفض الدخل، حيث يصل الناتج المحلي الإجمالي للفرد الواحد إلى 642 دولارا أمريكيا، وهو ثاني أقل ناتج محلي إجمالي في جنوب آسيا. ومنذ نهاية الصراع الداخلي الذي استمر عقدا من الزمان عام 2006، أسهم انعدام الأمن وانعدام الاستقرار السياسي في بطء نمو الناتج المحلي الإجمالي نسبيا. ويعوق القطاع الزراعي المتدهور (36 بالمائة من الناتج المحلي الإجمالي) والصناعة الراكدة (15 بالمائة من الناتج المحلي الإجمالي) المعدلات المنخفضة للاستثمار المحلي، ومتطلبات القواعد الناظمة المحفوفة بالتحديات، وبيئة الأعمال المحفوفة بالمخاطر، ومحدودية الترابط، والافتقار إلى خدمات الدعم. وأما تنمية قطاع الخدمات، فتعود جزئيا إلى الانتعاش في تحويلات المهاجرين التي تشكل حاليا حوالي 25 بالمائة من الناتج المحلي الإجمالي الضريبي يبلغ حوالي 17 مليار دولار أمريكي.

3- **تراجع الفقر مع وجود تفاوتات كبيرة.** تراجع انتشار الفقر من 42 بالمائة عام 1996 إلى 25 بالمائة عام 2010. ويعود ذلك أساسا إلى أثر تحويلات المغتربين. ويبقى الفقر بمعظمه ريفيا حيث يشكل السكان الريفيون حوالي 88 بالمائة من الفقراء في البلاد. وأما مؤشر فجوة الفقر في المناطق الريفية فهو بحدود الضعف عما هو عليه في المناطق الحضرية (6.0 إلى 3.2). وأما الفقر الأعرق، وإن يكن بكثافة أقل، فهو خاصة من خصائص المناطق الجبلية والهضابية النائية، في حين أنه وبسبب الكثافة السكانية الأعلى، فإن الهضاب الوسطى، والوسطى الغربية، ومنطقة ترائي، تتصف بتمركز أكبر بكثير للسكان الفقراء. وأما السكان

المحليون (داليتس وجاناجاتيس)، فيعانون من معدلات فقر أعلى. ولم تحقق التحسينات المؤسسية المتعددة تقليصاً معتبراً في التمييز الاجتماعي المتجذر في البلاد.

#### الزراعة والفقر الريفي

4- **انخفاض العوائد من الزراعة ومحدودية فرص العمالة البديلة.** تشغل الزراعة 80 بالمائة من السكان النشطين، ولكنها لا تشكل إلا ثلثاً واحداً من الناتج المحلي الإجمالي، مما يعكس انخفاض الإنتاجية على وجه العموم لحوالي 4 ملايين من المزارع الصغيرة. وبسبب النمو السكاني المطرد، تراجعت حجوم الحيازات لتصل إلى ما وسطه 0.7 هكتار للأسرة الواحدة، مع 55 بالمائة من الأسر التي تمتلك أقل من نصف هكتار، بما في ذلك 50 بالمائة من الأسر المعتمدة. وفي حين أن تغير أنماط التحضر (نمو مراكز الأسواق ودهاليز النقل الحديثة) قد خلق طلباً جديداً على السلع والخدمات، إلا أن انخفاض فرص الوصول إلى خدمات الدعم والائتمان، ومحدودية الوصول إلى التدريب الحرفي، وبيئة الأعمال المعقدة تعيق تنمية فرص العمالة البديلة. وأما أول استراتيجية للتأقلم فتتمثل في الهجرة. إذ أن ثلث الرجال العاملين على الأقل قد هاجروا خارج البلاد، وهم يرسلون التحويلات لحوالي 56 بالمائة من الأسر. وأما استراتيجيات التأقلم الأخرى، فتحد بصورة إضافية من قدرة الأسر على تخليص نفسها من قبضة الفقر، وهي تتضمن الحد من الوجبات الذي يؤدي إلى معدلات مقلقة من سوء التغذية بين الأطفال والجوع. إلا أنه، وبالرغم من الحد من الفقر، فإن انعدام الأمن الغذائي وسوء التغذية ما زالا يشكلان مصدراً رئيسياً للقلق، إذ أن حوالي 60 بالمائة من الأسر الزراعية لا تستطيع إنتاج ما يكفي لأكثر من ستة أشهر من استهلاكها من الأغذية، ويعاني حوالي 42 بالمائة من أطفالها من نقص التغذية.

5- **النساء وغيرهن من المجموعات المحرومة الأخرى.** على الرغم من الحد الإجمالي من الفجوة بين الجنسين، التي كشفت عنها الزيادة المستقرة في مؤشر التنمية الخاص بالتمييز بين الجنسين، إلا أن التمييز ضد النساء ما زال قائماً. إذ لا تمتلك حوالي 90 بالمائة من النساء أرضاً أو منزلاً، وأما النساء اللواتي يلمن بالقراءة والكتابة فنسبتهن لا تتعدى 39 بالمائة فقط (مقابل 67 بالمائة بالنسبة للرجال). وقد أدت الهجرة واسعة النطاق إلى تأنيث الزراعة في حين وفرت التحويلات للنساء بعض النقد للاستهلاك الأسري، والنساء مجبرات على تحمل أعباء إضافية تتمثل في تشغيل المزارع وترأس أسرهن في آن معاً.

6- **التوجهات والتحديات.** بدأت الزراعة التجارية، وبخاصة فيما يتعلق بقطاعي محاصيل البستنة والألبان، بالإزدهار، وبدأ قطاع الأعمال الزراعية ينشأ ليلبي طلب التحضر المتنامي. وبدأت تغطية البنى الأساسية الاقتصادية في التحسن مع زيادة الوصول إلى الطرق المعبدة، والكهرباء، والهواتف المحمولة وشبكة الإنترنت. وتوفر الهجرة إمكانية لم يتم الاستفادة منها بصورة كاملة للاستثمار في التحويلات لدعم الاستثمارات المنتجة والاستفادة من المهارات والمعرفة التي يأتي بها العائدون لتنمية فرص العمالة في المزرعة وخارجها. وسيطلب الإيفاء بالطلب المحلي المتنامي على المنتجات الغذائية زيادة في الإنتاجية الزراعية والقدرة التنافسية للإنتاج المحلي. أما أثر تغير المناخ فقد بدئ باختباره في الهضاب والجبال، مما يضع النظم الإيكولوجية الزراعية الهشة أساساً في خطر كبير ويفاقم بصورة أكبر من آثار النمو السكاني السريع وتقلص أحجام المزارع على الحد من الأمن الغذائي المتراجع. وللتخفيف من هشاشتهم، يحتاج المزارعون إلى بناء قدرات جديدة للتأقلم مع الأحداث المناخية المعاكسة وإدارة المخاطر المتزايدة التي بدورها سوف تدعو إلى تبني استثمارات وخدمات دعم تتسم بالتأقلم. وأخيراً يبقى النمو الديموغرافي الكبير الشباب

بدون أية آفاق للعمالة في القطاع الزراعي، ويجبرهم على الرحيل إما إلى المناطق الحضرية أو خارج البلاد سعياً وراء فرص العمالة. وتوفر الهجرة نوعاً من صمام الأمان، إلا أنها تنطوي أيضاً على تكلفة اجتماعية ومالية، وتأتي بعوائد محدودة للأسر الأفقر. وتحتاج فرص العمالة في المزرعة وخارجها إلى الترويج كبداية للهجرة للبناء على الإمكانيات التي توفرها البيئات والمناخات المتنوعة في البلاد، ونمو الأسواق الحضرية، مع ما يترافق مع ذلك من زيادة في الطلب على السلع والخدمات وتنمية سلاسل القيمة المستندة إلى الزراعة.

## باء - السياق السياساتي والاستراتيجي والمؤسسي

### السياق المؤسسي الوطني

7- **القطاع العام.** تدير أربع وزارات مختلفة وهيئات حكومية متعددة القطاع الزراعي مما أثر في السابق على تنفيذ السياسات. وصنفت نيبال في المرتبة الـ 139 بين 176 بلداً في مؤشر مفاهيم الفساد لعام 2012. وعلى الرغم من سياسة اللامركزية التي تفوض بالمسؤوليات إلى لجان التنمية في المقاطعات، إلا أن التقدم الفعال في هذا المجال كان بطيئاً بسبب عدم كفاية الموارد المالية الموكلة إلى المستويات المحلية، والافتقار إلى الموارد البشرية، ومحدودية المهارات، وضعف الإدارة المالية. وتعتبر لجان التنمية في المقاطعات مسؤولة عن خدمات الإرشاد، إلا أن الموارد الخاصة بها ما زالت تحت سيطرة المستوى المركزي. ويعوق خدمات الإرشاد العامة أيضاً ضعف الروابط بين مستوى المقاطعات ومستوى القرى، ومحدودية المهارات، ورداءة مرافق النقل، وتدني إشراك القطاعات غير العامة على الرغم من السياسة الرسمية التي تروج للتنوعية المؤسسية.

8- **منظمات المزارعين.** تعتبر مجموعات صغار المنتجين واسعة الانتشار ولكن عضويتها محدودة. كذلك فإنها تتصف بانخفاض حجوم الأعمال والافتقار إلى المهارات التقنية والإدارية التي غالباً ما تعوق فرصها في أن تكون مستدامة. ويوجد في البلاد أيضاً حوالي 27 000 تعاونية أولية تنسم بمستويات مختلفة من القدرات، ومنظمات قمة مجتمعية تستند إلى السلع وتوفر الخدمات لأعضائها، إلا أن انتشارها يعتمد إلى حد كبير على الوصول إلى الموارد الخارجية. وأما المصرف الإنمائي لصغار المزارعين الذي تمتلكه التعاونيات والمصارف والحكومة بصورة مشتركة، فهو يوفر الخدمات المالية وبناء القدرات بصورة مخصصة لتعاونيات الادخار والائتمان. إضافة إلى ذلك فإن لدى نيبال أربع منظمات رئيسية وطنية للمزارعين بمستويات متفاوتة من الهيكلية، وهي تتوجه صوب الأهداف الأكثر مهنية. وقد دعم الصندوق هذه المنظمات من خلال برنامج التعاون الإقليمي متوسط الأمد مع منظمات المزارعين في آسيا والمحيط الهادئ.

9- **القطاع الخاص والمنظمات غير الحكومية.** تسيطر المشروعات الصغيرة والمنزلية على القطاع الخاص. وما زالت الأعمال الزراعية الخاصة في صورتها الاستهلاكية الأولى، إلا أن هنالك بعض المبادرات الإيجابية التي طورت في تصنيع الألبان ومنتجات الدواجن والشاي والأزهار وبذور الخضار، والتي أظهرت إمكانيات جيدة. كذلك تتوسع شبكات الرعاية الصحية الحيوانية الزراعية. وعلى الرغم من الاستثمار الحكومي الكبير، إلا أن 30 بالمائة فقط من الأسر يتم تخديمها بالمؤسسات المالية، وتعتبر غرف التجارة والصناعة على مستوى المقاطعات مسؤولة بصورة مباشرة عن الترويج للمشروعات الصغرى والصغيرة في

البلاد. ويوفر اتحاد الصناعات الصغيرة والمنزلية في نيبال، الذي يبلغ عدد أعضاؤه 40 000 عضو، ولديه فرع في كل مقاطعة، خدمات الدعم ويمثل مصالح أعضائه في الهيئات الاستشارية. وهناك منظمات قليلة كبيرة وطنية غير حكومية تتمتع بقدرات تنفيذية قوية تم التعبير عنها من خلال قدرتها على الإبقاء على الخدمات على المستوى المجتمعي خلال فترة النزاع، عندما عجزت الوكالات الحكومية عن الاستمرار في عملياتها الاعتيادية.

### الاستراتيجية الوطنية للحد من الفقر الريفي

10- **السياسات الوطنية.** تنص خطط التنمية الوطنية على سياسات الحكومة للحد من الفقر والتنمية الريفية. وتهدف الخطة الحالية لمدة ثلاث سنوات (2010-2011 إلى 2012-2013) إلى الترويج لفرص العمالة وبخاصة في القطاع الزراعي. وما زالت السياسة الزراعية الوطنية لعام 2004 هي السياسة الوطنية الرئيسية لهذا القطاع، وهي تسعى إلى الإسهام في الأمن الغذائي والحد من الفقر. إلا أن هذه السياسة تغطي مجالات عديدة أكثر من اللازم بدون أي استهداف أو خطة عمل. ويعوق تنفيذها الافتقار إلى الموارد والطرائق التشغيلية. وتستكمل وزارة التنمية الزراعية حالياً استراتيجيتها للتنمية الزراعية على المدى الطويل بدعم من جملة من الجهات المانحة، بما فيها الصندوق. ويتوقع لها أن تتصف بأربعة مكونات استراتيجية وهي: التسيير، والإنتاجية، وإضفاء الطابع التجاري، والقدرة التنافسية.

### التنسيق والمواءمة

11- منذ عام 2006، تضاعفت المساعدة الإنمائية الرسمية لنيبال بحيث وصلت إلى 1 080 مليون دولار أمريكي في الفترة 2010-2011. أما المعونة للزراعة والحراجة (وهي 9 بالمائة من إجمالي المعونة، صرف منها الصندوق 7 ملايين دولار أمريكي) فقد تم توفيرها أساساً لمشروعات منفردة ومشتتة إلى حد كبير، مما يؤثر بصورة إضافية على القدرات المؤسسية المحدودة أصلاً. ويدعم الصندوق المزيد من التنسيق والاتساق من خلال تمويله للمساعدة الإنمائية الرسمية، ويشارك في استعراض أداء حافظة نيبال التي تستعرض فيها الحكومة والشركاء الإنمائيون أداء المشروعات الإنمائية وقضايا الإدارة الرئيسية ذات الصلة، والتي تعتبر جزءاً من إطار عمل المساعدة الإنمائية للأمم المتحدة.

## ثالثاً - الدروس المستفادة من خبرة الصندوق في البلد

### ألف - النتائج السابقة والأثر والأداء

12- خضعت أنشطة الصندوق على مدى العقد الماضي لتوجيهين استراتيجيين رئيسيين وهما: التنمية المجتمعية في المناطق الهامشية من الجبال والهضاب الغربية (عام 2000)؛ وإدماج المزارعين في الأسواق على طول الداليز الشمالية الجنوبية مع فرص الوصول إلى الأسواق والطرق (2010). وقد اعتبر تقييم البرنامج القطري الذي أجرى عام 2012 أن البرنامج كان ذا صلة على وجه العموم، ولكنه لم يقدر تماماً الحاجة إلى بناء حكومة محلية مستجيبة لتنفيذ الأنشطة. كذلك فقد وجد هذا التقييم أيضاً بأن هنالك عدم ارتباط واضح بين برنامج الفرص الاستراتيجية القطرية والمشروعات. وقدرت كفاءة البرنامج بأنها مرضية إلى حد ما، مع تحقيق بعض الإنجازات الكمية الجيدة، وبخاصة فيما يتعلق بالبنى الأساسية المجتمعية الاقتصادية والاجتماعية. وأما مجالات المشاكل الرئيسية فتتعلق بالافتقار إلى استدامة المجموعات المستفيدة والتي

تتمتع بقدر محدود من الحوافز للاستمرار بعد إنجاز المشروع، ومعظم خطط التمويل الريفي التي تركز على مجموعات الادخار والائتمان التي لم تصل على الإطلاق إلى مرحلة النضج الكافي. في حين اعتبرت المشروعات المصادق عليها حديثاً على أنها تتمتع بفرص أفضل للنجاح، وذلك بفضل تركيزها على تنمية المجموعات المجدية تجارياً. في حين كان تصنيف فعالية حافظة القروض غير مرض إلى حد ما، ويعود ذلك إلى حد كبير إلى ضعف الهياكل الحكومية التي أسهمت في بطء التنفيذ والصرف. وكانت الشراكات مع منظمات المجتمع المحلي تعمل بصورة جيدة عندما كان يتم تسييرها بالمنح، ولكنها لم تكن قادرة على الاستمرار في البرامج الممولة بالقروض التي تنفذها الحكومة. ويعود ذلك جزئياً إلى قواعد التوريد العامة. وعلى وجه العموم، فقد أشار تقييم البرنامج القطري إلى أن البرنامج لم يسهم إلا بصورة متواضعة في الحد من الفقر، ويعود ذلك أساساً إلى الافتقار إلى استدامة معظم إنجازات المشروعات.

## باء - الدروس المستفادة

13- تشير الدروس الرئيسية المستفادة المنبثقة عن كل من تقييم البرنامج القطري، والاستعراضات السنوية لبرنامج الفرص الاستراتيجية القطرية، وفريق إدارة البرنامج القطري، والمشاورات المحلية التي جرت خلال الإعداد لهذا البرنامج الجديد إلى القضايا التالية:

- يجب أن تتضمن المشروعات الجديدة إجراءات لتعزيز قدرات الحكومة المحلية على توفير خدمات مستجيبة وشمولية للسكان الريفيين والتي من شأنها أن تحسن من أداء المشروعات، وتسهم في عملية توطيد السلام من خلال استعادة الثقة العامة بالمؤسسات الحكومية؛
- البناء على الأمثلة الناجحة السابقة بحيث تبني المشروعات الجديدة أكثر على الشراكات مع الجهات الفاعلة غير الحكومية، بما في ذلك المنظمات غير الحكومية والقطاع الخاص؛
- لا تعتبر المجموعات على مستوى القاعدة مستدامة عندما يتم إنشاؤها فقط لتخدم غرض تمرير الخدمات إلى المشروعات. وهي بحاجة لأن تنشأ على أهداف أوضح وأن يتم بناء قدراتها لتحقيق هذه الأهداف بصورة مستقلة. ولا بد من تطوير الشبكات بهدف الإبقاء على الوصول المستدام إلى الخدمات ما أن ينتهي المشروع؛
- تضع هجرة الرجال أعباء إضافية على النساء، ولا بد من عكس ذلك في تنظيم خدمات الدعم وأنشطة المشروعات، والتي لا بد لها من أن تكون متوائمة مع المعوقات المفروضة على وقت النساء وتفضيلاتهن؛
- يجب أن يصبح الرصد والتقييم أداة إدارية تقدر مخرجات المشروعات ضمن المجتمعات والمجموعات، وبين الجنسين والمجموعات الاجتماعية المختلفة؛ وأن يتتبع النجاحات والنواقص؛ وأن ييسر تبني الحلول لتحسين الأداء. ويحتاج ذلك للرفد بإدارة المعرفة لتتبع الممارسات الابتكارية وتغذية حوار السياسات ودعم توسيع النطاق؛
- تتأثر إدارة المشروعات بالتدوير غير المستدام للموظفين الحكوميين الذين تتألف فرق المشروعات منهم حصراً. ومن شأن الفرق المختلطة المؤلفة من موظفين معينين يدعمون الموظفين الحكوميين أن يكون حلاً فعالاً لمشروعات الصندوق.

## رابعاً - الإطار الاستراتيجي القطري للصندوق

### ألف - ميزة الصندوق النسبية على الصعيد القطري

14- تتبثق الميزة النسبية للصندوق في نيبال من انخراطه طويل الأمد في المناطق الريفية التي تعاني من تفشي أعلى معدلات الفقر فيها. وعلى مدى السنوات الخمس والثلاثين الماضية، مول الصندوق برامج تجمع بين الدعم لتطوير الفرص الاقتصادية والآليات المجتمعية الرامية إلى ضمان أن تتمتع المجموعات المحرومة بوصول متساو للخدمات والاستثمارات. وبما يتماشى مع السياسات الوطنية، فقد تحركت المشروعات الحديثة من التركيز على المجتمعات المنعزلة إلى المناطق الواقعة على طول ممرات النقل الشمالية الجنوبية، حيث يمكن الوصول إلى الأسواق بصورة أيسر وحيث تكون الكثافة السكانية أعلى. وعلى الرغم من محدودية الحضور القطري، إلا أن الصندوق يعتبر شريكاً للحكومة جديراً بالثقة والاحترام.

### باء - الأهداف الاستراتيجية

15- **الغاية الاستراتيجية.** التحدي الرئيسي الذي تواجهه نيبال هو تيسير تحول الاقتصاد الريفي المستند إلى زراعة الكفاف إلى قطاع منتج مستدام تقوده السوق ويولد فوائد تتصف بالمساواة لصالح السكان الريفيين الفقراء والمجموعات المحرومة في سياق تغير المناخ وهشاشة البيئة غير المستقرة سياسياً. وسوف يروج برنامج الصندوق للنمو الشمولي الذي يتسم بالصمود في المناطق الريفية ويسهم في توطيد السلام من خلال نهج ثلاثي الشعب يهدف إلى: (1) تحفيز تنويع مصادر الدخل والعمالة المنتجة من خلال الترويج لجملة من الفرص الاقتصادية التي يمكن أن تأتي بفوائد تتسم بالمساواة لفئات اجتماعية اقتصادية متنوعة في كل من القطاع الزراعي وغير الزراعي؛ (2) الحد من هشاشة السكان الريفيين الفقراء في وجه تغير المناخ وغيره من الصدمات لإطلاق العنان لاستثمارهم في الأنشطة الموجهة إلى السوق؛ (3) تعزيز المؤسسات الريفية بحيث تستطيع أن توصل خدمات شمولية خاضعة للمساءلة للمنتجين في المزرعة وخارجها. ويعترف الصندوق بأن تحسين سبل العيش المستدامة، وبناء المؤسسات الريفية لدعمها، إنما هو جهد طويل الأمد يتطلب دعماً متواصلاً للتنفيذ، وإدارة فعالة للمعرفة، ومرونة في التأقلم والتزاماً طويلاً بدعم البناء المؤسسي. وبالتالي فإن تطوير الحافظة سوف يوازن بين التدخلات التي تعزز المشروعات الجارية وتلك التي تهدف إلى إعداد مشروعات جديدة بما يتماشى مع التوصيات الجديدة الواردة في كل من تقييم البرنامج القطري واستراتيجية التنمية الزراعية.

16- **الهدف الاستراتيجي الأول: الترويج لتنويع مصادر الدخل الريفي وتحفيز العمالة.** سوف يتم تحقيق هذا الهدف من خلال الترويج للتوظيف الذاتي، والمشروعات الصغيرة والصغرى التي يمكن لها أن تولد الوظائف في كل من القطاع الزراعي وغير الزراعي. وسوف يتم تنظيم التدخلات حول ثلاثة مجالات استراتيجية. المجال الأول هي في أنها ستروج لعرض مستدام من خدمات الدعم التي تتصف بالمساواة بين الجنسين والمساواة الاجتماعية، بحيث تمكن من إيصال حجوم أكبر من المنتجات الملائمة الجودة في الوقت المناسب، بما يتماشى مع متطلبات السوق. وسيعتمد ذلك على الترويج لجملة متنوعة من موفري الخدمات ونماذج الأعمال المستدامة بالبناء على الشراكات بين القطاعين العام والخاص، بما في ذلك الاستخدام المبتكر للهواتف المحمولة وشبكة الإنترنت ونهج ما بين النظراء. وثانياً سوف تدعم هذه التدخلات تنمية

روابط السوق لتوفير حصص متساوية من الفوائد لصغار المنتجين بما يتماشى مع قدراتهم المتفاوتة في الانخراط في الأسواق. وسوف تستند التدخلات على تحليل سليم لسلاسل القيمة، وتروج لروابط سلاسل القيمة، وشراكات الأعمال التي تتسم بالمساواة بين المنتجين على نطاق صغير والأعمال الزراعية، والبنى الأساسية للتخزين والأسواق، ومعلومات السوق والترويج لها. وسيتم إيلاء اهتمام خاص لضمان أن تكون هذه الخدمات متوائمة مع المعوقات التي تواجهها النساء ومستجيبة لاحتياجاتهن المخصصة بما في ذلك التكنولوجيات الموفرة للعمالة. أما الاتجاه الاستراتيجي الثالث فسيكون في ترويج هذه التدخلات لاستخدام أكثر إنتاجية لتحويلات المهاجرين من خلال دعم خدمات التحويلات التي تتسم بفعالية التكاليف وتكون متاحة بصورة أيسر.

17- **الهدف الاستراتيجي الثاني: تعزيز الأمن الغذائي والصمود بوجه تغير المناخ وغيره من المخاطر.** سوف تركز التدخلات على ثلاثة مجالات. الأول هو أنها ستسهم في تحسين الأمن الغذائي والتغذوي، وسوف يدعم الصندوق زيادات الإنتاجية لأغراض تنويع المحاصيل الزراعية من خلال الترويج للتقنيات الزراعية المستدامة والوصول المحسن إلى مصادر الأراضي والموارد الطبيعية للأسر المعتمدة من خلال تأجير الحراج، ومخططات الري على نطاق ضيق، والتدريب على شؤون التغذية. وسيفيد تحسين الوصول إلى خدمات الدعم والأسواق المخطط لها بموجب الهدف الاستراتيجي الأول الأمن الغذائي من خلال رفع الدخول. وأما المجال الثاني فستحد هذه التدخلات من المخاطر ذات الصلة بالبيئة والمناخ من خلال بناء قدرة أصحاب الحيازات الصغيرة على التأقلم في مقاطعات مختارة في جميع المشروعات الجارية. وأما المجال الثالث فهو أن هذه التدخلات ستوسع من فرص الوصول إلى الخدمات والمنتجات المالية الشمولية، وبالتالي الحد من المخاطر التي تواجهها مجموعات العون الذاتي غير المرتبطة بالنظام المصرفي الرسمي. ويتطلب ذلك جهوداً تنسيقية من جميع المشروعات لتعزيز استدامة المجموعات الحالية للادخار والائتمان من خلال ربطها بالمؤسسات المالية الرسمية. وأخيراً، يتوقع أن تسهم المبادرات المدعومة بموجب الهدف الاستراتيجي الثالث بصورة مباشرة في بناء الثقة في المؤسسات العامة، وفي الحد من خطر انعدام الاستقرار والنزاعات.

18- **الهدف الاستراتيجي الثالث: الترويج لمؤسسات ريفية شمولية مستدامة وخاضعة للمساءلة.** سوف تدعم جميع المشروعات النسيج الممتد للمنظمات الريفية (بما في ذلك التعاونيات وموئري الخدمات من القطاع الخاص والحكومة المحلية). ويتوجب على أولئك أن يكونوا قادرين على إيصال خدمات تتسم بالاستجابة والمساواة وتلبي توقعات الفقراء بهدف تحسين سبل عيشهم والترويج للعدالة الاجتماعية والاقتصادية وبناء الثقة العامة. وسيتم تحقيق ذلك من خلال ثلاث مجموعات من التدخلات. الأولى التحليل المؤسسي الذي سيتم بناؤه ضمن تصميم المشروعات وخلال التنفيذ بأسره، وسيضمن ذلك أن تتسق أطر المشروعات مع القدرات الفعلية للمؤسسات الريفية وستتضمن إجراءات لبناء القدرات للتطرق للفجوات الرئيسية. وأما المجموعة الثانية، فستطور خطط توسيع نطاق وبناء قدرات مفصلة حسب الاحتياجات لكل مؤسسة من المؤسسات المشاركة. وستمكن التقديرات المنتظمة والتشاركية للقدرات والاستخدام المنتظم لآليات المحاسبة الاجتماعية من إحراز تقدم في الرصد، وتأقلم دعم المشروع مع الأداء الفعلي والديناميات المحلية المتغيرة. وسيتم بناء استراتيجيات واضحة للخروج في تصميم المشروعات، وسيتم رصدها بصورة منتظمة لضمان أن تتحمل الجهات الفاعلة المحلية المسؤولية عن خدمات المشروعات بصورة تدريجية. وأما المجموعة الثالثة

فتتمثل في الدعم الذي سيقدمه الصندوق لحوار السياسات من خلال تطوير الروابط بين المنظمات على مستوى القاعدة والمؤسسات الوطنية. كما أنه سيعزز من الحوار بين أصحاب المصلحة الريفيين. وسيتم تكريس اهتمام خاص لبناء القدرات المؤسسية لتوفير الخدمات التي تتسم بالمساواة بين الجنسين وتستجيب لاحتياجات المجموعات المهمشة المستندة إلى طبقة أو إلى مجموعة إثنية معينة.

### جيم - فرص الابتكار وتوسيع النطاق

19- من خلال برنامج الحيازات الإيجارية الحرجية والحيوانية، نجح الصندوق في تطوير نموذج لتأجير الحراج والذي تم تعميمه في سياسات الحكومة وتشريعاتها. وسيتم إدراج هذه الخبرة في إطار للابتكار وتوسيع النطاق. وسوف يهدف هذا الإطار إلى تعميم الابتكار وتوسيع النطاق في البرنامج بصورة منتظمة في أربعة مجالات عريضة تحدد لأغراض حوار السياسات مما ستم مناقشته أدناه، وسوف يتم اختبار ذلك خلال تصميم المشروع الممول بواسطة برنامج التأقلم لصالح زراعة أصحاب الحيازات الصغيرة الذي سيطور نماذج ناجحة للتأقلم مع تغير المناخ في مقاطعات مختارة في المشروعات الزراعية الجارية. وسوف يتضمن مكونا قويا لإدارة المعرفة لدعم التكرار على نطاق أوسع. وسوف تستخدم المنح القطرية والإقليمية في المقام الأول كأداة لدعم الابتكار، وإدارة المعرفة، والتعاون بين بلدان الجنوب، وحوار السياسات.

### دال - استراتيجية الاستهداف

20- **التركيز الجغرافي.** بهدف توليد الأثر على أكبر نطاق ممكن، وبما يتماشى مع استراتيجيته المؤسسية، وللحظ على خلق الروابط مع الاقتصاد الأوسع، سوف يستمر الصندوق في التركيز على المناطق المتأثرة بالفقر، ولكنه سيسعى أيضا إلى ضم المناطق التي تتسم بكثافة ديموغرافية عالية، وتلك التي تتمتع بإمكانات إيكولوجية زراعية أو غير زراعية، وبإمكانات وصول معقول إليها. وتضم تيراي الشرقية والغربية والغربية القصوى والهضاب الوسطى أعدادا كبيرة من الفقراء الذين يتمتعون بإمكانات جيدة لأنشطة في المزرعة وخارجها. وسوف يستثمر الصندوق في المقام الأول في المناطق التي لم تصل إلى حد الإشباع بعد بسبب وجود الجهات المانحة، وحيث يمكن له أن يطور عمليات التآزر مع المبادرات الموجودة.

21- **المجموعات المستهدفة.** سوف تستهدف مشروعات الصندوق مجموعتين رئيسيتين من السكان الريفيين الفقراء: (1) الأسر الزراعية الهشة التي تمتلك أراضي كافية لتطوير أنشطة زراعية كمصدر رئيسي لعيشها؛ (2) الأسر فقيرة الأراضي والشباب والشابات العاطلين عن العمل أو الذين يعانون من البطالة المقنعة، بما في ذلك المهاجرين العائدين الذين لا يمكن لهم أن يكسبوا عيشهم من الزراعة وحدها. وسيتم دعمهم من خلال تنمية المشروعات الصغرى في القطاع غير الزراعي ومن خلال فرص الوصول لتأجير الحراج. أما المجموعة المستهدفة الثانية، فسوف تتألف من المزارعين الأقل هشاشة ومن صغار أصحاب المبادرات الفردية الذين يمكن لهم أن يكونوا محركين هامين للتغيير ولتنمية سلاسل القيمة، كما يمكن لهم أيضا أن يسهموا في خلق فرص العمل.

22- **الآليات.** سوف يطلب من كل مشروع إعداد استراتيجية للشمولية الاجتماعية والمساواة بين الجنسين لضمان وصول النساء والمجموعات المحرومة اجتماعيا/الأفقر لفوائد المشروع، محددا المخرجات المتوقعة والمؤشرات ذات الصلة. وبهدف الترويج للتغيير التنظيمي، سيتم توفير بناء القدرات لهذه الاستراتيجية

لموظفي المشروعات وأصحاب المصلحة الرئيسيين المنخرطين في تنفيذ الاستراتيجية ورصدها. وسوف يتم الترويج للتعاون مع صندوق التخفيف من وطأة الفقر، الذي يغطي حاليا 40 مقاطعة، ويخطط للتوسع أيضا في المشروعات الحالية والجديدة للبناء على نهج الاستهداف الذي يتبعه وقاعدة المعرفة التي يتمتع بها حول الأسر الفقيرة والمجموعات المحرومة اجتماعيا.

## هاء - الصلات السياسية

23- ستقود انخراط الصندوق في تنمية السياسات القضايا ذات الصلة بالسياسات التي تنجم عن عمليات المشروعات. وستتألف أساسا من تيسير مشاركة السكان الريفيين الفقراء في العمليات السياسية من خلال الترويج لمنابر للحوار على المستويين المحلي والوطني، حيث يمكن تمثيلهم. وسوف يتم تعزيز قدراتهم بحيث يمكن لهم إسماع مخاوفهم والمشاركة بصورة نشطة في حوار السياسات. كما سيأتي بالتحليل والمعرفة لجميع المشاركين. وستتضمن الأنشطة التي ستعد كجزء من الهدف الاستراتيجي الثالث بناء قدرات صناع السياسات على المستوى الوطني ومستوى المقاطعة لتعميم الممارسات الجيدة المعترف بها في أنشطتهم الاعتيادية. وسوف يتم تشجيع منظمات المنتجين التي يدعمها المشروع للمشاركة في حوار السياسات ولإقامة الروابط مع المنظمات الوطنية الرئيسية.

24- وسيتم إيلاء الأولوية لأربعة مجالات ذات صلة بأهداف البرنامج تكون بؤرة تركيز الابتكار وهي: (1) شراكات الأعمال الشمولية للوصول إلى الخدمات والأسواق (الهدف الاستراتيجي 1)؛ (2) استخدام تحويلات المهاجرين للاستثمارات المنتجة (الهدف الاستراتيجي 1)؛ (3) التأقلم مع التفاوتات المناخية من خلال الاستثمارات الذكية مناخيا وتدابير إدارة الموارد الطبيعية (الهدف الاستراتيجي 2)؛ (4) تأجير الحراج (الهدف الاستراتيجي 2).

## خامسا - إدارة البرنامج

### ألف - رصد برنامج الفرص الاستراتيجية القطرية

25- بدأت العملية التشاركية في عام 2012 لوضع نظام للرصد والتقييم/إدارة المعرفة في البرنامج القطري مما سيسمح برصد منتظم للبرنامج من خلال: (1) قياس أداء البرنامج على خلفية إطار إدارة نتائج البرنامج؛ (2) تزويد أصحاب المصلحة في المشروعات والحكومة والصندوق ببيانات وتحليلات تهدف إلى تحسين أداء البرنامج؛ (3) توثيق الممارسات الجيدة بهدف الإسهام في صياغة سياسات وطنية ريفية مناصرة للفقراء وتوسيع نطاقها. وسوف يتضمن النظام ثلاثة مستويات تشغيلية: (1) مكتبة إلكترونية توفر وصولا سهلا الاستخدام على شبكة الإنترنت لوثائق المشروعات والبرامج؛ (2) الصحائف المعيارية للرصد والتقييم في الصندوق - أداة مشتركة للرصد والتقييم - التي ستقتنص المعلومات على مستوى المشروعات عن كل من المخرجات والنواتج، وسوف ترفد استخداما منتظما للمسوحات وآليات المساءلة الاجتماعية ومن خلال الرصد البسيط لدخل الأسر؛ (3) إدارة المعرفة والاتصالات المعقدة في إدارة المشروعات والبرامج لتشاطر الإنجازات والدروس المستفادة والممارسات السليمة.

26- أكد تقدير للإدارة المالية أجراه الصندوق في سبتمبر/أيلول 2012 على الحاجة لتحسين تدفق المعلومات والإبلاغ عن النفقات وتطوير المحاسبة المؤتمتة وتدريب موظفي الصندوق بصورة كافية. وسوف تتضمن وحدة دعم تنفيذ البرنامج القطري موظفاً مالياً يوفر الدعم لفرق المشروعات في هذا الصدد، ويضمن تطبيق الإجراءات الملائمة والمتسقة في البرنامج بأسره.

## باء - إدارة البرنامج القطري

27- ستستمر الجهود التي بُشر بها مؤخراً لتعزيز تماسك البرنامج وتحسين إيصال المشروعات. أولاً، سوف يمكن فريق إدارة البرنامج القطري أصحاب المصلحة في البرنامج من تبادل المعلومات عن إنجازات البرنامج وتطوير التأزر فيه. وسوف يقوم أيضاً بتوفير المشورة والتوجيهات بصورة مباشرة عن تنفيذ البرنامج. ثانياً، سوف يتم إنشاء وحدة دعم تنفيذ البرنامج القطري لتوفير الخدمات المشتركة للمشروعات، وسوف تعطى الأولوية لمجالين اثنين حيث تشتد الحاجة فيهما لتحسين أداء المشروعات واتساق البرنامج، وهما الرصد والتقييم والمظاهر القانونية. ثالثاً، ستضمن الأطر المشتركة للتنفيذ والإدارة: زيادة الاتساق والتأزر في البرنامج ككل. وسوف تتضمن مثل هذه الأطر المشتركة: (1) نظاماً للرصد والتقييم/إدارة المعرفة على مستوى البرنامج القطري واستراتيجية للاتصالات وإدارة المعرفة في البرنامج؛ (2) إطاراً من نهج للابتكار؛ (3) استراتيجية مشتركة للتمويل الصغرى؛ (4) نهج مشترك للترويج لقدرات أصحاب الحيازات الصغيرة على التأقلم مع تغير المناخ.

## جيم - الشراكات

28- **التسيير.** سوف يستمر الصندوق في تعاونه مع وزارة المالية والوزارات ذات الصلة، مع تركيز مخصص على دعم تنمية إطار سياساتي شامل للقطاع الزراعي من خلال: (1) توفير الدعم لتنفيذ استراتيجية التنمية الزراعية، بما في ذلك الخطوات الموجهة لوضع نهج مرّن للقطاع الزراعي الشامل بصورة متدرجة؛ (2) دعم تنمية منابر التنسيق والتشاور متعددة أصحاب المصلحة على المستويين الوطني والمحلي. وسوف تتم المبادرة بشراكة جديدة مع الوزارة التي تضطلع بالمسؤولية عن المشروعات الريفية الصغرى. وسيتم تعزيز الشراكات مع الحكومة المحلية وتزويدها ببناء القدرات الملائم. واستجابة لتبعثر وتفتت المعونة، سوف يدعم الصندوق جدول فعالية المعونة من خلال اتساق أفضل لطرائق تنفيذ مشروعاته مع الاستراتيجيات والنظم الوطنية ومع الخطط الفصلية للمقاطعات، إضافة إلى الوصول إلى تكامل أفضل مع المؤسسات الوطنية.

29- **المجتمع المدني والقطاع الخاص.** بما يتماشى مع الاتفاق عند نقطة إنجاز تقييم البرنامج القطري، سوف يفتح الصندوق تنمية برنامجه لمشاركة أقوى مع منظمات المجتمع المدني في المجالات التي تمتلك فيها ميزة نسبية بهدف تحسين استجابة المشروع لاحتياجات المجموعات التي تمثلها. وسوف يتم توفير بناء القدرات حيثما تستدعي الحاجة لاستدامة الأداء. إضافة إلى ذلك، سيتم الطلب إلى المنظمات غير الحكومية الوطنية والدولية التي تتميز بمعرفة وخبرة تقنية معترف بها توفير المساعدة التقنية لتنفيذ المشروعات، وبخاصة في المجالات ذات الصلة بالشمولية الاقتصادية، والمساواة بين الجنسين، وتمكين المنظمات الريفية لفقرى الريف. وسيتم السعي للحصول على إشراك متزايد للأعمال الزراعية والمؤسسات المالية لتطوير وصول صغار المنتجين إلى الخدمات والأسواق من خلال شراكات أعمال تتسم بالربحية والمساواة. وسوف

يعزز الصندوق من روابطه مع قطاع التعاونيات بهدف رفع قدرات التعاونيات على إيصال الخدمات المستجيبة لأصحاب الحيازات الصغيرة وتعزيز استدامة المجموعات المجتمعية.

30- **شركاء التنمية.** سوف يعزز نظام البرنامج للرصد والتقييم/إدارة المعرفة من قدرة الصندوق على توفير المعلومات المستندة إلى البراهين عن منجزات البرنامج وابتكاراته. وبدوره سيزيد هذا النظام من وضوح صورة الصندوق وييسر تنمية شراكات أقوى مع الجهات المانحة الناشطة محليا، بحيث يتم تطوير التأزر وتيسير تحديد وجهات التكامل والفرص المتاحة لإجراءات مشتركة وتعبيد الطريق لتوسيع النطاق وزيادة التمويل المشترك. وعلى وجه الخصوص، سوف يتم السعي للتمويل المشترك لتنمية البنى الأساسية. علاوة على ذلك، سيستمر تطوير الشراكات التقنية من خلال برنامج منح الصندوق.

### دال - الاتصالات وإدارة المعرفة

31- س يدعم الصندوق تنمية سلسلة قيم معرفية تقوم من خلالها سلسلة من الخطوات المتسقة بتوفير القيمة المضافة على المعلومات الكمية والنوعية المجموعة من خلال نظم رصد وتقييم المشروعات والبرامج. وفي المقام الأول، ستتم معالجة المعلومات وتحليلها: بهدف توليد الدروس المستفادة؛ وتحديد الممارسات السليمة والابتكارات الناجحة؛ وإمكانيات تطوير التأزر وتوسيع النطاق؛ وتعقب الفجوات ونقاط الضعف؛ واقتراح المواءمة المناسبة لعمليات المشروعات/البرامج. وثانياً، سوف يتم اقتناص المعرفة من خلال الأدوات الملائمة (دراسات الحالة لمخططات لنماذج الأعمال، وكتيبات، وخرائط وأدوات سمعية بصرية) وسيتم تخزينها في المكتبات الإلكترونية التي تستضيفها مواقع مشروعات/برامج الصندوق ومنندى IFADAsia. ثالثاً، سيتم تشاطر المعرفة بما يتماشى مع مصالح أصحاب المصلحة المختلفين ومع تيسير توسيع النطاق والتكرار. وسوف تقوم وحدة دعم تنفيذ البرنامج القطرية بالاضطلاع بالمسؤولية الشاملة عن تطوير سلسلة القيم المعرفية، وضمان تعميم إدارة المعرفة والاتصالات في المشروعات.

### هاء - إطار التمويل بموجب نظام تخصيص الموارد على أساس الأداء

32- إذا أبقى الصندوق على المستوى الحالي من تجديرات الموارد على مدى المرحلة الثانية من نظام تخصيص الموارد على أساس الأداء، وإذا ما أبقى نيبال على أداء مستقر، سوف يتم تخصيص حوالي 84 مليون دولار أمريكي للبرنامج على مدى ست سنوات مما يغطي فترة برنامج الفرص الاستراتيجية القطرية (الفترة 2013-2018). وفي الدورة الأولى من نظام تخصيص الموارد على أساس الأداء ومدتها ثلاث سنوات سوف يخصص الصندوق ما يقدر بحوالي 32 مليون دولار أمريكي لمشروع جديد (تتم الموافقة عليه في أبريل/نيسان 2015). وسيروج هذا المشروع للمشروعات الريفية الصغرى والصغيرة ويدعم التدريب المهني على فرص العمالة، وبخاصة لصالح الشباب والشابات، وسوف يستفيد أيضاً من إمكانيات تحويلات المغتربين لدعم الاستثمار الريفي المنتج. إضافة إلى ذلك، سيتم توفير 25 مليون دولار أمريكي للمشروعات الجارية (15 مليون دولار أمريكي من برنامج التأقلم لصالح زراعة أصحاب الحيازات الصغيرة الذي يموله الصندوق، و10 ملايين دولار أمريكي من نظام تخصيص الموارد على أساس الأداء) بحيث يمكن تحسين تأقلم أصحاب الحيازات الصغيرة مع تغير المناخ (كما سيتم المصادقة عليه في سبتمبر/أيلول 2014). أما

في الدورة الثانية من نظام تخصيص الموارد على أساس الأداء ومدتها ثلاث سنوات، فسوف يخصص الصندوق 42 مليون دولار أمريكي (تصور حالة الأساس)، منها حوالي 30 مليون دولار أمريكي لمشروع جديد يتم تقرير التركيز فيه في استعراض منتصف المدة للبرنامج عام 2015، وحوالي 12 مليون دولار أمريكي للمشروعات الجارية كتمويل تكميلي، مما سيعكس بالتالي التزام الصندوق طويل الأمد بالمجالات الاستراتيجية التي يخطر فيها حالياً. وبالنسبة لتصور الحالة العليا، سيؤدي تحسين تقدير أداء نيبال إلى منحها موارد إضافية بما يعادل 11.76 مليون دولار أمريكي تقريباً لاستخدامها في توسيع بعض المجالات أو الأنشطة في المشروعات. أما في حال تصور الحالة الدنيا وتدهور أداء المشروعات، وزيادة انعدام الاستقرار السياسي أو زيادة الفساد، فسيؤدي ذلك إلى تقليص المخصصات المالية الجديدة بحدود 28 بالمائة لتصل إلى حوالي 31.5 مليون دولار أمريكي.

## الجدول 1

حساب المخصصات بموجب نظام تخصيص الموارد على أساس الأداء  
للسنة الأولى من برنامج الفرص الاستراتيجية القطرية

المؤشرات	السنة الأولى من برنامج الفرص الاستراتيجية القطرية
درجات القطاع الريفي	
ألف(1) الإطار السياساتي والقانوني للمنظمات الريفية	3.88
ألف(2) الحوار بين الحكومة والمنظمات الريفية	3.13
باء(1) الوصول إلى الأراضي	3.50
باء(2) الوصول إلى المياه الصالحة للزراعة	3.56
باء(3) الاستفادة من خدمات البحوث الزراعية والإرشاد الزراعي	3.33
جيم(1) الظروف التمكينية لتنمية الخدمات المالية الريفية	3.88
جيم(2) مناخ الاستثمارات المؤاتي للأعمال التجارية الريفية	3.83
جيم(3) الوصول إلى أسواق المستلزمات والمنتجات الزراعية	3.33
دال(1) الحصول على التعليم في المناطق الريفية	3.88
دال(2) التمثيل	3.75
هـاء(1) تخصيص الموارد العامة وإدارتها لأغراض التنمية الريفية	3.75
هـاء(2) المساءلة والشفافية والفساد في المناطق الريفية	2.88
مجموع الدرجات المجمعة	156.50
متوسط درجات التقييم المجمعة	
تصنيف المشروعات المعرضة للمخاطر	3.56
مؤشر تخصيص الموارد التابع للمؤسسة الإنمائية الدولية	4
التصنيف القطري	3.28
المخصصات السنوية (بالدولارات الأمريكية)	5 952
	13 945 026

## الجدول 2

## العلاقة بين مؤشرات الأداء ودرجة تقييم البلد

سيناريو التمويل	تقييم المشروعات المعرضة للمخاطر (1 -/+)	درجة تقييم أداء القطاع الريفي (0.3 -/+)	النسبة المئوية لتغير مخصصات البلد بموجب نظام تخصيص الموارد على أساس الأداء عن السيناريو الأساسي
الحالة الدنيا المفترضة	3	3.26	25%-
حالة الأساس	4	3.56	0%
الحالة العليا المفترضة	5	3.86	28%

## واو - المخاطر وإدارة المخاطر

33- أما الخطر الرئيسي الذي يمكن له أن يقوض إنجاز أهداف برنامج الفرص الاستراتيجية القطرية، فينجم عن انعدام الاستقرار السياسي وهشاشة الحكومة. وسوف يسهم الصندوق في التخفيف من هذا الخطر من خلال إجراء تقديرات مؤسسية بواسطة تصميمات المشروعات وبعثات الإشراف، والبناء على قدرات مؤسسات الحكومة المحلية لإيصال خدمات شمولية وكفوءة، من خلال تمكين السكان الريفيين الفقراء ومنظماتهم من المشاركة في حوار السياسات وعمليات اتخاذ القرارات، وتطوير الآليات لتحسين وصول المجموعات المهمشة إلى فوائد التنمية. أما الخطر الرئيسي الثاني فيتعلق بأحداث الطقس المتطرفة التي تمت ملاحظتها بالفعل في مناطق الهضاب والجبال. وسيحاول الصندوق من خلال مناظرة التمويل من برنامج التأقلم لصالح زراعة أصحاب الحيازات الصغيرة مع الأموال من نظام تخصيص الموارد على أساس الأداء، وتطوير استجابة المشروعات خلال مدة البرنامج بأسره، وزيادة قدرات أصحاب الحيازات الصغيرة بحيث يمكن لهم أن يقلصوا من هذه المخاطر إلى أدنى حد ممكن.

## COSOP design consultation process

### A. Objective

1. This note describes the various steps to be followed in the preparation of the new Country Strategic Opportunities Programme (COSOP) until its approval by IFAD Executive Board in September 2013, which are in accordance with the Updated Guidelines and Source Book for Preparation and Implementation of a Results-Based Country Strategic Opportunities Programme (RB-COSOP). The new COSOP will cover 2013-2018 and two Performance-Based Allocation System (PBAS) cycles. It should reflect the views of IFAD partners in Nepal from the public, private and civil society sectors. An important participation of grassroots organisations (farmers, indigenous people, *dalits*) as well as of the private sector will be a key element of the preparation process.

### B. Institutional Framework

2. The COSOP preparation process will be led by the IFAD Country Programme Manager (CPM) for Nepal and the IFAD Country Programme Officer (CPO) in Nepal. The Country Programme Management Team (CPMT) will provide contributions at key steps in the preparation process and will have an enlarged composition specifically for the COSOP design process. The CPMT will constitute a resource group of COSOP stakeholders, who will participate in the entire country programme design and implementation. The CPMT will have an in-house based element and an in-country element and will be managed by the CPM and the CPO.

3. The core of the CPMT in-house element will comprise the CPM, the CPO, as well as IFAD legal counsel and loan officer. Other members could be added as appropriate if deemed necessary by the CPM.

4. The in-country element of the CPMT will include representatives from: (i) government institutions involved in the implementation of IFAD activities in Nepal; (ii) farmer/civil society organisations; (iii) private sector representatives, including from the finance sector; (iv) development NGOs/research institutions; (v) project coordinators of ongoing IFAD projects; and (vi) donors. The core CPMT would comprise around 25-30 people, with participation as gender balanced as possible. Where appropriate, additional resource persons could be invited to participate in specific sessions. Smaller working groups could also be established to review cross-programme specific issues, for example rural finance or the promotion of producer associations. The list of participants in the core CPMT is attached in Annex 1.

### C. First Step: first CPMT Meeting and start of preparatory studies (October-November 2012)

5. **CPMPT.** During this first meeting, members of the CPMT will be briefed about the purpose of the COSOP and its role within the IFAD programme. They will review the present note and the methodology proposed for COSOP design, and they will provide improvements to be further incorporated in the note. They will agree on the timeframe proposed for the various steps of COSOP design. Finally, they will also decide whether CPMT sub-groups should be created on specific areas and define their mandate.

6. **Studies.** Studies will focus on three areas :

- *Geographic targeting:* a review of existing available secondary data from government, UN agencies and other partners information, will be carried out to establish clear guidance on geographic priorities for IFAD. A key source of information will be the Nepal Living Standard Survey 2009/2010. The review will provide guidance to define target areas for future IFAD-financed projects. Main criteria to be addressed will

include poverty, food security, demography, natural resource endowment and other economic opportunities (including remittances and improved road access), as well as partner programme and planned project allocations till 2018. This study will help in deciding, jointly with the government, on the key areas for IFAD investments during the COSOP period, and will further feed into the preparation of a Geographic Information System to support the monitoring of the programme.

- *Social targeting*: an assessment of the effectiveness of IFAD's previous targeting will be developed and, combined with the outcomes of the geographical targeting study, it will generate recommendations for future targeting, with regard both to target groups and to the methodology to be applied to identify them. Recommendations will be developed in close consultation with CSOs, farmer and indigenous organisations and women groups, and build on the findings of the IFAD Country Programme Evaluation (CPE – see below). The social targeting will take into account not only current poverty assessments, but also available data on the dynamics of poverty (poverty cycles and vulnerability to falling back into poverty trap), as well as changes induced by remittances and improved road access to the districts.
- *Environment and Climate Change Assessment (ECCA)*: The ECCA will detail the following: (i) key environmental and climate change challenges and opportunities influencing the agriculture and rural development (ARD) sector, with a special emphasis on the rural poor and marginalised groups; (ii) assessment of the national and subnational policies, programmes and plans in responding to challenges and opportunities related to environment and climate change with a view to aligning IFAD interventions with country frameworks and IFAD's own environment, climate change and disaster risk reduction policies; (iii) gaps and priorities in existing climate change and environment policy, programme and planning frameworks related to ARD for defining areas of policy dialogue IFAD should engage with; (iv) environment and climate-related challenges and opportunities faced by IFAD-financed on-going projects, lessons learnt and measures for improvement; (v) environmentally sustainable and climate resilient development pathways and interventions to address issues of poverty, and vulnerability to climate change and natural disasters; and (vi) activities that would be funded through the Adaptation for Smallholder Agriculture Programme (ASAP) grant. It is envisaged that the environment and climate change consultant recruited for this work will also accompany the design mission. The ECCA will be financed by IFAD/ECD.
- *Sector/technical priorities*: a review will identify key sector priorities for IFAD future country programme, based on the recommendations of the CPE as well as on the Agriculture Development Strategy (ADS) currently under formulation and on GoN demand. It will also build on a set of specific studies aimed at assessing investment opportunities for IFAD in a number of possible innovative areas, including: (i) crops and livestock improvements, (ii) access to financial and non-financial support services; (iii) youth employment and the development of off-farm economic activities (rural enterprises); (iv) the use and strategies around migrant workers and household remittances, as well as opportunities for developing the productive use of such resources in households; (v) a rapid assessment of IFAD investment options in the light of climate change and climate smart options, particularly examining the LFLP, and the applications from its considerable natural resources benefits. This would include some retroactive, but also ex-ante analysis of project effects on carbon sequestration, using such tools such as the FAO developed Ex-Act; and (vi) any other sector of interest.
- *Two concept notes*, one for each new project.

7. Studies and main related information sources will be posted on [asia.ifad.org](http://asia.ifad.org) (free access, registration required).

8. **Outcome.** The expected outcome of this first step is: (i) a methodology for COSOP preparation that is agreed upon by major IFAD stakeholders; (ii) launching of the set of studies.

9. **Implementation.** The CPMT will be convened by IFAD CPM and/or CPO. Studies will be carried out by FAO consultants in the framework of the IFAD-financed Leasehold Forest and Livestock Project (LFLP) Unilateral Trust Fund, in partnership with ICIMOD for specific areas to be further refined. Specifically, studies on both social and geographic targeting should make use of the body of information gathered by ICIMOD in preparing the Poverty and Vulnerability Assessment tool (PVAT) in the framework of the regional grant financed by IFAD. The PVAT was developed to capture the micro level perspective of mountain peoples' experiences with poverty and vulnerability and to monitor poverty and vulnerability trends on the ground with current data. Furthermore, the review on the use of remittances and the promotion of remittance-based productive investments should draw on a considerable body of work done by ICIMOD. Collaboration will also be sought with WFP to set up the GIS.

#### **D. Second Step: Annual COSOP Review and second CPMT Meeting (November-December 2012)**

10. The annual review of the implementation of the current COSOP (2006-2012) will be carried out in the course of November 2013, with a view to assess progress and relevance, and to make recommendations to support the design of the new COSOP. The document will be circulated to the CPMT and it will be discussed in a second CPMT Meeting to be held in December 2012.

11. **Outcome.** The expected outcome of this second step is a COSOP review report and recommendations for the new COSOP that are validated by the CPMT.

12. **Implementation.** The COSOP annual review will be carried out by an independent consultant hired by IFAD, in collaboration with the IFAD country team and IFAD-financed project teams.

#### **E. Third Step: CPE National Roundtable Workshop, Consultation at the Local Level and COSOP Design Mission and drafting (January - March 2013)**

13. **CPE.** IFAD conducted a Country Programme Evaluation (CPE) in Nepal from 22nd March to 20th April 2012. The CPE aims at assessing the performance of IFAD portfolio over 2000-2012 (including loans and non-lending activities such as policy dialogue, knowledge management, partnership development and technical assistance grants), and at providing recommendations for the preparation of the new COSOP. The draft CPE report will be submitted for comments to partners in Nepal by mid-September 2012, further to which a National Roundtable Workshop hosted by the government of Nepal will be hosted end of November 2012 with national stakeholders, including all the members of the country CPMT, and will be geared towards discussing orientations for the new COSOP. Discussions and recommendations will lay the basis for the Agreement at Completion Point to be signed between IFAD and the government of Nepal. It will also provide key orientations for the preparation of the COSOP.

14. **Local consultation.** Prior to the CPE workshop, a local consultation farmers' structures and other key local stakeholders (including private sector, finance institutions, local governments, local civil society organisations and development projects) will be held in Nepalgunj. The objective will be to gather the view of participants on the conclusions and recommendations of the CPE, and to discuss specific strategic issues related to the preparation of the new COSOP.

15. The meeting should gather a maximum number of 60 participants, with a balanced representation of farmers. The assembly should be gender-balanced, socially representative, and also include a good representation of youth groups. Participants should be informed well in advance about the objective of the meeting and what would be expected from them, so that they would be ready to actively participate.

16. The first part of the meeting will be devoted to the presentation of the main results of the CPE, under a form easily accessible by all the participants, followed by a discussion to gain participants' feedback. In the second part of the meeting, participants will break into working groups to discuss a limited number of key issues and to provide their strategic orientations as to how they should be addressed in the new COSOP. Finally, the working groups would convene in a plenary session and come up with the group's conclusions and recommendations to IFAD.

17. **COSOP design mission.** Further to the CPE workshop, and in accordance with its orientations, a consultancy mission will be carried out to complete data collection, further discuss strategic orientations with key stakeholders, and draft a first version of the COSOP.

18. **Outcome.** The expected outcomes of this third step are: (i) the ACP and a set of recommendations to support programme design validated by IFAD stakeholders at the local and national level and by the country CPMT; and (ii) the first COSOP draft.

19. **Implementation.** The design mission will be carried out by a team of consultants mixing international and national competences, and involving the consultant responsible for doing the COSOP review. The local consultation will be organised by the IFAD country team with support from IFAD-financed project teams and from the team of consultants hired to design the new COSOP. It is expected that the main analysis, conclusions and recommendations of the preparatory studies will be available in January to be reflected in the COSOP drafting, while detailed studies (to be presented as part of the COSOP Mandatory Appendixes, Key File Tables or specific working papers) will be finalised at the latest end of February.

#### **F. Fourth Step: Design Workshop and COSOP Validation (April-June 2013)**

20. The first draft of a results-based, gender-sensitive, inclusive and climate-smart COSOP will be submitted to the CPMT, who will discuss it, ensure that it is in line with the national poverty reduction strategy and ADS and that it fits into the overall donor assistance, propose improvements as required and validate it.

21. **Outcome.** The expected outcome of this fifth step is a second COSOP draft reflecting the views of IFAD stakeholders in Nepal and endorsed by the CPMT.

22. **Implementation.** The CPMT will be organised by IFAD CPO and will count on the participation of IFAD CPM. It will be organised after the elections (currently planned for April) to make sure that IFAD proposed strategic orientations are in line with the new government agenda.

#### **G. Fifth Step: IFAD Review, Submission to the Executive Board and Approval (June-September 2013)**

23. Once endorsed at country level, the COSOP document will first go through a peer review at IFAD Headquarters and then be submitted to IFAD Operational Strategy and Policy Guidance Committee (OSC), chaired by IFAD, President in June. In case of significant changes, the revised COSOP would draft would be submitted again to the in-country CPMT. and IFAD EB Secretariat in July. It will be presented to the Executive Board for discussion and approval in September. It will then be widely disseminated to

IFAD stakeholders in Nepal, starting with CPMT members. A Nepali version of the COSOP will be prepared to facilitate distribution and to support knowledge sharing.

#### H. Timeframe

STEP		PERIOD
1	First CPMT meeting and preparatory studies	October-November 2012
2	Annual COSOP review and Second CPMT Meeting	November-December 2012
3	CPE National Roundtable Workshop, Consultation at the local level, COSOP design mission and COSOP drafting	January-February 2012
4	Design Workshop and COSOP validation	April-June 2013
5	IFAD review, submission to the Executive Board and approval	June-September 2013

## IFAD Nepal (2013-2018) – COSOP DESIGN CPMT

### CPMT Members in House (Rome)

1. Dina Nabeel, NEN	10. Edward Heinemann, PTA
2. Jesus Quintana, LAC	11. Pedro De Vasconcelos, PTA
3. Mylene Kherallah, PTA	12. Claus Reiner, ESA
4. Antonio Rota, PTA	13. Roshan Cooke, ECD
5. Rudolph Cleveringa, PTA	14. Sheila Mwanundu, ECD
6. Marco Camagni, PTA	15. Elisa Distefano, ECD
7. Roberto Longo, PTA	16. Sunae Kim, ECD
8. Soma Chakrabarti, PTA	17. Irene Li, CFS
9. Cordone, PTA	18. Eirini Georgiou, LEG

Arable land as % of land area 2009 1/	17	Deposit interest rate 2010 1/	3.6
Forest area as % of total land area 2010 1/	25		
Irrigated land as % of cropland 2008 1/	28		

## COSOP results management framework

COSOP strategic objectives	Outcome indicators related to the strategic objectives <sup>1</sup>	Milestone indicators showing progress towards strategic objectives	COSOP institutional/policy objectives
<b>COSOP Goal: promote inclusive growth in the rural areas and contribute to peace consolidation</b>			
Number of households with improved household asset ownership (RIMS, LFLP, WUPAP, HVAP) <ul style="list-style-type: none"> <li>WUPAP: 134,000 HH have improved their asset base (over 71,000)</li> <li>HVAP and LFLP: percentage of HH with improved asset ownership – no target</li> </ul>			
Length of hungry season (RIMS, WUPAP, LFLP, ISFP) <ul style="list-style-type: none"> <li>WUPAP, LFLP and HVAP: No. of HH experiencing one/two hungry season + No. of months of each hungry season – no targets</li> <li>HVAP: No. of HH reporting improved food security – no target</li> <li>LFLP: No. of leasehold households with improved food security and months per year of adequate food</li> <li>ISFP: 150,000 families improved food security</li> </ul>			
Level of child malnutrition (RIMS, LFLP, WUPAP, HVAP) <ul style="list-style-type: none"> <li>WUPAP: 10% reduction of children malnutrition</li> <li>LFLP and HVAP: % of malnourished children – no targets</li> </ul>			
Youth employment rate			
Percentage of representatives of disadvantaged groups and women in local decision making bodies and multi-stakeholder platforms			

<sup>1</sup> Where relevant, indicators will be disaggregated by gender, ethnic group, region and value chain.

COSOP strategic objectives	Outcome indicators related to the strategic objectives <sup>1</sup>	Milestone indicators showing progress towards strategic objectives	COSOP institutional/policy objectives
<b>SO1: Promote income diversification and stimulate employment</b>	<p>Number of farmers reporting increased yield for selected crops/increased livestock production/increased forestry production in programme areas (LFLP, WUPAP, ISFP)  <b>LFLP: No. of farmers reporting increased yields: 20,590</b>  <b>ISFP: 15% average increase of yields</b></p> <p>Number of farmers reporting increased marketed volume and value of agricultural products (HVAP, ISFP)  <b>ISFP 15% increase of total value production</b></p> <p>Average % increase of farmer/entrepreneur revenue (RIMS, WUPAP, HVAP)</p> <p>Number of jobs generated (RIMS)</p> <p>Volume of remittances mobilised for productive investment</p>	<p>Number of people adopting recommended technologies (RIMS, LFLP, WUPAP, HVAP)  <b>LFLP: 44,300</b></p> <p>Number of marketing groups formed/strengthened (RIMS, HVAP) and number of members (RIMS)  <b>HVAP: 1,000</b></p> <p>Number of partnership arrangements passed between small producers and private sector operator/producers' organisations for the provision of support services/marketing (HVAP, ISFP)  <b>ISFP: 50% of seed groups/35% of livestock groups establish private contracts</b></p> <p>Number of people trained in business and entrepreneurship (RIMS, HVAP, ISFP)</p> <p>Volume of remittances channelled through participating financial institutions in target areas and derived volume of savings</p> <p>Enterprises/farmers accessing non- financial services (RIMS)</p>	<p>Economic and institutional models for inclusive business partnerships, including for the provision of support services and for marketing are tested, documented and disseminated</p> <p>Seed Act and its regulations are amended to develop seed quality control system based on licensed service providers (ISFP)</p> <p>Models for the optimisation of migration remittances for productive investment are tested, documented and disseminated</p>
<b>SO2: Strengthen food security and resilience to climatic and other risks</b>	<p>Common-property-resource land under improved management/climate resilient practices (ha) (RIMS, LFLP, WUPAP)  <b>LFLP 31,000 ha</b></p> <p>Number of smallholder households whose climate resilience has been increased (ASAP)</p> <p>Number of farmers with secure access to water resources (RIMS)</p> <p>Number of operational NRM groups, including leasehold groups (RIMS, ASAP, WUPAP, LFLP)</p>	<p>Number of environmental management plans, including forest management systems (RIMS, LFLP, WUPAP)  <b>LFLP: 3,300</b></p> <p>Number of climate smart agricultural and natural resources investments tested, climate adaptation benefits validated and replicated (ASAP)</p> <p>Number of people trained in community management topics (ASAP, WUPAP, LFLP)</p> <p>Number of active borrowers (RIMS, LFLP, ISFP)  <b>ISFP: 26,000</b></p>	<p>Successful models for developing smallholders' capacity to climate change are tested, documented and disseminated</p> <p>Policy lessons are documented and disseminated, based on retrospective assessment of leasehold forestry model developed in IFAD projects</p>

COSOP strategic objectives	Outcome indicators related to the strategic objectives <sup>1</sup>	Milestone indicators showing progress towards strategic objectives	COSOP institutional/policy objectives
	<p><b>LFLP: 3,300</b></p> <p>Clients of rural financial services in the programme areas are multiplied by <b>xxx</b> and include 40% of women</p>	<p>Value of loans and savings mobilised (RIMS, WUPAP, LFLP, HVAP)</p> <p>Number of enterprises/farmers accessing financial services (RIMS)</p> <p>Value of total gross loan portfolio in programme areas is increased by <b>xxx%</b> (RIMS, LFLP)</p> <p>On time repayment rate is above 95% (HVAP)</p>	<p>Successful models for the integration of savings and credit groups into the financial markets and innovative financial products are tested, documented and disseminated</p>
<p><b>SO3: Promote inclusive, accountable and sustainable rural institutions</b></p>	<p>No. of farmers reporting access to services (WUPAP, HVAP) <b>HVAP: 15,300</b></p> <p>Average rate of satisfaction of service users (HVAP)</p> <p>Number of new service providers offering effective and cost-recovered services</p> <p>Number of operational/sustainable producers' organisations (including coops) (LFLP, HVAP, ISFP) <b>LFLP: 2723 in 2011 + 500/yr but flat from 2010 to 2011</b> <b>HVAP: 500 in total (?)</b> <b>ISFP: 15,000 farmers organised in seed producer groups and linked to the formal seed sector - + (?) 95 farmers groups + 80 coops (but another indicator says 37 increase) + 40 women coops</b></p> <p>Number and type of partnerships established by producers' organisations</p> <p>30% of decision-making positions in farmers' groups occupied by women/disadvantaged groups</p>	<p>Number of multi-stakeholders' consultative platforms established at local/national level</p>	<p>Consultation mechanisms gathering producers, public authorities, the private sector and NGOs involved in programme related fields<sup>1</sup> are set up and mainstreamed into public investment planning, implementation and M&amp;E processes</p>

## Previous COSOP results management framework

Country Alignment	Strategy	Key Results Framework for COSOP			Institutional/Policy Objectives	Summary of Key results
Poverty Reduction Strategy Targets		Strategic Objectives <sup>1</sup>	Outcome Indicators <sup>2</sup>	Milestone Indicators <sup>2</sup>	Specific Policy/Institutional Ambitions	
<p><u>Pillar I: High and Broad-Based Economic Growth</u></p> <p>Implementation of the APP to achieve &gt;4 per cent agricultural sector growth, including: development of rural financial services, research and technologies and creation of a better environment for private sector development and participation in order to improve agricultural productivity and market access</p>		<p><b>SO I: Increased access to Economic Opportunities by poor farmers and producers in hill and mountain areas</b></p>	<p>OC 1.1 Percentage increase in volume and value of agricultural, livestock or forestry output in the project districts in hills and mountain areas (<i>X % of farmers report increased volume and value in output based on the selected high value commodity</i>)</p> <p>OC 1.2 Percentage increase in trade flows to/from project districts in hills and mountain areas (<i>X % of farmers, cooperatives and private sector operating in the project report increased annual trade flows</i>)</p> <p>OC 1.3 Increased incomes by farmers from selected high value commodity in the project districts in hills and mountain areas (<i>X % of farmers in the project area report increased incomes</i>)</p>	<p>MS 1.1 Number of commercial linkages and partnerships between farmers, input suppliers and downstream markets. (<i>min 1- 2 private sector partnerships created in the form of cofinancing of rural commercial activities by COSOP mid-term review; X% of farmers report on new partnerships created</i>)</p> <p>MS 1.2 Improved access to market information. (<i>Regular information available on the market prices of the selected high value commodities in the project districts; new technologies introduced to facilitate access to information; further market research based on demand carried out by COSOP mid-term review</i>)</p> <p>MS 1.3 Improved access to financial services. (<i>financial services developed for rural</i></p>	<p>Enabling regulatory framework for rural financing developed and enforced to support the development of a self-sustaining financial service delivery in the hills and mountains. (<i>Dialogue related to the review of microfinance service delivery mechanisms, including legal framework, management capacity and supervision and linking of the savings and credits groups to formal financial system.</i>)</p> <p>Agricultural research and extension system established and supporting high value agriculture production (<i>Dialogue on the research priorities, pro-poor research and partnerships with NGOs and private</i></p>	<p><b>HVAP</b></p> <ul style="list-style-type: none"> <li>MS 1.2 Market Information Service System established in 7 project districts by involving District Chamber of Commerce and Industries (DCCIs) to increase the access of farmers in market information.</li> <li>OC 1.3 10% farmers involved in project activities have increased the income by 16%</li> </ul> <p><b>LFLP</b></p> <ul style="list-style-type: none"> <li>OC 1.1 About 60% of farmers report increased production/yields from the handed over leased lands/leasehold forests.</li> <li>MS 1.2 LFUGs are getting the concerned information on market through DLSOs, DFOs, Goat Resource Centres as well as staff mobilized.</li> <li>MS 1.3 Out of 3188 LFUGs formed during 2006-2012, all LFUGs have their own saving and credit schemes and 90% farmers are getting the micro-credit facilities from their own group fund. In addition, there are 54 LFUGs Cooperatives formed for the service.</li> <li>MS 1.3 About NRs 62million has been</li> </ul>

<sup>1</sup> Strategic Objectives for IFAD activities in the new investment programme area and in the districts of the ongoing programmes addressing the SOs I-III (WUPAP SO I-III, LFLP SO III and the Local Livelihoods Programme SO I-II).

<sup>2</sup> Key performance indicators for the new investment programme and the ongoing programmes addressing the SO I-III. Target indicators of the new investment programme will be updated following the sub-sector and value-chain assessments carried out for the design of the project. Indicators will be monitored as part of project's M&E activities and annual reporting, including RIMS monitoring. The country programme will also link with the GON PRSP monitoring of production in high value crops/ livestock commodities (responsibility by the MOAC) and other M&E efforts by the GON and donor agencies.

## **CPE agreement at completion point**

### **A. Background and Introduction**

1. The Independent Office of Evaluation (IOE) of IFAD undertook a Country Programme Evaluation (CPE) in Nepal in 2011-2012. This was the second CPE in Nepal. The first CPE was completed in 1998 and provided foundations for the first Country Strategic Opportunities Paper (COSOP) prepared in 2000. The 2011-2012 CPE had two main objectives: (i) to evaluate the performance and impact of IFAD's operations in the country; and (ii) to generate lessons and recommendations to inform the next country strategic opportunities programme (COSOP) for Nepal, planned for 2013.

2. The Agreement at Completion Point (ACP) reflects the understanding between the Government of Nepal (represented by the Ministry of Finance) and IFAD Management (represented by the Programme Management Department) on the main evaluation findings (see section B below), as well as the commitment by IFAD and the Government of Nepal to adopt and implement the CPE recommendations within specific timeframes (see section C of this ACP). The implementation of the recommendations agreed upon will be tracked through the President's Report on the Implementation Status of Evaluation Recommendations and Management Actions, which is presented to the IFAD Executive Board on an annual basis by the Fund's Management. In addition, this ACP will be submitted to the Executive Board of IFAD as an annex of the new COSOP for Nepal.

### **B. Main Evaluation Findings**

3. Overall, this CPE assessed the IFAD/Nepal partnership for the period 1999-2012 to be moderately satisfactory (4 on a scale of 1 to 6).

4. IFAD's presence in Nepal (since 1978) can be generally described as productive and beneficial for the client country yet somewhat weakened by poor program design and implementation; and frequent changes in the staff responsible for Nepal program and projects; almost non-existent policy dialogue with the authorities in pertinent areas; and lack of coordination with donor partners.

5. IFAD strategies in Nepal (as reflected in two COSOPs, 2000 and 2006) were generally relevant to the needs and priorities of the country, but their actual implementation followed the old project-centric model and lacked strategic coherence.

6. Moving forward, IFAD will need to capitalize on the generally solid foundation of its partnership with the Nepali authorities that earned IFAD the respect and trust it generally enjoys in the country. It will need to solidify these achievements and develop a new model of partnership, that will take into account the quickly evolving economic and political realities in the country and the sub-region. Nepal is changing at a fast pace and IFAD needs to avoid the "business-as-usual" approach and come up with a strategy that will reflect the main transformational factors, such as the large-scale migration (internal and external); the leading role of remittances in the overall economic growth and poverty reduction; emergence of new opportunities for private sector development along the quickly growing road corridors, etc.

### **C. Recommendations**

7. The CPE offers recommendations in three broad areas: (1) overall partnership strategy; (2) policy dialogue; and (3) operational and management issues. The recommendations below have been agreed by the Government of Nepal and IFAD.

8. **Recommendation 1:**

- a) **Develop new partnership paradigm and pipeline based on a two-pronged strategy.** The development scene in Nepal's rural areas is characterized by an abundance of project-created beneficiary groups but a shortage of profitable enterprises that create income for the owners/members and employment for the poor. Many development partners, including IFAD, contributed to this situation, based on the broadly accepted paradigm at the time that targeted beneficiaries need to be organised in groups for distribution of project services, goods and resources. Few of the groups developed the cohesion, capital and income stream needed to continue after termination of project support. Nepal's agribusiness and agro-industries are at an infant stage, but rapid urbanisation and neighbouring markets offer opportunities for improving market linkages, including by developing smallholder's linkages with enterprises engaged in various simple (packaging, semi-processing) and more advanced (processing of agricultural commodities and forest products) activities. This would contribute to creating jobs for landless and near-landless who will not be able to escape poverty without off-farm income. If priority is given to value chains of high-value crops suited for intensive cultivation (or intensive animal husbandry), it will also generate jobs in small and medium-sized farms. Pilot projects funded by IFAD grants have demonstrated the potential for cultivation, some processing and marketing of selected products (e.g. off-season vegetables) in the hills and mountains close to the road network. IFAD's recent project, HVAP, is designed to follow up on these opportunities but it is still based on the past tradition of promoting hundreds of groups with little prospects of sustainability. Sustainable poverty reduction would also involve the development of business-minded, profitable producers' groups and cooperatives in key value chains accessible to smallholders, as well as the development of partnerships with private service providers, buyers and input suppliers where they are available. Based on PPPs, public sector agencies would be engaged in addressing bottlenecks of a public goods nature (roads, electricity etc.). Projects will take advantage of clusters or growth nodes along the road corridors. A complementary approach should be developed for remote and isolated communities in the mountains and on the hill tops, far from the road network, with limited access to water and poor soils and conditions for agricultural production. Given IFAD's mandate, such communities should not be neglected in the future portfolio and should be helped in increasing food production and improving their livelihoods. Relevant to IFAD's mandate, sector interventions may include leasehold and community forestry, livestock, improvements in food production, commercial production of high-value-to-weight produce for niche markets, such as MAPs and vegetable seeds, and access to water and possibly also energy (e.g. solar units).
- b) **Proposed follow-up:** the COSOP will describe how IFAD projects will support this dual approach by: (i) improving existing projects dealing with the promotion of better livelihoods, to strengthen sustainability; (ii) increasing IFAD participation to PAF to improve the sustainability of local groups through enhanced financial management, developing linkages to the mainstream financial system and improved knowledge management; (iii) building on HVAP and Biu Bijan to support the development of key inclusive value chains, including by extending HVAP for a second phase to scale up most successful achievements; and (iv) developing a new project to promote rural farm and off-farm micro-enterprises (including cooperatives) and related business development services, providing jobs to rural youth and taking advantage of remittances for productive investment. This could also include the provision of institutional support to relevant public agencies to support a favourable business environment.
- c) **Deadline:** COSOP completed by May 2013 including these elements.
- d) **Responsible entities:** Ministry of Finance, line ministries, IFAD Country Office.

## 9. Recommendation 2:

- a) **Factoring in the conflict dimension and its impact.** IFAD's essential strategy for Nepal was appropriate for a country defined by institutional fragility, but it underestimated what was required to deliver such a strategy effectively. In framing the next COSOP, IFAD may wish to consider drawing on an approach which draws on the analytical logic of the 2011 WDR and the g7+ New Deal. It is intended to support processes of strategic thinking by governments and takes political instability and institutional fragility as the principal constraints to socio-economic development, and draws on the experiences of countries that have registered some success in moving away from repetitive, ingrained insecurity and violence. At the core of the approach is a clear (and continuous) diagnosis of the 'stress factors' that animate instability and fragility – an understanding of which can help identify the combination of confidence-building measures and institutional strengthening programs needed to 'change the narrative' of mistrust in the state. Although this kind of macro-institutional analysis is more appropriate for government and MDB strategic planning than it is for IFAD, there is much to gain from focusing the next COSOP on a clear delineation of the exclusionary factors that hamper access of the poor to productive economic activity, and on what is needed for IFAD is to work effectively through weak partners to create, and sustain the community institutions that will help the poor move into the socio-economic mainstream. Protracted civil conflict resulted in massive migration from rural areas to the cities and abroad. This, in turn, drastically changed the social composition and the economy of the rural areas, increased the share of female-led households, and made the increasing flow of remittances the main driver of poverty reduction and better livelihoods. IFAD strategies will need to take both these factors into account and consider reflecting them in programs and policy dialogue, preferably in cooperation with other development partners.
- b) **Proposed follow-up:** IFAD will ensure that all projects, on-going and new, build on institutional analysis to support the institutional strengthening of community organisations, so that these do not remain project creations but are actively linking to mainstream public institutions and civil society organisations. This will be reflected in the COSOP, together with strong attention to operational strategies to ensure improved inclusion and targeting. Civil society organisations will be recognised as key partners in IFAD operations and in policy dialogue, by including them in project steering committees, and by tapping their experience to improve project implementation. Specifically, each project will develop a range of partnerships with civil society as well as with private sector entities. Furthermore, civil society organisations will be invited to participate in the CPMT and to provide inputs in the COSOP design process. Due consideration will be given in the course of COSOP preparation to modalities geared towards making use of remittances for productive investment.
- c) **Deadline:** June 2013.
- d) **Responsible entities:** CPMT, technical line ministries, project teams.

## 10. Recommendation 3:

- a) **Strengthening the link between policy dialogue agenda in strategy (COSOP) and portfolio (programmes).** The ambitious agenda for policy dialogue included in previous COSOPs was not implemented. This may be due to insufficient time and resources and probably also it was not reflected in project design. Many stakeholders are unaware of COSOP strategic directions, and IFAD-Government partnership has been driven by projects. Given IFAD's limited resources for country programme management and further expected reductions, it is recommended that IFAD and Government jointly identify relevant policy issues in COSOP and embed them within project design and implementation,

including necessary resource allocation. For financing the related work, and to the extent feasible, IFAD will complement loan with grant resources to support policy development and dialogue. As an example, in 2012 IFAD and the Government designed a project to support the seed sub-sector, Biu Bijan (or ISFP). As part of the design process, partners identified policy issues in the seed sub-sector and agree that a seed sub-sector policy or strategy needs to be strengthened with ADS. ISFP should finance related work, as envisaged in the final design document, thus providing an example of a participatory policy dialogue. Within forest product processing and marketing and rural finance there could also be policy issues of relevance to IFAD and the portfolio performance, and where relevant and agreed, loan budgets should make provisions for financing work related to these policy areas. In Nepal, as well as in most other countries where it operates, IFAD does not have the comparative advantage in producing analytical work – an important underpinning for higher quality policy dialogue. However, this gap could be easily filled by closer cooperation with many international and local think-tanks, research centres, and universities – possibly through better-targeted grants programme. Cooperation with ICIMOD is a good example of such productive partnership that could be further expanded in the future.

- b) **Proposed follow-up:** IFAD has limited resources to take up a leadership role among donors supporting the rural sector. However projects constitute powerful tools to develop policy lessons based on successful achievements, and to promote policy dialogue. This will be implemented by building on existing projects (Biu Bijan on the seed sub-sector, WUPAP and PAF on sustainable livelihoods, HVAP on inclusive value chains) to develop knowledge management (tapping on the achievements of both loan and grant projects), to identify policy lessons and to channel them into policy dialogue, including by linking with specialised institutions (such as the Farmers' Forum, ICIMOD, AIT, WOCAN, and other civil society organisations). Policy development and dialogue will also be systematically embedded in new projects design. Furthermore, project-supported farmers' organisations will be encouraged to participate in policy dialogue at the local level, and to liaise with major national organisations so as to increase their efficiency in defending farmers' agendas. Finally, after having supported the formulation of the Agriculture Development Strategy, IFAD will contribute to decreasing current aid fragmentation and dispersion, by improving coordination in implementing the strategy, in line with the aid effectiveness agenda. To this effect, it will support the creation of multi-stakeholder consultation platforms gathering public institutions, farmers' organisations, private sector, NGOs, CBOs and civil society organisations (including both right-based and need-based organizations) to forge partnerships and to support policy dialogue in the agriculture sector at large, as well as in key sub-sectors.
- c) **Deadline:** during COSOP cycle.
- d) **Responsible entities:** IFAD CPM, Government, Foreign Aid Division Ministry of Finance.

#### 11. Recommendation 4:

- a) **Appreciating local context; providing adequate implementation support.** There appears to be a disconnection between IFAD corporate policies requiring attention to local context, and actual provisions to make this happen in Nepal. While the CPE recognises that the allocation for country programme management and implementation support in Nepal is in line with IFAD norms for medium-sized programmes, it also highlights that the semi-fragile and volatile Nepalese context does demand resources above the average. Allowing for local realities is only in part a project preparation/appraisal issue, but also requires to adapt project design to take account of the lessons of experience and to adjust to changing local

dynamics. This in turn requires more implementation support resources than IFAD has normally provided to Nepal. It is further recommended that Government engage external technical support from specialised service providers in the private sector and civil society to address three problem areas that are common in a significant part of the portfolio: (i) implementation driven by quantitative targets rather than being responsive to the demand and problems of beneficiaries; (ii) monitoring systems that do not capture livelihoods changes and indicators for objectives; and (iii) sub-standard financial management. IFAD may help to mobilise grants to finance such support but when this is not possible, projects should include resources to hire external.

- b) **Proposed follow-up:** In order to strengthen projects performance and to save costs of operation, possibility of establishment of a country program support unit (SSU) will be explored with further information from the point of view of cost saving, coordination and its detail architecture and to identify lead agency. IFAD will provide such information and Government will discuss on it to explore as the objective is to facilitate for effective implementation of the project in cost effective manner.
- c) **Deadline:** February 2013.
- d) **Responsible entities:** CPM, CPO, Project Managers, Ministry of Finance.

## 12. Recommendation 5:

- a) **Addressing disadvantage.** Nepal's history of identity group exclusion would seem to argue for the creation of groups consisting of the most excluded castes and ethnicities. However: (i) differences in economic status are widespread but they not always parallel caste/ethnic specificities; (ii) long-established barriers to cooperation between castes/ethnicities are becoming more permeable; and (iii) while the national debate has recognised the rights of marginalized groups, it has been so far unable to device matching practical solutions. Group formation should rather be based on a thorough analysis of prevailing economic and social conditions and on an identification of the various categories of poor, and project support should be geared towards facilitating inclusion. When supporting value chain and rural enterprise development, projects may also provide support to other value chain stakeholders (such as entrepreneurs and less poor farmers) provided this in turn brings increased benefits to smallholders. Mechanisms to ensure that the poor and socially excluded households also have access to project benefits will also be required.
- b) **Proposed follow-up:** the COSOP will support improved targeting as well as the inclusion of disadvantaged categories into project-supported economic dynamics. To this end, the COSOP preparation process will include a specific study on social targeting, which will orient strategic provisions in the main text, in support to both new and on-going projects.
- c) **Deadline:** February 2013 for the study, June 2013 for COSOP.
- d) **Responsible entities:** CPM, CPMT and line ministries.

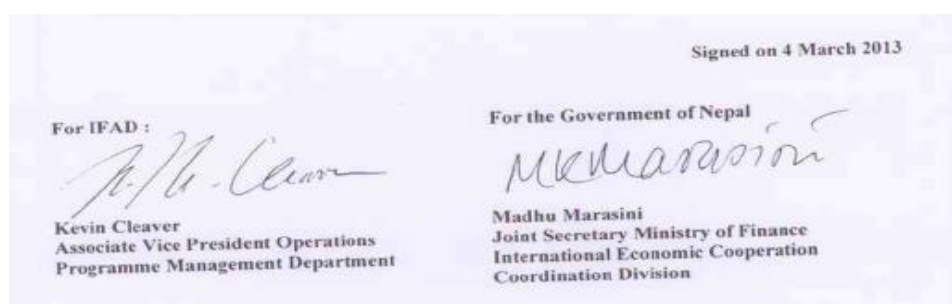

## 13. Recommendation 6:

- a) **Measuring and communicating impact.** Significant effort has gone into measuring outputs. Rather less attention has been given to assessing impact – and relatively little to communicating lessons in ways that can capture the attention not only of busy policy makers, but also of farmers and their organisations, and of other relevant project stakeholders. Two important evaluation techniques that deserve wider use in the coming COSOP cycle are case studies of outcomes (encompassing both successes and failures), and opinion polling (perhaps the most objective way to measure the extent to which institutions are achieving popular legitimacy).

- b) **Proposed follow-up:** M&E systems will be improved so that they can be used as a management tool towards improved results and impacts. This will include: (i) improved progress reporting so that it be more informative on qualitative aspects, outcomes and impact as well as on lessons learnt and potential for upscaling; and (ii) a more systematic use of surveys (baseline, income, annual outcome, impact...) and opinion polling in on-going and new projects; (iii) simplified reporting systems and formats. Furthermore, a country programme ME system to be managed by the country programme support unit (see Recommendation 4) will be set up so as to monitor the implementation of COSOP orientations. Annual project and COSOP monitoring notes will be published to ensure maximum transparency. Knowledge management will be developed and project outcomes and good practices will be disseminated both at the national, policy-making level, and at grassroots, implementation level. Knowledge management and communication will be further enhanced through IFAD Asia and ifad.org, based on a communication strategy for the country programme, to be implemented by projects.
- c) **Deadline:** Every year for Annual COSOP and project monitoring notes. COSOP mid-term review in 2015.
- d) **Responsible entities:** CPM , project teams, line ministries.

#### 14. **Recommendation 7:**

- a) **Aligning COSOP and PBA cycle management.** Although it would be useful to harmonise the COSOP cycle with the Government planning period, given the political uncertainties, it is recommended that IFAD and Government prepare the COSOP to cover two 3-year performance-based allocations (PBAs) according to IFAD's funding cycle. For the first PBA cycle, the COSOP should contain a relatively detailed outline of the pipeline, based on identification undertaken as part of the COSOP preparation. Pipeline project(s) should be comprehensively described in a Concept Note agreed to by IFAD and Government, to support project design and approval during the first two years of the COSOP implementation period. As for the second PBA, a comprehensive COSOP review combined with project identification should be undertaken in COSOP year 3 to allow for design and approval in COSOP year 4 and 5. By implementing this recommendation, IFAD and Government will not take last moment decisions on utilisation of the PBA as is currently the case and which in a political volatile situation has high risk. Planning ahead will facilitate the mobilisation of co-financing and other joint financing arrangements with development partners.
- b) **Proposed follow-up:** the COSOP will cover six years (2013-2018) and will be aligned with two PBAS cycles. It will include concept notes for two projects to be financed under the 2013-2015 Performance Based Allocation (PBAS-around USD 40 million) and climate change Adaptation for Smallholder Agriculture Programme (ASAP fund - around USD 15 million through NGOs). Two additional concept notes for new projects will be prepared further to the COSOP mid-term review in 2015. which could also include a top-up financing to an existing, successful project, in line with COSOP orientations
- c) **Deadline:** June 2013 and June 2015.
- d) **Responsible entities:** CPM, CPO, Ministry of Finance.

## Project pipeline during the COSOP period

### CONCEPT NOTE 1: ADAPTATION IN MOUNTAIN AND HILLS ECOSYSTEMS (AIMHE) (2013)

**A. Justification and rationale.** Climate model projections for Nepal indicate a rise in annual mean temperature by an average of 1.2°C by 2030, 1.7° C by 2050 and 3° C by 2100 compared to a pre-2000 baseline. As a result, agro-ecological zones will shift upwards altitudinally, as is already being experienced by mountain farmers in Nepal. Currently, rainfall patterns have become erratic and a decreasing annual trend has been noted primarily in the mid-Western region during the critical agricultural period of June, July and August. Conversely, increasing intensity of summer monsoon rain events are causing flash floods, erosion and landslides. Rapid retreat of glaciers is leading to the formation of new glacial lakes with potential for catastrophic outbursts. Shifts in precipitation patterns, longer droughts, more severe floods and deficit in the recharge of groundwater are major factors affecting mountain farming as noticed by IFAD projects on the ground.

In order to reduce vulnerability and enhance adaptive capacities of local communities to contend with climate change impacts, IFAD's adaptation to climate change interventions will focus on building resilience of agricultural production and ecological systems, diversification of income generating opportunities, strengthening governance mechanisms and capacitating institutions with climate risk management tools. IFAD has been engaged in such work over the years and the current COSOP provides an opportunity for further scaling-up and enhancing some of the innovations, as well as, introduction of new adaptation elements. For example, the Leaseholder Forestry and Livestock Programme (LFLP) and the Western Uplands Poverty Alleviation Project (WUPAP) are covering a number of areas such as, sustainable agricultural intensification, leaseholder forestry, livestock improvement and microenterprise development. The best practices from these projects such as, forest land lease registration, non-timber forest product (NTFP) cultivation and livestock and fodder improvement, can be scaled-up and specific activities that address climate risk management and enhancement of landscape level ecological resilience will be introduced. While the focus of the project is to build adaptive capacity and resilience to climate change, much of the on-going work of IFAD also contributes substantially to reducing greenhouse gas emissions (GHGs). The reversion of land degradation through the LFLP and WUPAP (largely from their leaseholder forestry components) is leading to the reduction of 207t of CO<sub>2</sub> -e per hectare or 131t of CO<sub>2</sub>-e per farmer respectively<sup>2</sup>. Scaling up this work provides an opportunity for potentially activating a supplementary stream of carbon finance in the future.

**B. Geographic area and target groups.** The project will cover roughly 20 districts made up of approximately 500 villages and 200,000 households (HHDs) associated with on-going IFAD projects areas (a cluster approach will be adopted in order to reduce transaction costs and build on social assets) in the Mid-Western, Western and Central Regions of the country and based on a vulnerability to climate change assessment. In addition, villages and farmers groups will be selected on the basis of the following main criteria: (i) poverty rates and number of poor and female-headed HHDs in each district; (ii) commitment and readiness of farmers and HHDs in implementing sustainable land management (SLM) and climate change adaptation interventions; (iii) performance of IFAD funded on-going projects; and (iv) district and local government endorsement of programme support.

---

<sup>2</sup> FAO (2013) The Impact of the IFAD country portfolio Nepal on climate change mitigation.

**C. Key Project objectives.** The proposed goal of the project is to improve resilience and reduce vulnerability of poor smallholder farmers to climate change impacts. The objectives are the following: (i) capacitate local communities and institutions to better contend with climate variability and change; (ii) improve the resilience of agricultural and ecological systems; and (iii) enhance the policy and institutional frameworks for building resilience to climate change. This project will scale up successful findings and approaches from the Nepali portfolio as well as from the larger Himalaya region. It will enhance as well partnership effort undertaken by climate changes operations and enable the NAPA and LAPA to roll out at scale.

**D. Ownership, harmonization and alignment.** Nepal developed its National Adaptation Programme of Action (NAPA) in 2010, which identifies six priority themes: (i) agriculture and food security; (ii) water resources and energy; (iii) forests and biodiversity; (iv) public health; (v) urban settlements and infrastructure; and (vi) climate-induced disasters. Furthermore, as a means to facilitate the disbursement of funds to the local level a national framework was developed for setting up Local Adaptation Plans of Action (LAPAs). The LAPA is intended to be a practical way to integrate national top-down assessments with bottom up planning of adaptation needs and priorities. The proposed IFAD intervention is fully aligned with this approach and will make a tangible contribution in advancing the implementation of the NAPA via LAPAs.

**E. Components and activities.** The proposed project is comprised of three complementary and mutually reinforcing components that scale up on-going IFAD project achievements that will be identified during project design. Furthermore, the ECCA background document provides a list of potential activities that assist with building adaptive capacity and resilience to climate change. At the local level, the project will design adaptation responses that include sustainable agricultural intensification, integrated watershed management for improving hydrological functions, soil fertility and biodiversity. At the national level, a structured policy dialogue on building resilience to climate change in the rural development sector will be facilitated using evidence from IFAD's field level activities.

*Component 1: Participatory Assessments and Planning for Climate Change* will focus on establishing the basis for an integrated approach to the management of soil fertility, vegetation and water resources at the village level. Such an approach will increase agricultural productivity and enhance ecosystem management. Locally tailored adaptation strategies will be developed using gender sensitive vulnerability analysis, and participatory scenario development and community planning processes. The following activities are envisaged: (i) *Biophysical and socio-economic resource mapping* to better understand the environmental issues at the village level (scale of resource use, existing dependencies, extent of land degradation and unsustainable resource use, resource use conflicts, village infrastructure, farm level economics and nature of support systems); (ii) *Vulnerability assessment and participatory scenario development* to better define gender sensitive adaptation responses and engagement of local communities in identifying practical actions for building resilience to predicted future climate impacts; (iii) *Gender-Equitable Local Adaptation Plans of Action* to channel adaptation investments at a watershed or village level to build climate resilience. The design process of the LAPAs will provide a vehicle for building knowledge among local communities of climate change impacts and for developing their planning capacities for dealing with the envisaged changes. The LAPAs will also form the basis for funding activities under Component 2 and where they have already been developed, activities consistent with IFAD programming will be financed; and (iv) *Monitoring climate resilience* to assess efficacy of the proposed integrated approach.

*Component 2: Sustainable Land and Water Management and Livelihood Improvement* will contain two mutually linked and complementary sub-components under existing IFAD projects. *Sub-component 2.1: Improving vdc*

*and Water Management to Enhance Agricultural Productivity and Diversity* will support the optimization of natural ecosystem benefits through incremental technologies and investments aimed at scaling up sustainable land and forestry management practices, integrated water resource management, agro-forestry and tree planting on degraded lands, sustainable harvesting of non-timber forest products (NTFPs), and diversified natural resources based income streams to provide sources of livelihood and food products during lean periods. Capacity building and training will facilitate community management of the watershed. *Sub-Component 2.2 Livelihood Improvement through Climate Resilient Agriculture and Community Development* will improve access to basic agricultural goods and services, and knowledge on climate resilient agricultural practices and technologies; the use of more resistant and diverse crops for economic diversification; improved local and district seed storage systems; diversification of the forest economy; and training women and poor farmers to adjust cropping patterns based on climate variability.

*Component 3: Knowledge Management, Dissemination and Adaptation Policy Formulation* will facilitate a horizontal and vertical exchange of information and knowledge to strengthen informed decision making, contribute to the formulation of effective local adaptive strategies and enhancing responsiveness of local, district and national administration. The approach will first seek to extract the tested and proven innovations in the Nepal portfolio for scaling up. Many of the innovations constitute excellent no-regret or low-regret adaptation responses to climate change. Furthermore, new activities from Components 1 and 2 will be monitored and evaluated for generating further knowledge on good practices for scaling up. Second, the tried and tested SLM technologies and approaches will be disseminated through different non-state channels, such as NGOs, farmer groups, farmer field schools and private service providers, as well as public extension services. Concurrently, efforts will be taken to equip key local, district and national institutions with tools to better assess risk and plan adaptation responses. The project will strengthen institutional mechanisms at the district and local levels for effective coordination and extension of climate change related tasks by improving operational and technical capacities of local government staff on climate change adaptation and integrated management of natural resources. Training and sensitization of policy makers and sector staff on climate related impacts and adaptation measures will be undertaken. The knowledge management work will also distil and document good practices for integration of adaptation into sector policy formulation and will contribute to promotion of dialogue between research institutions, community institutions and policy makers to build linkages between practice and policy. More specifically, it will support policy dialogue with the government to scale up the successful innovations and best practice for wider national coverage.

**F. Cost and financing.** The project will be financed by IFAD PBAS for USD 10 million and IFAD's Adaptation for Smallholder Agriculture Programme (ASAP), which has allocated USD15 million in grant financing for advancing climate change adaptation in Nepal. External financing will be sought for scaling up geographically and co-financing is expected from government and communities. It is anticipated that the total project cost will be around USD40 million.

**G. Organisation and management.** The 5 year project will be located in the Ministry of Finance under the new IFAD Country Programme Joint Implementation Support Unit (CPISU). The CPISU will provide implementation support services to IFAD funded projects in Nepal; in particular, it will provide support with fiduciary management, procurement, monitoring and evaluation, knowledge management and communication, and supervision oversight. A unit within the CPISU will provide direct management of the ASAP supported project. Specialized NGO services for mapping and vulnerability assessments, planning, social mobilization, capacity building and training, implementation support, and documentation and monitoring will complement existing staff capacities for implementing ASAP activities. Partnership will be established with

DFID (NCCSP), GIZ (NAPA Climate investment fund), IFC (Agricultural Knowledge System), Worldbank and ADB, ICIMOD (HimalAdapt, Adaptation to Change programme), PROCASUR (innovation. Learning).

**H. Monitoring and evaluation indicators.** The project M&E system will be developed in line with the ASAP system. Main indicators will be gender-disaggregated and will include: (i) increased household and community assets; (ii) improved household income; (iii) number of tonnes of greenhouse gas emissions (CO<sub>2</sub>e) avoided and/or sequestered; (iv) number of hectares of land under sustainable land management; (v) number of hectares of sustainable and diversified agricultural cropping areas; (vi) number of farmers who have adopted climate resilient livestock, irrigation and agricultural practices; (vii) number of good practices documented and disseminated; and (viii) number of policy processes launched and changes leveraged.

**I. Risks.** Risks identified in the COSOP also apply to this project. A major risk lies in the enduring political instability and government weakness, which is likely to persist over part of the COSOP period. The strong involvement of private service providers and specialised NGOs in project implementation is also meant to mitigate adverse impact.

## CONCEPT NOTE 2: RURAL ENTERPRISES AND REMITTANCES (2014)

**A. Context and justification.** While the plains (Terai) and central hills are fertile regions holding favourable conditions for agriculture, because of demographic pressure and landlessness they also experience the highest poverty density rates in the country. In recent years, donors' assistance (including IFAD) has been focusing on the Mid and Far Western region, with local absorption capacities now reaching saturation. Central and Eastern plains and hills host areas of intense poverty, particularly along the Indian border and among marginalised castes. Families that cannot live on agriculture have limited alternatives, combining wage labour and widespread migration. Migration offers a security valve and allows migrants to learn new skills, but it also entails a social and financial cost and brings limited returns to poorer families. The project will diversify the range of economic activities (on farm and off farm) accessible to poor rural households and unemployed young men and women by promoting rural entrepreneurship and employment, tapping on the potential offered by good road connections, a dense network of small towns and markets with a growing demand for goods and services, and opportunities to develop profitable, agriculture-related activities (support services and processing). It will offer new livelihood opportunities as an alternative to migration and to families that are too poor to migrate, and it will also help returnees to build on their skills and resources to start a profitable economic activity.

**B. Geographic area and target groups.** The programme will be implemented in selected plain and hill districts of the Central and Eastern regions combining: (i) high poverty and unemployment rates; (ii) high population density; (iii) existing density of micro and small enterprises and potential for further development, including the possibility to develop rural-urban linkages; and (iv) complementarities with other related development programmes. The primary programme target group will be constituted by: (i) existing formal or informal rural micro-entrepreneurs/enterprises that have a potential for development, and will access support to consolidate and expand their activity; (ii) poor households for whom agriculture cannot be a main source of income (in particular landless or close to landlessness families, families resorting to migration, young unemployed or underemployed men and women, returnees from migration) and will either access support to create their own micro-enterprise, or will be offered employment by programme-supported small enterprises; (iii) small enterprises that either play a key role in securing microenterprise access to inputs, services and markets, or have a potential to generate employment, which will have access to business development services and adequate financial products supporting sustainable growth.

**C. Key project objectives.** The project goal matches the national strategic objective of reducing poverty and achieving sustainable peace through employment-focused, equitable and inclusive economic development. The purpose is to promote increased income and employment of poor households. This is to be achieved by: (i) promoting self-employment and micro and small enterprises that can generate jobs; (ii) ensure sustainable access to business development and financial services, as well as to vocational training in direct connection with job placement; and (iii) setting up a conducive policy and institutional environment. The project would directly contribute to the achievement of COSOP objective 1.

**D. Ownership, harmonization and alignment.** Project design will be developed in line with the Industrial Policy, the Agri-Business Promotion Policy and the Technical and Vocational Education and Training Policy. It will be steered by the Country Programme Management Team, which will be enlarged to include relevant key stakeholders (such as the Federation of Chambers of Commerce and Industry, the Federation of Nepal Cottage and Small Industries, the Council for Technical Education and Vocational Training) as well as relevant development partners such as SDC, World Bank, DFID and UNDP. Project design will be harmonised with existing initiatives in the rural enterprise/employment

sector, and will build on lessons learnt from the Skills Enhancement for Employment Project (SEEP) financed by an IFAD grant and implemented by ILO over 2008-2009.

**E. Components and activities.** Project activities will be organised in five components.

- *Component 1 - Enterprise promotion and job development* will aim at (i) identifying and disseminating opportunities for micro-enterprise development in the target areas, through market/value chain assessments, inventory of existing micro-enterprises and opportunities in selected sectors, information and mobilisation; (ii) facilitate access to employment through market surveys to identify job opportunities/requirements, skills development, mentoring and social and counselling skills, and labour intermediation and (iii) strengthening professional organisations pooling services and representing the interests of micro and small entrepreneurs, through capacity and institution building at the local and national level.
- *Component 2 - Services for Employment* will develop access to a range of services in support of (self)employment, including: (i) business development services , including technical, marketing, business management and legal services, business incubation, assistance to access financing, applied research and innovation, business literacy; (ii) short/long term vocational training, in partnership with training institutions and private businesses, facilitation of apprenticeship, job placement and counselling. Services will be demand-driven, cost-effective and cost-recovery based. Capacity building will be made available to enhance service providers' performance.
- *Component 3 - Financial Services* will facilitate the access to credit and other financial products through a range of facilities aiming at: (i) supporting micro enterprise creation and development, including financial incentives for young entrepreneurs; (ii) promoting the use of migration remittances for productive investment, by facilitating their channelling through the formal financial system (including through mobile phone banking), promoting savings and adequate investment products (including equity financing and co-financing for disadvantaged groups such as entrepreneurial women lacking collateral resources), and offering investment advisory services; and (iii) making available investment credit for small and medium enterprises that either create employment or offer market outlets for small farm and off-farm producers.
- *Component 4 - Support Infrastructure* will finance collective infrastructure such as access roads, access to power supply, storage and market infrastructure (through co-financing arrangements). *Component 5 - Institutional Support and Project Management* will promote a favourable policy and institutional environment, organise knowledge management (identification of good practices, monitoring of innovative business models and dissemination of knowledge to stakeholders at the local and national level), and set up a programme coordination structure to secure overall project implementation.

**F. Costs and financing.** IFAD will contribute for approximately USD 35 million over seven years. Additional contributions are expected to be provided by the government and the private sector (including banks and participating enterprises). Furthermore, IFAD and the government will actively seek co-financing from interested development partners, particularly for the financing of infrastructure.

**G. Organisation and management.** The project will be implemented by the Ministry of Industry (MOI), in partnership with the Ministry of Education. A Steering Committee headed by MOI will provide the oversight and guidance for smooth implementation of the project. It will include representatives of the Ministry of Agriculture Development, the Federation of Nepalese Chambers of Commerce and Industries, the Cottage and Small Industry Development Board, financial institutions and cooperatives.

**H. Monitoring and evaluation indicators.** The project M&E and knowledge management system will be developed in line with the Country Programme M&E/knowledge management System including the use of SIMES and the connection to IFADAsia). Participating Chambers of Commerce and other relevant stakeholders will be associated in the definition of indicators and in the design of processes for data collection, analysis and dissemination of results. Main indicators will be gender-disaggregated and will include: (i) enterprise/entrepreneur revenue; (ii) employment; (iii) marketed volume of agricultural products; (iii) added value of marketed production and share accruing to smallholders; (iv) number of entrepreneurs that have access to financial and non-financial services.

**I. Risks.** Risks identified in the COSOP also apply to this project. A major risk lies in the enduring political instability and government weakness, which is likely to persist over part of the COSOP period. The strong involvement of non-governmental and private institutions in project implementation is also meant to mitigate adverse impact. With regard to institutional issues, there is a risk that the Federation of Chambers of Commerce be overburden with an increasing participation in the implementation of development projects, including under IFAD financing. A thorough institutional assessment of the Federation and relevant members, as well as of other players expected to participate in programme implementation will be carried out as part of programme design and measures aiming at strengthening capacities will be included in programme activities. Limited purchasing power in rural areas may also constitute a risk, which will be mitigated by ensuring that selected target areas offer a mix of rural and urban markets and by developing instruments to orient entrepreneurs' investments. Returnees constitute a mobile population that is easily attracted to resuming migration. The range of business development services offered will include coaching and close monitoring of new enterprises until they become profitable and reach conditions required for sustainability.

**J. Timing.** The detailed design of the programme is scheduled to start end 2013. The programme will be presented to the IFAD Board in September/December 2014 so as to be effective in January 2015.

## Key file 1: Rural poverty and agricultural/rural-sector issues

Priority Area	Major Issues	Actions Needed
Rural Poverty	<ul style="list-style-type: none"> <li>• More than one-quarter (27 per cent) of rural population lives below poverty line</li> <li>• Nearly half of the rural poor are agricultural wage workers (47 per cent) and farmers (27 per cent)</li> <li>• The poorest are dalits (42 per cent) and households headed by agricultural wagedworkers (47 per cent).</li> <li>• Landless and small and marginal farmers with less than 1 ha of land constitute nearly three-quarters (74 per cent) of the rural poor. More than one-fifth (21 per cent) of Nepali population is landless</li> <li>• Poverty incidence is highest in mountain areas (42 per cent) and in the far-western (46 per cent) and mid-western (32 per cent) regions</li> <li>• Poverty incidence is positively related to the size of the family and negatively related to the education level of the household head</li> </ul>	<ul style="list-style-type: none"> <li>• Adopt pro-poor rural development policies</li> <li>• Promote agribusiness and agro-processing activities and non-land wage employment opportunities in rural areas</li> <li>• Implement targeted programs for economic and social empowerment of Dalits and small and marginal farming communities</li> <li>• Promote livestock, non-timber forest products (NTFPs), agribusiness and non-farm microenterprises among the landless and near-landless families</li> <li>• Devise and implement a comprehensive lagging-regions development policy</li> <li>• Implement effective family planning, health care and female literacy programs</li> </ul>
Rural Finance	<ul style="list-style-type: none"> <li>• Limited presence and coverage of formal sector financial institutions in remote rural areas</li> <li>• Lack of access to financial services for the hard core rural poor</li> <li>• Limited applicability of the Grameen bank model in the hills and in financing agriculture</li> <li>• Limited access to credit for marginal and small farmers, and small rural entrepreneurs from either banks or NGOs</li> <li>• Lack of a clear microfinance policy and regulatory environment</li> </ul>	<ul style="list-style-type: none"> <li>• Develop and engage NGOs, CBOs and cooperatives as microfinance providers</li> <li>• Promote community-based, self-help savings and credit organizations</li> <li>• Develop mechanisms to enable microfinance to reach the hard-core poor</li> <li>• Support expansion of innovative and well managed small and medium NGOMFIs</li> <li>• Develop an appropriate policy and regulatory framework for microfinance</li> </ul>
Agriculture	<ul style="list-style-type: none"> <li>• Small and fragmented holdings, with low economies of scale in production, processing and marketing</li> <li>• Largely traditional, food crops-dominated and subsistence-based production</li> <li>• Lack of access to markets</li> <li>• Limited coverage of year-round irrigation and water control facilities</li> <li>• Weak agricultural research and extension systems</li> <li>• Unreliable input supplies and service delivery system</li> <li>• Poor plant quarantine facilities and services</li> </ul>	<ul style="list-style-type: none"> <li>• Promote large production pockets or clusters by organizing farmers into groups/cooperatives</li> <li>• Shift to commercial, high-value agriculture production, focusing on commodities of natural comparative advantage</li> <li>• Develop collection centres, information and communication networks, etc.</li> <li>• Promote micro-irrigation technologies in the hills and mountains</li> <li>• Develop partnerships with NGOs and private sector in research and extension</li> <li>• Engage farmers' organisations/coops, NGOs, CBOs and private sector organizations in input supplies and marketing</li> <li>• Develop well-equipped plant quarantine check-posts</li> </ul>
Priority Area	Major Issues	Actions Needed

Livestock	<ul style="list-style-type: none"> <li>Poor health and low-productivity breed of livestock</li> <li>Lack of proper and timely veterinary and animal health services</li> <li>Shortage of milk (55,000 liters per day)</li> <li>Lack of adequate facilities for monitoring and quality control of imported animals and animal products</li> <li>Unhygienic meat production and marketing system</li> <li>Inactive status of NDDDB and lack of implementation of Dairy Policy</li> <li>Limited research in livestock sector</li> </ul>	<ul style="list-style-type: none"> <li>Introduce improved breeds in accessible areas and launch massive artificial insemination programs in remote areas</li> <li>Support milk processing facilities under the management of dairy cooperatives</li> <li>Develop and train local-level veterinary technicians/animal health workers in rural areas</li> <li>Develop quarantine services and strengthen the institutional capacity of Department of Food Technology and Quality Control</li> <li>Build slaughter-houses and enforce safety regulations for quality meat production</li> <li>Activate NDDDB and effectively implement Dairy Policy</li> <li>Increase budget allocation for livestock research</li> </ul>
Forestry	<ul style="list-style-type: none"> <li>Inequitable access to and control over CF resources by the poor, landless, dalits and disadvantaged groups</li> <li>Limited technical, managerial and organizational capacities of CFUGs</li> <li>Limited pro-poor orientation of CFUGs</li> <li>Lack of a legal framework for leasehold forestry program</li> </ul>	<ul style="list-style-type: none"> <li>Sensitize CFUGs and develop their capacity to address equity issues</li> <li>Work with Federation of Community Forest User Groups of Nepal (FECOFUN) to enhance overall institutional capacity of CFUGs</li> <li>Provide part of CF land for NTFP farming as a source of income to the poor</li> <li>Implement appropriate legislation for the LHF and CF</li> </ul>
Horticulture and other high-value commodity	<ul style="list-style-type: none"> <li>Great untapped potentials for commercial cultivation of fruits, offseason vegetables, NTFPs and other high-value commodities in the hills</li> <li>Lack of market access for high-value agricultural products in the hills</li> <li>Lack of certification system within Nepal for domestic organic produce</li> <li>Limited capacity and resources for the development of commercial high-value agriculture and agro-processing in the hills</li> </ul>	<ul style="list-style-type: none"> <li>Implement the North-South Corridor development approach envisioned by the Tenth Plan and the NAP to link production in the hills with the markets in the Terai and in the adjoining states of India</li> <li>Provide incentives for establishing agro-processing industries in the hills</li> <li>Develop organic certification system within Nepal</li> <li>Develop public-private-NGO partnership in research and development</li> </ul>
Gender	<ul style="list-style-type: none"> <li>Women lag behind men in all major indicators of development</li> <li>Women are often paid lower wages than men</li> <li>A number of laws and regulations discriminate women</li> <li>Limited access to assets and employment opportunities</li> <li>Limited access to services</li> </ul>	<ul style="list-style-type: none"> <li>Implement programs for social, economic, political and legal empowerment of women</li> <li>Expand education, health and skill-enhancement opportunities for women</li> <li>Facilitate women's access to services through modalities that suit their needs and reflect their preferences</li> <li>Remove or amend discriminatory laws and regulations</li> <li>Increase awareness amongst men and women regarding gender issues and legal rights.</li> </ul>
Rural/Community Development	<ul style="list-style-type: none"> <li>Poor and underdeveloped physical infrastructure, including road connectivity</li> <li>Weak or non-existent linkages between agriculture and agro-industry sectors</li> <li>Lack of a conducive policy and regulatory environment for increased private sector investment in agro-processing and agribusiness activities</li> <li>Lack of productive employment opportunities for youth</li> </ul>	<ul style="list-style-type: none"> <li>Develop rural infrastructures – roads, electricity, telecommunication, IT centers, etc.</li> <li>Implement measures to promote farm-corporate linkages (e.g., contract farming)</li> <li>Implement an Agribusiness Policy with clear incentives for private sector participation</li> <li>Provide vocational and technical skill enhancement training to promote self-employment of youths in rural areas</li> </ul>

## Key file 2: Organizations matrix (strengths, weaknesses, opportunities and threats)

<i>Strengths</i>	<i>Weaknesses</i>	<i>Opportunities/Threats</i>	<i>Remarks</i>
<b>Ministry of Agriculture Development (MOAD)</b> <ul style="list-style-type: none"> <li>Country wide district network of agricultural extension and livestock services</li> <li>Network of district cooperative offices</li> <li>Well trained and experienced staff in agronomic issues</li> </ul>	<ul style="list-style-type: none"> <li>Limited outreach</li> <li>Extension system oriented towards traditional food grain crops not high value agriculture and livestock</li> <li>Limited knowledge of issues relevant to agro-processing, markets etc.</li> <li>Bureaucratic and hierarchical institution</li> <li>Serious budgetary and manpower constraints – about 70 per cent of budget goes to salaries etc. leaving little for transport of field staff or development programmes</li> <li>Inadequate plant, quarantine and phyto-sanitary facilities impeding exports</li> </ul>	<ul style="list-style-type: none"> <li>Apparent willingness of the government to contribute more resources to agriculture and rural development</li> <li>Agriculture Development Strategy being prepared</li> <li>Initiatives towards responding to stakeholder needs and potential for MOAD to build better working relationships with NGOs</li> <li>Potential to improve phyto-sanitary services to remove technical barriers to trade</li> <li>Political instability and <i>bandhs</i> (strikes) may adversely affect mobility and marketing of farm produce</li> </ul>	<p>MOAD is a key institution in any efforts to address rural poverty through agricultural production and value chain improvement</p>
<b>Ministry of Local Development (MLD)</b> <ul style="list-style-type: none"> <li>Strong and relevant legislative mandate – 1999 Decentralization Act empowers MLD to coordinate and regulate all local level development activities</li> <li>Decentralization process accepted and being implemented</li> <li>Local Development Officer is a Member-Secretary of the District Development Committees (DDCs)</li> </ul>	<ul style="list-style-type: none"> <li>Elected DDCs have lapsed and elections to replace them have not yet taken place – functions are being fulfilled by Government staff who are less sympathetic to devolution principles</li> <li>Weak coordination between DDCs and the NGO sector</li> <li>Problem of dual accountability of staff at district and village levels. Vertical accountability to central government ministries conflicts with horizontal accountability to DDCs and VDCs</li> <li>Limited capacity of DDCs due to very limited financial resources</li> </ul>	<ul style="list-style-type: none"> <li>It will be possible to re-establish elected DDCs and VDCs if the political situation stabilizes</li> <li>Potential to build better working relationships with NGOs</li> <li>Continued political instability and chaos will affect the reflection and functioning of DDCs and VDCs</li> </ul>	<p>MLD and the DDCs and VDCs are key players in all rural poverty reduction initiatives</p>

<b>Strengths</b>	<b>Weaknesses</b>	<b>Opportunities/Threats</b>	<b>Remarks</b>
<b>Ministry of Forest and Soil Conservation</b> <ul style="list-style-type: none"> <li>• Good district network with well qualified and trained staff</li> <li>• Very strong regulatory mandate for forest resource management</li> <li>• Asset rich (but income poor) - owner of all government forest land which covers 29 per cent of Nepal</li> <li>• Master Plan for the Forestry Sector provides a sound guiding policy framework</li> </ul>	<ul style="list-style-type: none"> <li>• Confusing three-pronged approach to forest management with tensions between advocates of the different approaches</li> <li>• Limited financial and human resources, but unable to retain and utilize revenue generated from utilization of assets</li> <li>• Non-Timber Forest Product (NTFP) policy is not being implemented effectively</li> <li>• The institutional culture not supportive to innovation</li> </ul>	<ul style="list-style-type: none"> <li>• Potential for intensified promotion of NTFPs</li> <li>• Potential to generate more income from the Ministry's asset base and improve services</li> <li>• Continued political instability will impede efforts to improve sustainable management of forest resources</li> </ul>	<p>Leasehold and community forestry are important instruments of rural poverty reduction and are an important part of several previous and ongoing IFAD projects</p>
<b>Ministry of Industry and Commerce</b> <ul style="list-style-type: none"> <li>• Responsible for regulation of domestic and international trade and administration of the Company Act</li> <li>• Industrial policy, including the SME policy, in place</li> <li>• Administers commercial law and contributes to the enabling environment for rural commerce</li> <li>• Responsible for overseeing WTO matters</li> </ul>	<ul style="list-style-type: none"> <li>• No significant weaknesses relevant to the COSOP Strategic Objectives</li> <li>• Weak business environment</li> </ul>	<ul style="list-style-type: none"> <li>• Potential partner in implementation of IFAD's forthcoming project in support to micro and small enterprises</li> </ul>	<p>Ministry has a role in the development of an enabling environment for private sector and markets development</p>
<b>Ministry of Social Welfare and Women</b> <ul style="list-style-type: none"> <li>• Has women development officers in all districts who are very strongly committed to women's issues</li> <li>• Ministry has a strong and relevant mandate for women's welfare issues</li> </ul>	<ul style="list-style-type: none"> <li>• Small and relatively weak ministry with lack of experienced professional staff</li> <li>• Limited influence relative to thousands of NGOs</li> <li>• Very limited implementation capacity – main function is to influence policy</li> <li>• Women's Commission, Dalit Commission and the Indigenous People's Academy have only policy and advisory functions</li> </ul>	<ul style="list-style-type: none"> <li>• Potential to mainstream gender concerns into government programmes at district level</li> <li>• Improve staff capability to develop strong policies which influence other ministries</li> <li>• Potential to strengthen policy and implementation capacities</li> </ul>	<p>Ministry should become one of IFAD's key partner institutions, but needs significant strengthening</p>

<b>Strengths</b>	<b>Weaknesses</b>	<b>Opportunities/Threats</b>	<b>Remarks</b>
<b>National Planning Commission</b> <ul style="list-style-type: none"> <li>NPC is the apex planning and policy making body with overarching responsibility for national development planning</li> <li>Long history of establishment and credibility – responsible for formulation of five-year plans and periodic plans</li> <li>The Commission is chaired by the Prime Minister</li> <li>Strong role in donor coordination: responsible for coordination of all externally funded projects and programmes</li> </ul>	<ul style="list-style-type: none"> <li>Commission members are politically appointed and are often subject to change with change in government</li> <li>Monitoring capabilities are weak</li> </ul>	<ul style="list-style-type: none"> <li>Vehicle for coordination of IFAD – supported activities within overall development programmes</li> <li>Likely to have a continuing leading role in development planning – even if system of government becomes federal</li> <li>Potential to elevate activities into high level policy formulation and monitoring rather than detailed implementation planning</li> <li>Could devolve some functions to ministries and strengthen focus on macro-level policy issues</li> </ul>	<p>Close liaison with NPC is essential in order to harmonize IFAD supported strategies and activities with the successive development plans</p>
<b>Council of Technical Education and Vocational Training (Ministry of Education)</b> <ul style="list-style-type: none"> <li>Autonomous policy body responsible for technical and vocational education</li> <li>Network of regional training institutes</li> </ul>	<ul style="list-style-type: none"> <li>Directly engaging in implementation of skills training rather than policy and quality control</li> <li>Quality control standards need strengthening</li> </ul>	<ul style="list-style-type: none"> <li>Increase role in quality control, accreditation and skill testing and reduce direct involvement in training</li> <li>Increase role of private sector and NGOs in provision of training</li> </ul>	<p>Potentially a powerful force in economic regeneration in rural areas by providing technical and vocational training to rural poor and former combatants</p>
<b>Local Government (DDCs, Municipalities and VDCs)</b> <ul style="list-style-type: none"> <li>Directly elected devolved local government organizations</li> <li>VDCs receive block grants from central government</li> <li>DDCs have the right to raise revenue locally and often receive strong support from donors as well</li> <li>Coordinate, regulate and evaluate all development activities within their jurisdiction</li> </ul>	<ul style="list-style-type: none"> <li>Elected representation has been absent since the early 2000, and positions filled by nominated persons</li> <li>Limited number of own staff to undertake development activities</li> <li>Inadequate and variable resource base: remain partly or mainly dependent on resources provided by the central government</li> <li>Conflict of interest when involved in both financing and implementation of development activities</li> </ul>	<ul style="list-style-type: none"> <li>Potential to act as a local level planning commission</li> <li>Would be more effective by contracting out implementation of development activities rather than self-implementing</li> <li>Risk of becoming non-functional due to political infighting when elected bodies resume</li> </ul>	<p>MLD and the DDCs and VDCs are key players in all rural poverty reduction initiatives</p>

<b>Strengths</b>	<b>Weaknesses</b>	<b>Opportunities/Threats</b>	<b>Remarks</b>
<b>Cooperatives</b> <ul style="list-style-type: none"> <li>Membership-based organizations, locally accountable and transparent</li> </ul>	<ul style="list-style-type: none"> <li>Technical and managerial capacity is generally weak</li> </ul>	<ul style="list-style-type: none"> <li>Potentially strong participants in development service delivery</li> </ul>	<p>Strongest cooperatives are in the dairy and savings and credit sectors – but there is potential to adopt similar models in other commercial agricultural sectors</p>
<ul style="list-style-type: none"> <li>Both single and multi-purpose cooperatives</li> <li>About 27,000 cooperatives in existence of which 12,000 are savings and credit coops (excluding forest user groups)</li> <li>Strong network with three tiers: primary, district and central level cooperative organizations</li> </ul>	<ul style="list-style-type: none"> <li>Marginal farmers and very poor and disadvantaged families generally not members of cooperatives</li> <li>Many cooperatives facing shortage of funds to meet the credit needs of their members</li> </ul>	<ul style="list-style-type: none"> <li>Potential to encourage greater participation in cooperatives by poor and marginal farmers</li> </ul>	
<b>Financial Institutions</b> <ul style="list-style-type: none"> <li>Many projects and programmes have savings and credit groups</li> <li>Range of financial institutions: Agricultural Development Bank, financial intermediary NGOs and cooperatives are major providers of rural finance</li> <li>Grameen replicators work satisfactorily in the Terai but not in hill and mountain regions because of lower demographic density</li> <li>Nearly 12,000 cooperatives are exclusively engaged in financial service delivery to members</li> <li>Thousands of informal self-help savings and credit organizations</li> <li>Informal sector remains an important source of rural finance, but is not accessible to all</li> </ul>	<ul style="list-style-type: none"> <li>Many banks have withdrawn from rural areas during the period of conflict</li> <li>Bank lending to rural and agricultural sectors has declined over the years</li> <li>Poorest farmers still lack access to finance, especially in remote areas</li> <li>Self-help groups tend to be large and not well equipped to serve their members</li> <li>Smaller savings and credit groups have weak management and accounting capacity</li> </ul>	<ul style="list-style-type: none"> <li>Potential for banks to return to rural areas in post-conflict situation</li> <li>Opportunity to expand functions of savings and credit groups into health, literacy and other social sectors</li> <li>Use of remittances for productive investment</li> </ul>	<p>Microfinance is an essential element of efforts to reduce economic isolation and promote economic integration of disadvantaged groups</p>

<b>Strengths</b>	<b>Weaknesses</b>	<b>Opportunities/Threats</b>	<b>Remarks</b>
<b>Private Sector Organizations</b> <ul style="list-style-type: none"> <li>Private sector agribusiness is responsive to new market and investment opportunities</li> <li>Representative organizations include Federation of Nepalese Chambers of Commerce and Industry (FNCCI) and Federation of Nepalese Cottage and Small Industries (FNCSI)</li> </ul>	<ul style="list-style-type: none"> <li>Larger scale agribusiness may bypass small farmers and microenterprises</li> <li>Agribusiness enterprises have weak connections to regional and global markets</li> </ul>	<ul style="list-style-type: none"> <li>Industry organizations (federations) could play a major role in certification and marketing of organic produce</li> <li>Agribusiness enterprise have potential for linking modern/commercial sectors to small farmers and for creating jobs</li> <li>Potential for community-based tourism</li> <li>Risk that Nepalese agribusiness firms will find it difficult to compete with much larger regional competitors</li> </ul>	<ul style="list-style-type: none"> <li>Forming closer commercial linkages between farmers and agribusinesses is key to reducing economic isolation and develop employment</li> </ul>
<b>International NGOs (INGOs)</b> <ul style="list-style-type: none"> <li>Over 100 INGOs operating in Nepal</li> <li>Well funded with substantial implementation capacity</li> </ul>	<ul style="list-style-type: none"> <li>INGOs compete with National NGOs for staff and other resources including donor funds</li> <li>Mandatory provision to engage in partnerships with National NGOs</li> </ul>	<ul style="list-style-type: none"> <li>Need to form stronger partnerships with National NGOs</li> </ul>	<ul style="list-style-type: none"> <li>IFAD programmes and projects have so far tended to partner with national NGOs</li> </ul>
<b>NGOs</b> <ul style="list-style-type: none"> <li>Around 1000 national NGOs operating throughout the country</li> <li>NGOs have been able to maintain services at community level during the conflict when government has been unable to operate</li> </ul>	<ul style="list-style-type: none"> <li>Very few National NGOs with sound track record in rural development and poverty reduction</li> <li>Managerial capacity of most NGOs requires strengthening</li> <li>Generally weak functional relationships with Government – Government often reluctant to work with NGOs</li> <li>Government procurement policies constrain partnership with NGOs</li> </ul>	<ul style="list-style-type: none"> <li>Need to develop simplified guidelines for government agencies to contract services from NGOs</li> <li>Potential for National NGOs to work more closely with local NGOs and CBOs</li> </ul>	<ul style="list-style-type: none"> <li>IFAD programmes and projects will very likely continue to work closely with NGOs</li> </ul>
<b>Farmer Organizations</b> <ul style="list-style-type: none"> <li>Ten commodity based federations promoted by the Agro-Enterprise Centre (AEC) of FNCCI through a USAID-</li> </ul>	<ul style="list-style-type: none"> <li>Commodity-based organizations all involve commercial enterprises and small/poor farmers are not generally represented</li> </ul>	<ul style="list-style-type: none"> <li>Potential for IFAD to assist in formation of grassroots Farmer Organizations that are inclusive of the poor and disadvantaged groups</li> </ul>	<ul style="list-style-type: none"> <li>IFAD policies favour engagement with small and resource-poor farmers via effective small farmer</li> </ul>

<b>Strengths</b>	<b>Weaknesses</b>	<b>Opportunities/Threats</b>	<b>Remarks</b>
<p>assisted project</p> <ul style="list-style-type: none"> <li>Sixteen agricultural commodity-based central union of cooperatives</li> <li>All political parties have representatives claiming to represent farmers</li> </ul>	<ul style="list-style-type: none"> <li>Commodity-based central union of cooperatives lack resources and capacity to serve their members</li> </ul>		<p>organizations</p>

### Key file 3: Complementary donor initiative/partnership potential

<b>Donor/Agency</b>	<b>Priority Sectors</b>	<b>Area of focus</b>	<b>Period of current country strategy</b>	<b>Potential for partnership with IFAD</b>

## Key file 4: Target group identification, priority issues and potential response

<b>Typology</b>	<b>Poverty level and causes</b>	<b>Coping actions</b>	<b>Priority needs</b>	<b>Support from other initiatives</b>	<b>COSOP responses</b>
<b>Destitute poor</b>	Includes disabled people, HIV/AIDS affected, abandoned children, homeless and displaced persons	Eating less, begging, prostitution. Limited support from relatives who are often similarly affected	Social welfare measures, feeding programmes (esp. for children), community-based shelter with safety net, group-based production assets, education and medical care.	Anti-trafficking initiative HIV/AIDS programmes Food programmes	IFAD not engaged in humanitarian aid
<b>Extreme poor</b>	Mostly illiterate, landless or near landlessness households who have few other assets. Many are seasonal migrants, wage earners. Includes <i>Dalits</i> , Janajatis and many women. Access only to informal credit at high interest rates	Seasonal migration for low paid access, work, bonded labour, domestic service, sex trade, collection from open resources, pawning household possessions	Employment, support for representation on groups and governance structures, citizenship rights, housing/shelter	Existing IFAD portfolio partly targets this group, particularly PAF  Programme giving income support, social support to excluded groups	Micro-enterprise development  Improved access to and control over common property resources  Facilitate access to savings and loans groups  Job creation in agribusiness enterprises
<b>Moderate poor</b>	Very small farms, generally with some livestock, and own some form of dwelling. Often heavily indebted. Lack access to irrigation water. Generate small surpluses of agricultural produce for selling	Seasonal migration, borrow from relatives and money lenders, mortgage land, forward sell crops at low prices, reduce farm inputs, sell livestock	Employment and self-employment, access to improved technologies and support services, better linkages with markets, health care and education, vocational skills and inclusion in local and national governance	Targeted by IFAD programme  Agricultural extension and support programmes  Microfinance programmes	Support for agriculture diversification and commercialisation of higher value crops  Gender-equitable access to services  Promotion of market linkages
<b>Near poor</b>	Small farms. Own with livestock. Suffer from low financial returns and lack of access to credit and markets. Women suffer from lack of education and lack of access to support services and credit	Seasonal migration, borrow from relatives and money lenders, mortgage land, sell livestock, small businesses	Agricultural technology and gender-equitable access to services, mechanisms to cope with price fluctuations, skill development for value addition	Agricultural extension programmes  Smallholders' inclusion in value chains	Small business promotion  Empowerment of rural women and disadvantaged minorities
