Executive Board – 124th Session  
Rome, 11-13 September 2018

For: Information
IFAD’s Lending Terms and Conditions: Interest Rates for Loans on Ordinary and Intermediate Terms for the Second Semester of 2018

I. Background

1. At the ninety-eighth session of the Executive Board in December 2009, the Board approved the methodology to set interest rates for loans on ordinary and intermediate terms (EB 2009/98/R.14). Since that date, interest rates for loans denominated in special drawing rights (SDRs) have been calculated accordingly, while interest rates applicable to loans denominated in euros and United States dollars (US$) have been calculated in accordance with the decision taken by the Executive Board in 2011 at its 102nd session (EB 2011/102/R.11). Once updated, interest rates are published on the IFAD website.

2. Given evolving circumstances, including the introduction of the Sovereign Borrowing Framework, at the 117th Executive Board session it was agreed that Management would explore additional modalities to inform the Executive Board on the interest rates for ordinary and intermediate lending terms. At each September session of the Executive Board since 2016, an information paper of applicable interest rates for the most recent semi-annual period has been provided. In addition to such reporting, beginning in 2018, IFAD is also submitting a similar information paper at each April session of the Executive Board to address this request.

1 All interest rate calculations have been performed to six decimal places and rounded to two decimal places.
2 US$ rates have been disclosed since second semester 2016 due to the introduction of single currency lending.
3 IFAD ceased intermediate terms in December 2011, at which time there were no US$ denominated intermediate term loans.
