Executive Board — 130th Session
Rome, 8-11 September 2020

For: Approval
Recommendation for approval
The Executive Board is invited to approve the recommendation contained in paragraph 3.

I. Introduction
1. African Risk Capacity (ARC) is composed of two entities: the ARC Agency – a specialized agency of the African Union – and the ARC Insurance Company Limited. Its mandate is to support African governments in improving their capacity to plan, prepare and respond to extreme weather events and natural disasters.

2. The aim of the memorandum of understanding (MoU) between the ARC Agency and IFAD is for the institutions to establish a mutually beneficial framework for cooperation, with a view to facilitating collaboration in common areas of interest, notably integrated risk management, especially against recurrent natural disasters in key vulnerable sectors like agriculture; resilience-building; and post-disaster recovery.

II. Recommendation
3. In accordance with article 8, section 2 of the Agreement Establishing IFAD, the Executive Board is requested to authorize the President to negotiate and finalize a MoU between the ARC Agency and IFAD to establish a cooperation framework, substantially in accordance with the provisions presented in the annex to this document. The signed MoU will be submitted to the Board for information at a subsequent session.
MEMORANDUM OF UNDERSTANDING

BETWEEN

THE INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT

AND

THE AFRICAN RISK CAPACITY AGENCY
MEMORANDUM OF UNDERSTANDING

BETWEEN

THE INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT

AND

THE AFRICAN RISK CAPACITY AGENCY

THIS MEMORANDUM OF UNDERSTANDING is entered into by and between the International Fund for Agricultural Development (hereinafter referred to as the “IFAD”), of the one part, and the African Risk Capacity Agency (hereinafter referred to as “ARC Agency”) of the other part. IFAD and the ARC Agency are hereinafter referred to individually as the “Party” and jointly as the “Parties”.

THE PARTIES;

CONSIDERING that IFAD is a specialized agency of the United Nations and an international financial institution, established by an international agreement (i.e. the Agreement Establishing IFAD), whose primary objective is to mobilize additional resources to be made available on concessional terms for agricultural development in developing Member States. In fulfilling this objective, IFAD provides financing primarily for projects and programmes specifically designed to introduce, expand or improve food production systems and to strengthen related policies and institutions within the framework of national priorities and strategies;

FURTHER CONSIDERING that the ARC Agency was established as a Specialized Agency of the African Union (AU) to help its member countries improve their capacities to better plan, prepare and respond to extreme weather events and natural disasters, thereby protecting the food security of their vulnerable populations. The Agreement Establishing ARC has been signed by 34 African countries across the continent as on 27 March 2020. The ARC Agency has a financial affiliate - ARC Insurance Company Limited - that carries out commercial insurance functions of risk pooling and risk transfer for the benefit of ARC Agency Member Countries. The ARC Agency is supporting its member countries to integrate risk management into their policy and development objectives, especially against recurrent natural
disasters in key vulnerable sectors like agriculture and to build resilience and enhance recovery after disasters. African agriculture has perennially suffered from low levels of investment, both from the public and private sources. This has to a large extent been attributed to the high levels of risk associated with the sector. De-risking investments will therefore unlock financial resources and spur increased flow of investments in agriculture at all levels on the continent;

**NOTING** the evolving needs of IFAD’s Member States as well as the importance of improved cooperation and coordination of efforts of development partners towards meeting those needs;

**RECOGNISING** the potential benefits of collaboration between IFAD and the ARC Agency; and

**DETERMINED** to develop collaboration in defined areas of mutual interest for the benefit of African countries which are both IFAD’s Member States and ARC Agency Member Countries as further described in this Memorandum of Understanding;

**HAVE REACHED THE FOLLOWING UNDERSTANDING:**

**ARTICLE I**

**PURPOSE**

1.1 The purpose of this Memorandum of Understanding (MoU) is to establish a framework for collaboration between the Parties in matters of common interest, and specify modalities for implementation, having regard to the respective mandates, objectives, functions, rules, policies and procedures of each Party.

1.2 The Parties will, in accordance with the provisions of this MoU, endeavour to work together and maintain a continuous working relationship for the achievement of their common objectives within the limitations of their respective mandates and resources.

(ii) Deployment or exchange of staff - including secondment, loans, exchange - under the appropriate arrangements, and subject to each Party’s objectives, functions, rules, policies and procedures in order to enable the integration of best practices in climate and risk resilience into the preparation of programs and projects. The deployment or exchange initiatives will be formalized in specific and separate instruments;

(iii) Developing risk transfer instruments in agriculture projects, and innovative instruments and mechanisms to support the participation of African countries which are both IFAD’s Member States and ARC Agency Member States, in the ARC Disaster Risk Pool;

(iv) Any other areas of cooperation that may be agreed upon by the Parties from time to time.

2.2 The Parties will cooperate through a range of mechanisms which may include:

(iii) participation in identification of complementary sources of finance and other necessary resources, and mobilization of funds and resources for implementation of such activities, projects and programmes;

(iv) assistance in planning, organization and implementation of projects and programmes through provision of technical expertise and other support, as appropriate;
(v) supervision of projects and programmes and post-evaluation of completed projects and programmes;

(vi) providing orientation and training, as well as cooperating in the organization and conduct of courses, research, seminars, workshop and symposia;

(viii) any other mechanisms that may be agreed upon by the Parties from time to time.
