**INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT**  
**Executive Board – Sixty-Ninth Session**  
Rome, 3-4 May 2000

**AUDITED FINANCIAL STATEMENTS OF IFAD AS AT 31 DECEMBER 1999**

1. The Executive Board is invited to consider the attached Financial Statements (Appendixes A-G) and the Report of the External Auditor thereon for submission to the Governing Council for approval. The Financial Statements have been prepared in accordance with standards recommended by the International Accounting Standards Committee.
2. In accordance with Article 6, Section II, of the Agreement Establishing IFAD, these Financial Statements will form part of IFAD's Annual Report for 1999 and, as has been the practice in previous years, a note will be inserted to the effect that they have been submitted by the Executive Board to the Governing Council with recommendation for their approval.
3. The Executive Board at its Fifty-Fifth Session approved that Phases I and II of the Special Programme for Sub-Saharan African Countries Affected by Drought and Desertification (the Special Programme for Africa – SPA) be terminated on 31 December 1995 and integrated into IFAD's Article 4 Resources on 1 January 1996. The Financial Statements reflect this decision. Where appropriate, figures relating to SPA, such as contributions and loans, are identified separately in the appendices to this document.
4. The Financial Statements reflect the following key points:

**Statement of Activities and Changes in Net Assets (Appendix A)**

- (a) Investment income amounted to USD 196.5 million in 1999 compared with USD 187.9 million in 1998. Investment income for 1999 includes interest from fixed-income investments of USD 89.4 million compared with USD 111.6 million in 1998. Dividend income for 1999 amounts to USD 8.7 million compared with USD 5.6 million in 1998. Total net realized and unrealized market value gains amounted to USD 104.0 million in 1999 compared with USD 75.1 million in 1998. Interest income from banks decreased from USD 1.0 million in 1998 to USD 0.9 million in 1999. IFAD used the services of external investment managers to manage the major part of its investment portfolio. The fees for investment managers and custody and other investment costs, which are charged against investment income, amounted to USD 10.1 million in 1999 compared with USD 8.3 million in 1998.

- (b) Income from interest and service charges on loans amounted to USD 43.5 million in 1999 compared with USD 46.5 million in 1998. In line with the policy initiated in 1998, the Fund has excluded interest and service charges on loans with arrears in excess of ten months. The amount in 1999 was USD 2.8 million compared with USD 2.7 million in 1998.
- (c) Total operational and administrative expenditures, as indicated in the Statement of Activities and Changes in Net Assets (Appendix A), amounted to USD 52.0 million compared with a budget of USD 54.3 million. In addition, in 1999 there was an additional charge of USD 2.6 million representing the first of five instalments for the After-Service Medical Coverage Scheme deficit, as approved by the Executive Board in December 1998.

### **Statement of Changes in Accumulated Surplus (Appendix A1)**

This statement complies with the requirements of International Accounting Standard (IAS) No. 21, which states that all gains and losses arising from foreign exchange rate movements should be taken through the Statement of Activities and Changes in Net Assets as opposed to passing through the Balance Sheet as in previous years. This policy was adopted in 1995.

The statement includes the accumulated surplus arising from the excess of revenue over expenses, foreign exchange rate movements and transfers to the IFAD Trust Fund for Heavily-Indebted Poor Countries Debt Initiative (HIPC DI).

### **Balance Sheet (Appendix B)**

The Fund has made provisions relating to overdue Members' contributions, as follows:

	<u>USD '000</u>
Promissory notes	104 980
Amounts receivable	<u>89 555</u>
	194 535

These are shown in Appendix B and detailed by country in Notes 6 and 7 of Appendix G.

It should be noted that, at 31 December 1999, 11 countries had loans with arrears of ten months or more and are thus in non-accrual status. Details of the countries and amounts involved are given in Note 8 of Appendix G.

As in the case of arrears on Members' contributions, the Fund is making continued efforts to eliminate all arrears on its loans.

### **Statement of Cash Flows (Appendix C)**

Appendix C has been prepared in accordance with IAS No. 7 (revised). The movements in cash and investments (excluding equities from 1999) in the Balance Sheet are dealt with in detail in this appendix.

### **Statement of Resources Available for Commitment (Appendix D)**

This statement includes all assets in freely-convertible currencies which may be considered committable in accordance with the policy adopted at the Thirty-Fourth Session of the Executive Board.

### **Statement of Members' and Special Contributions (Appendix E)**

Appendix E combines contributions to the initial resources of the Fund and First and Second Replenishments as all amounts have been drawn down and full disclosure on non-payment has been made in Appendix G - Notes to the Financial Statements. Details on contributions to the Third and Fourth Replenishments are also provided.

### **Statement of Loans (Appendix F)**

The position, country by country, of the Fund's borrowers is given in this appendix, with a split between USD loans and SDR loans.

5. The Financial Statements for 1999 were reviewed in detail at a meeting of the Audit Committee held on 16 March 2000. The Chairman of the Audit Committee will make a formal report to the Sixty-Ninth Session of the Executive Board on the conclusions of the committee with respect to these statements.

### **Recommendation**

6. Accordingly, the Executive Board may wish to adopt the following decision:  
"In accordance with Regulation XII-6 of the Financial Regulations of IFAD, the Executive Board considered the 1999 Financial Statements of IFAD and the Report of the External Auditor thereon and agreed to submit these documents to the Governing Council for approval."

1/ Loans approved in 1978 were denominated in United States Dollars and are repayable in the currencies in which withdrawals are made. From 1979, loans have been denominated in SDRs and, for purposes of presentation in the Balance Sheet, the accumulated amount of loans denominated in SDRs has been valued at the SDR/USD rate of 1/1.37251 at 31 December 1999. Since the loans were valued at 31 December 1998 at the then prevailing SDR/USD rate of 1/1.40803, there is a decrease in value in terms of United States Dollars, attributable to the movement in exchange rates from 31 December 1998 to 31 December 1999 of USD 137 104 000 (from 1997 to 1998, there was an increase in value in terms of USD 211 301 000).

2/ Repayment amounts include participation by The Netherlands and Norway in specific loans to these countries resulting in partial early repayment and corresponding increase in committable resources.

**NOTES TO THE FINANCIAL STATEMENTS**  
**31 December 1999 and 31 December 1998****Note 1: Brief Description of the Fund**

The International Fund for Agricultural Development (the Fund) is a specialized agency of the United Nations. The Fund formally came into existence on 30 November 1977, on which date the agreement for its establishment entered into force and has its headquarters in Rome, Italy. The Fund and its operations are governed by the Agreement Establishing the International Fund for Agricultural Development.

The objective of the Fund is to mobilize additional resources to be made available on concessional terms for primarily financing projects specifically designed to improve food production systems, the nutritional level of the poorest populations in developing countries and the conditions of their lives.

Membership of the Fund is open to any state member of the United Nations or any of its specialized agencies, or of the International Atomic Energy Agency (IAEA). The Fund's resources come from Member contributions, special contributions from non-Member States and other sources, and funds derived or to be derived from operations.

**Note 2: Summary of Significant Accounting Policies****(a) Basis of Accounting**

The Financial Statements of the Fund are prepared in accordance with international accounting standards and under the historical cost convention. The excess of revenue over expenses net of the effects of changes in foreign exchange rate movements is transferred to Accumulated Surplus. The format of the Statement of Revenue and Expenses has changed from 1998 onwards in order to present more comprehensively the activities of the Fund for the year and changes in its net assets. This new format underscores the Fund as a not-for-profit international financial institution established to mobilize resources for the purpose of providing concessional loans and grants for the implementation of projects in developing member countries. In prior years this data was included only in other appendices to the Financial Statements.

The Fund carries its investment securities at market value. Both realized and unrealized security gains and losses are included in income from investments as they arise. Both realized and unrealized exchange gains and losses are included in the foreign exchange rate account as they arise.

The Executive Board, at its Fifty-Fifth Session, decided that Phase I and Phase II of the Special Programme for Sub-Saharan African Countries Affected by Drought and Desertification be terminated on 31 December 1995 and integrated into IFAD's Article 4 Resources on 1 January 1996. The Financial Statements from 1996 onwards reflect this decision.

A contribution from a Member is recorded in full as receivable when the Member deposits its Instrument of Contribution.

Amounts receivable from Member States as contributions, loans and other receivables have been recorded at their full value except for the adoption from 1988 of the policy on overdue contributions described in (b).

Technical assistance grants are recorded as a deduction from Contributions and Accumulated Surplus at the time of their approval.

Cost of equipment owned by the Fund is charged directly to expense when purchased.

Balances relating to the IFAD Trust Fund for Heavily-Indebted Poor Countries Debt Initiative (HIPC DI) have been included in these

financial statements as this is a special purpose entity which is substantially controlled by IFAD and its activities are inherently linked to those of IFAD. This trust fund was established in 1998 (see Note 8(a)).

**(b) Provisions Against Overdue Members' Contributions**

At the Thirty-Fourth Session of the Executive Board in September 1988, on the recommendation of the External Auditor, the Fund adopted a policy on provisions against overdue Members' contributions as follows:

- (i) Whenever a payment of an instalment against an Instrument of Contribution or a payment of a drawdown against a promissory note becomes overdue by 24 months, a provision will be made equal to the value of all overdue contribution payments or the value of all unpaid drawdowns on the promissory note(s) outstanding.
- (ii) Whenever a payment of an instalment against an Instrument of Contribution or a payment of a drawdown against a promissory note becomes overdue by 48 months or more, a provision will be made against the total value of the unpaid contributions of the Member or the total value of the promissory note(s) of that Member related to the particular funding period (i.e., a replenishment period).
- (iii) In the past, the date of issue of the External Auditor's opinion was used for determining the 24 and 48-month periods, with respect to a particular year's financial statements. With effect from 1996, the end of the financial year is used for determining the 24 and 48-month periods, as approved by the Fifty-Eighth Session of the Executive Board.
- (iv) The provision will be disclosed directly on the Balance Sheet itself.
- (v) Where exceptional circumstances arise which call for the establishment of a provision, without regard to the specific time periods established in paragraphs (i), (ii) and (iii) above, or which suggest that a provision is not appropriate even if those time periods have been exceeded, the President's opinion about such special circumstances and their impact on provisions shall be referred to the Executive Board. However, in any situation where time requirements would not allow prior consultation with the Executive Board, the President shall be authorized to take action with regard to such special circumstances and shall inform the Board subsequently of such action as had been taken.

**(c) Resources Available for Commitment**

Resources available for commitment are those resources in freely convertible currencies defined in Article 4, Section 1 of the Agreement Establishing IFAD, which have been contributed by Members and others or have been derived, or are to be derived, from operations or loan repayments by borrowers, to the extent that these resources have not already been committed for loans and grants or appropriated to the General Reserve.

At the Thirty-Fourth Session of the Executive Board, the Fund adopted a policy for determining resources available for commitment as follows:

- (i) Only actual payments in the form of cash or promissory notes will be included in committable resources. The value of Instruments of Contribution against which payment in the form of cash or promissory notes has not yet been made will be excluded from committable resources.

- (ii) For any Member which has paid in the form of promissory note(s) and on which payments are overdue for a period of three drawdown tranche calls (i.e., a period of approximately 18 months), the total amount of unpaid drawdown calls will be excluded from committable resources.
- (iii) For any Member which has paid in the form of promissory note(s) and on which payments are overdue for a period of 36 months or more, the entire value of all outstanding promissory notes, for the funding period in question and for any subsequent funding periods, will be excluded from committable resources.
- (iv) Where exceptional circumstances arise which call for exceptions to paragraphs (i) to (iii) above, the President's opinion about such exceptional circumstances and their impact upon the committable resources shall be referred to the Executive Board. However, in any situation where time requirements would not allow prior consultation with the Executive Board, the President shall be authorized to take action with regard to such exceptional circumstances and shall inform the Board subsequently of such action as had been taken.
- (v) Advance Commitment Authority (ACA). The Governing Council, at its Twentieth Session in February 1997, approved changes to Article 4, Section 1 of the Agreement Establishing IFAD and the Financial Regulations of IFAD (Regulation IV, paragraph 1) that permits IFAD's resources to include "...funds derived or to be derived from operations or otherwise accruing...". With this change to the Agreement Establishing IFAD, the Governing Council, in Resolution 100/XX, decided that "The Executive Board may, from time to time and having regard to the resources of IFAD available for commitment to loans and grants, including investment income net of administrative costs, employ an Advance Commitment Authority (ACA) in a prudent and cautious manner to compensate, year-by-year, for fluctuations in the resources available for commitment and to act as a reserve resource."

The Fund has not required the use of ACA to date as regular resources have been sufficient to meet its loan and grant commitments.

A loan or grant is considered to be committed when a formal agreement is signed by the Fund and the respective borrower or grantee. The Fund's Executive Board reviews a statement of resources available for commitment at every Executive Board meeting to ensure that resources are available to meet loans presented for approval. The Statement of Resources Available for Commitment, Appendix D, also indicates the specific amounts against which no commitments have been made.

From 1998 onwards amounts receivable from contributors are not included in the Statement of Resources Available for Commitment

**(d) Translation and Conversion of Currencies**

- (i) The Fund, as an international organization, conducts its operations in several currencies, and at the present time maintains its accounting records in United States Dollars. The Financial Statements are expressed in United States Dollars solely for the purpose of summarizing the financial position.
- (ii) The Fund has translated all items in its Balance Sheet, except its Members' contributions in currencies other than the United States Dollar, at market rates of exchange at year-end.

The basis of translation for its Members' contributions is the following:

- (1) At year-end market rates of exchange for amounts receivable, for amounts paid in the form of promissory notes and not yet drawn down and for non-convertible currencies not yet disbursed.
- (2) At market rates of exchange as at date of receipt in respect of cash, including draw down payments, and at market rates of exchange as at date of disbursement in the case of non-convertible currencies.

- (iii) Revenue and expense items in currencies other than the United States Dollar have been recorded at appropriate rates of exchange during the period.
- (iv) The exchange adjustments arising from the translation of assets and liabilities in currencies other than the United States Dollar are credited or charged to an exchange adjustment account and taken through the Statement of Activities and Changes in Net Assets, in line with the requirements of International Accounting Standard (IAS) No. 21 (revised).
- (v) The following rates of 1 unit of SDR in terms of USD as at 31 December were used:

Year	SDR/USD
1995	1.48649
1996	1.43796
1997	1.34925
1998	1.40803

The movement in the foreign exchange rate account is explained as follows:

**(e) Provisions**

Provisions are established when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Employee entitlements to annual leave and long service leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave and long service separation entitlements as a result of services rendered by employees up to the balance sheet date.

**(f) Fair Valuation of Financial Instruments****(i) Investments**

All investment securities held by the Fund are considered to be available for sale and are reported at estimated fair value represented by the market value at the balance sheet date. The fair value of a financial instrument is defined as the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

IFAD carries its investments at market value and this represents the fair value of the investment portfolio.

**(ii) Loans**

IFAD loans have a significant grant element because of the concessional nature of their terms. Estimating the fair value of IFAD's outstanding loans is not practicable. Accordingly, loans are carried in the financial statements at the full face amount of the borrower's outstanding obligations.

**(g) Statement of Cash Flows**

Appendix C, Statement of Cash Flows, has been prepared in accordance with International Accounting Standard (IAS) No. 7 (revised). For the purpose of the cash flow statement, cash and cash equivalents comprise cash in hand and deposits held at call with banks. They also include investments which are readily convertible at the balance sheet date. From 1999, equities and net investment payables have been excluded from readily convertible investments for cash flow purposes in accordance with the accounting standard on the basis of the increased materiality of these balances. Prior year comparative figures have been restated to conform to the 1999 presentation.

**Note 3: Investments****(a) Basic Principles**

The basic principles governing the investment of funds are contained in Regulation VIII of the Financial Regulations of IFAD which were adopted by the Governing Council at its First Session, 13-16 December 1977, as follows:

"1. The President may place or invest cash funds, not needed immediately for the Fund's operations or administrative expenditures.

2. In investing the resources of the Fund, the President shall be guided by the paramount considerations of security and liquidity. Within these constraints the President shall seek the highest possible return in a non-speculative manner.

3. Income earned from investments may, *inter alia*, be used by the Fund to meet its administrative and other expenditures in accordance with the approved budget."

**(b) Investment Management**

Since 1994, management of the major part of IFAD's investment portfolio has been entrusted to a number of external investment managers under investment guidelines provided by the Fund. At 31 December 1999, funds under external management amounted to USD 2 260.8 million (1998 - USD 2 132.9 million), representing some 96.1% (1998 - 93.3%) of total cash and investments.

**(c) Risk Management**

The Fund has addressed investment risks through the provisions of the investment guidelines and custodial arrangements:

**(i) Credit Risk**

The investment guidelines permit investments in time deposits with selected commercial banks, government and government-guaranteed bonds, bonds issued by multilateral development banks, and exchange-traded derivatives of such securities. The eligibility of banks and bond issues is determined on the basis of ratings made by major credit rating agencies.

**(ii) Market Risk**

Exposure to market risk is adjusted by modifying the duration of the portfolio, depending on the outlook for securities prices. The upper limit for the duration of the fixed income portion of the portfolio is set at 2 years above the benchmark average (some 7.5 years). Options and futures are held for managing market risk rather than for trading purposes.

**(iii) Currency Risk**

The majority of the Fund's commitments are expressed in SDR. Consequently the overall assets of the Fund, including the investment portfolio and promissory notes, are maintained in such way as to ensure that, to the extent possible, commitments for undischarged loans and grants denominated in SDR are matched by assets denominated in the currencies and in the ratios of the SDR valuation basket. Similarly, the General Reserve and commitments for grants denominated in USD are matched by assets denominated in USD.

To increase returns, the Fund may invest in securities denominated in currencies other than those included in the SDR valuation basket, and enter into covered forward foreign exchange agreements in order to maintain the matching in currency terms of commitments denominated in SDR and USD.

In November 1998, the Fund selected a currency overlay manager to control the currency risk in emerging markets. This activity commenced in 1999.

**(iv) Custodial Risk**

IFAD has entrusted the safekeeping of its investment assets to a major custodian bank. The custodian safekeeps the funds and maintains separate accounts for each externally managed investment subportfolio, and settles the investment transactions initiated by external investment managers.

**(d) Derivative Instruments**

The Fund's Investment Guidelines authorize the use of the following types of derivative instruments:

**(i) Futures**

Futures are contracts for delayed delivery of securities or money market instruments in which the seller agrees to make delivery at a specified future date of a specified instrument at a specified price or yield. Initial margin requirements are met with cash or securities, and changes in the market price are recorded daily. Changes in the market value of open futures contracts are recognized as gains or losses in the period of the change and included in income from investments. There were 205 Buy contracts and 417 Sell contracts outstanding at 31 December 1999 (1998 - 41 Buy contracts) which had net unrealized market value losses amounting to USD 309 000 (1998 - USD 7 700 loss). The market value of futures contracts open at 31 December 1999 amount to USD 48 000. The maturity date of these contracts at 31 December 1999 was March 2000.

(ii) Options

Options are contracts that allow the holder of the option to purchase or sell a financial instrument at a specified price within a specified period of time from or to the seller of the option, who then bears the risk of an unfavourable change in the price of the financial instrument underlying the option. IFAD only permits the use of investment in exchange traded options. The initial price of an option contract is equal to the premium paid by the purchaser and is significantly less than the contract or notional amount. IFAD does not write option contracts. There were 74 Call contracts open at 31 December 1999 (1998 – Nil) which had net unrealized market value gains of USD 49 000. The market value of option contracts open at 31 December 1999 was USD 28 000 loss (Call options). The maturity of these options at 31 December 1999 averaged 61 days. No options were used during 1998.

Others	<u>336 051</u>	<u>328 285</u>
Total	<u>2 330 123</u>	<u>2 261 341</u>

In 1999 the SDR basket incorporates the Euro in place of the French franc and German mark.

(iii) Covered Forwards

Covered forwards are agreements in which cash in one currency is converted into a different currency and simultaneously a forward exchange contract is executed providing for a future exchange of the two currencies in order to recover the currency converted. The unrealized market value gain on forward contracts at 31 December 1999 amounted to USD 1 154 000 (1998 - gain of USD 4 694 000). The maturity of forward contracts at 31 December 1999 ranged from three to seventy-five days. Both realized and unrealized gains or losses are recognized in the period in which they occur and included in Income from Investments.

(h) Composition of the Investment Portfolio by Maturity

The composition of cash and investments by maturity at 31 December 1999 and 31 December 1998 was as follows:

	1999	1998
	USD '000s	
Due in one year or less	252 666	270 932
Due after one year through five years	398 425	349 606

(g) Composition of the Investment Portfolio by Currency

The currency composition of cash and investments at 31 December 1999 and 31 December 1998 was as follows:

The average rate of return on the investment portfolio in 1999 was 8.7% (1998 - 8.5%).

**Note 4: Cash and Investments Subject to Restriction****(a) Currencies not Freely Convertible**

Cash and investments held by the Fund at 31 December 1999 in currencies which are not freely convertible amounted to USD 471 000 (1998 - USD 667 000) and USD 436 000 (1998 - USD 6 287 000), respectively. In 1998 these balances included USD 5 876 000 of cash and investments held in Malaysian Ringgits by one fund manager (of which USD 81 000 is in cash and USD 5 795 000 in equities). This currency was subject to temporary restriction since September 1998 but restrictions were lifted during 1999.

In accordance with the Agreement Establishing IFAD, the amounts paid into the Fund by Category III Members in their respective currencies on account of their initial or additional contributions are subject to restriction in usage.

Such amounts may be used only:

- (i) after consultation with the Member concerned for the payment of administrative expenditures and other costs of the Fund in the territories of that Member; or
- (ii) with the consent of that Member, for the payment of goods and services produced in its territories and required for activities financed by the Fund in other states.

**(b) Other Amounts Restricted**

Included in "Cash and Investments Subject to Restriction" are the following additional amounts:

- (i) USD 8 055 000 (1998 - USD 9 579 000) being investments held in the Fund's name on behalf of the Credit Union of IFAD Employees.
- (ii) USD 6 474 000 (1998 - USD 4 086 000) being amounts held in the Fund's bank accounts on behalf of supplementary funds.

Amounts indicated above as "Other amounts restricted" are shown as "Amounts due to other funds" and excluded from the Statement of Cash Flows.

**(c) Trust Fund Balances**

These comprise USD 6 500 000 (1998 - USD 1 900 000) relating to amounts invested on behalf of the IFAD Heavily-Indebted Poor Countries Debt Initiative (HIPC DI) Trust Fund and USD 557 000 (1998 - USD 3 283 000) representing bank balances of the Trust Fund.

**Note 5: Members' Contributions**

The contributions to the Fund by each Member when due are payable in freely convertible currencies, except that Category III Members up to the end of the Third Replenishment period may pay contributions in their own currency whether or not it is freely convertible. Each contribution is to be made in cash or, to the extent that any part of the contribution is not needed immediately by the Fund in its operations, it may be paid in the form of non-negotiable, irrevocable, non-interest bearing promissory notes or obligations payable on demand. The Fund, on the recommendation of its External Auditor, has considered it prudent to establish provisions against unpaid contributions (see Notes 2(b), 6 and 7).

**(a) Initial Contributions**

Initial contributions have been fully paid except as detailed in Notes 6 and 7.

**(b) First Replenishment**

First Replenishment contributions have been fully paid except as detailed in Note 6.

**(c) Second Replenishment**

Second Replenishment contributions have been fully paid except as detailed in Notes 6 and 7.

**(d) Third Replenishment**

Details of Third Replenishment contributions are shown in Appendix E. The drawdown calls made to date have been fully paid except as detailed in Notes 6 and 7.

**(e) Fourth Replenishment**

The Fund's Fourth Replenishment came into effect on 29 August 1997, when Instruments of Contributions were deposited amounting in aggregate to 50% of the respective contributions from Members as set forth in Column A-3 of Attachment A to Resolution 87/XVIII adopted by the Eighteenth Session of the Governing Council, as amended.

Details of Fourth Replenishment contributions are shown in Appendix E.

**(f) Advance Contributions to the Fifth Replenishment**

Details of Advance Contributions to the Fifth Replenishment are shown in Appendix E.

**(g) Special Programme for Africa**

Details of contributions to the Special Programme for Sub-Saharan African Countries Affected by Drought and Desertification under the First Phase and Second Phase are shown in Appendix E.

**(h) Provisions**

In accordance with the policy referred to in Note 2(b), the Fund has established provisions as follows:

(i) IFAD	<u>1999</u>	<u>1998</u>

**Note 8: Loans**

Fund loans are made only to developing states that are Members of the Fund or to intergovernmental organizations in which such Members participate. In the latter case, the Fund may require governmental or other guarantees. A loan becomes effective when IFAD has received a satisfactory legal opinion from the borrower and any other conditions precedent to effectiveness have been fulfilled. Upon effectiveness, disbursement may commence.

Loan repayments and related interest payments for loans approved during 1978 are required to be made in the currency in which the respective portion of the loan was advanced or as specified in the agreement. In respect of all Fund loans approved after 1 January 1979, loan repayments and interest are payable in the currency specified in the loan agreement in amounts equivalent to the Special Drawing Rights (SDR) due, based on International Monetary Fund rates on the due dates. Loans approved will be disbursed to borrowers in accordance with the provisions of the loan agreement.

Originally, paragraph 31 of the Lending Policies and Criteria contained the lending terms: "The Fund will provide financial resources to its Member States for approved projects and programmes on the following terms and conditions: (i) special loans on highly concessional terms, carrying a service charge of 1 percent annually, and a maturity period of 50 years including a grace period of ten years; (ii) loans on intermediate terms, with an interest rate of 4 percent annually and a maturity period of 20 years including a grace period of 5 years; and (iii) loans on ordinary terms, with an interest rate of 8 percent and a maturity period of 15 to 18 years including a grace period of 3 years."

Effective 28 January 1994, the Governing Council adopted Resolution 83/XVII which approved the following changes to the Lending Policies and Criteria:

"32 (a) special loans on highly concessional terms shall be free of interest but bear a service charge of three fourths of one percent (0.75%) per annum and have a maturity period of forty (40) years, including a grace period of ten (10) years; (b) loans on intermediate terms shall have a rate of interest per annum equivalent to fifty per cent (50%) of the variable reference interest rate, as determined annually by the Executive Board, and a maturity period of twenty (20) years, including a grace period of five (5) years; (c) loans on ordinary terms shall have a rate of interest per annum equivalent to one hundred per cent (100%) of the variable reference interest rate, as determined annually by the Executive Board, and a maturity period of fifteen (15) to eighteen (18) years, including a grace period of three (3) years; and (d) no commitment charges shall be levied on any loan."

As at 31 December 1999, principal instalments of USD 33 564 000 (1998 - USD 32 138 000) and service charges and interest equivalent to USD 15 107 000 (1998 - USD 14 024 000) were overdue by more than three months. Principal instalments of USD 271 000 and service charges of USD 346 000 (1998 - USD 286 000) were overdue by more than three months relating to SPA loans.

No losses are expected against the overdue instalments from the following Member States: Cameroon, Central African Republic, Congo, Cuba, D.P.R. Korea, the Democratic Republic of the Congo, Gabon, Grenada, Guinea-Bissau, Liberia, Niger, Sierra Leone, Somalia and Togo and consequently no provision has been made.

Follow-up action is being taken with the governments concerned to obtain settlement of these obligations.

The principal disbursed and outstanding on all loans to the borrowers who have not settled their overdue obligations since year-end amounts to USD 222 734 000 (1998 - USD 194 000 000). On loans with overdue amounts in excess of ten months as at 31 December 1999, interest and service charges are recognized as income only when actually received.

Had these amounts been recognized as income, income from loans as reported in the Statement of Revenue and Expenses for the year 1999 would have been greater by USD 2 565 000 (1998 - USD 2 525 000). The corresponding figures relating to SPA were USD 288 000 (1998 - USD 195 000). The member countries concerned are shown below:

The income from loans reported in the Statement of Revenue and Expenses for 1999 includes USD 528 000 (1998 - USD 771 000) in respect of income received relating to prior years.

Details of loans approved and disbursed and of loan repayments appear in Appendix F.

**(a) Heavily-Indebted Poor Countries Debt Initiative (HIPC DI)**

The Executive Board proposed IFAD's participation in the International Monetary Fund (IMF)/World Bank Debt Initiative for Heavily-Indebted Poor Countries (HIPC DI) as an element of IFAD's broader policy framework for managing operational partnerships with countries that have arrears with IFAD, or that face the risk of having arrears in the future because of their debt-service burden. The Governing Council, at its Twentieth Session held in February 1997 approved IFAD's participation in the HIPC DI with the adoption of Resolution 101/XX.

The Governing Council delegated the Executive Board to approve, on a country-by-country basis, the debt relief required from IFAD as part of the overall HIPC DI effort to reduce a country's debt to a sustainable level.

The HIPC DI involves two basic sets of financial movements with regard to the international financial institution (IFI) participants:

- (i) agreed reduction of debt repayments from debtor countries to IFI creditors; and
- (ii) payments to the loan fund accounts of IFIs to compensate for the loss of financial reflows implicit in the reduction of debt repayments.

Each IFI will decide upon the most appropriate mechanism for the mobilization and management of resources to compensate loan fund accounts for the loss of reflows.

A Trust Fund for the HIPC DI was established with the adoption of Resolution 105/XXI on 11 February 1998 by the Governing Council. This Trust Fund receives resources from within IFAD and from other sources, specifically dedicated as compensation to the loan fund account(s) for agreed reductions in loan repayments under the HIPC DI. IFAD has received an instrument of contribution of NLG 26 623 520 – EUR 12 081 227 (USD 12 358 021) from The Netherlands as a complementary contribution to the Fourth Replenishment in support of IFAD's participation in the HIPC DI and received cash payments for NLG 8 000 000 (USD 3 853 234). The Executive Board has approved IFAD's participation in the HIPC DI for the following countries:

Member State	Amount Approved (SDR)		Executive Board Session Approval
Uganda	4 160 000	i./iii.	Sixty-First
Burkina Faso	1 780 000		Sixty-Second
Côte d'Ivoire	164 300	i.	Sixty-Fourth

Bolivia	2 200 000	i.	Sixty-Fourth
Guyana	630 000	i.	Sixty-Fourth
Mali	1 575 000	i.	Sixty-Sixth

- i. Net present value
- ii. Nominal value
- iii. The Agreement has been signed by the borrower and is in nominal value terms.

As resolved at the Sixty-Fifth Session of the Executive Board in December 1998, a transfer has been made from IFAD's Accumulated Surplus to HIPC DI of USD 4 000 000 each in 1998 and 1999 out of the total amount approved of USD 16 000 000. Included in IFAD's Financial Statements are the following principal financial transactions and balances of the HIPC DI Trust Fund:

	1999	1998
	USD '000s	
IFAD cash contribution (Appendix A1)	8 000	4 000
Netherlands cash contribution	<u>3 853</u>	<u>1 985</u>

Net Trust Fund balances (Appendix B)	6 808	5 183
Net investment income	<u>318</u>	<u>0</u>
Total	<u>7 126</u>	<u>5 183</u>

In 1998 the net Trust Fund balances were included in net assets, but in 1999 these have been reclassified to undisbursed grants.

#### (b) Loans to Non-Member States

##### Fund for Gaza and the West Bank (FGWB)

At its Twenty-First Session in February 1998, the Governing Council adopted Resolution 107/XXI approving the establishment of a fund for the specific purpose of lending to the Gaza Strip and the West Bank. The application of Article 7, Section 1(b), of the Agreement Establishing IFAD was waived for this purpose. Financial assistance, including loans, is transferred to the FGWB by decision of the Executive Board and the repayment thereof, if applicable, is made directly to IFAD's regular resources.

#### Note 9: Grants

The Agreement Establishing IFAD empowers the Fund to make grants to its Members, or to intergovernmental organizations in which its Members participate, on such terms as the Fund deems appropriate.

##### (a) Technical Assistance

The Fund provides grants for project preparation, loan components, agricultural research, project development fund, special operations facility and other related purposes. The cumulative amount of such grants disbursed up to 31 December 1999 was USD 270 227 000 (1998 - USD 239 852 000).

##### (b) Services to Member States

In prior years, Services to Member States included grants for project identification, special studies and monitoring and evaluation activities. These services have now been discontinued. The cumulative amount of such grants disbursed up to 31 December 1999 was USD 33 589 000 (1998 - USD 33 665 000).

#### Note 10: General Reserve

The Fourth Session of the Governing Council in 1980 recognized the need to cover the Fund's potential overcommitment risk as a result of exchange rate fluctuations, and possible delinquencies in receipt of loan service payments or in the recovery of amounts due to the Fund from the investment of its liquid assets, and established a General Reserve.

Transfers from Accumulated Surplus to the General Reserve are determined by the Executive Board after taking into account the Fund's financial position. The Executive Board, at its Fifty-Fourth Session in April 1995, decided to maintain the General Reserve unchanged at USD 95 million. The adequacy of the General Reserve will be reviewed periodically by the Executive Board. Withdrawals from the General Reserve will be subject to the prior approval of the Executive Board.

#### Note 11: Staff Costs and Retirement Benefits

##### (a) Staff Numbers

The number of approved posts of the Fund including the President and the Vice-President at 31 December was as follows:

	1999	1998
Professional	134	128
General Service	<u>158</u>	<u>164</u>
	292	292

As in previous years, IFAD engaged the services of consultants, conference personnel and other temporary staff to enable it to meet its operational needs.

##### (b) Retirement Plan

IFAD is a member organization of the United Nations Joint Staff Pension Fund (UNJSPF), which was established to provide retirement, death, disability and related benefits for the relevant staff. The UNJSPF is a funded defined benefit plan, providing benefits based on retirement age, pensionable remuneration and length of contributory service. The actuarial method adopted is the Open Group Aggregate method. Actuarial calculations are performed at least once every three years. The latest actuarial valuation was prepared as of 31 December 1997. IFAD makes contributions on behalf of its staff (currently payable by the participant and IFAD at 7.9% and 15.8%, respectively, of the staff member's pensionable remuneration) and would be liable for its share of the unfunded liability, if any. The total retirement plan contributions made in 1999 for staff amounted to USD 3 693 000 (1998 - USD 3 494 000). IFAD is not able to identify its share of the underlying financial position and performance of the plan with sufficient reliability for accounting purposes and hence has not recorded any assets in its accounts in this regard, nor included other related information such as the return on plan assets.

**(c) After-Service Medical Coverage (ASMC)**

IFAD participates in a multi-employer After-Service Medical Coverage Scheme (ASMC) administered by the Food and Agriculture Organization (FAO) of the United Nations for staff receiving a United Nations pension and eligible former staff on a shared-cost basis. The ASMC operates on a pay-as-you-go basis, meeting annual costs out of annual budgets and staff contributions. In 1995, FAO engaged an actuary which determined that there was an unfunded accrued liability as of 1 January 1996 of USD 212.5 million, of which IFAD's share would be USD 10.8 million, based on the number of active staff. This valuation was calculated on a closed group basis using the projected unit credit method. The results to update the formal valuation to 31 December 1997 show the fair value of the ASMC's assets of USD 25 million and an increase in the deficit to USD 229.3 million, of which IFAD's share increased to USD 12.9 million. IAS 19 (revised), which is effective from 1 January 1999, requires that this liability is fully provided in the accounts of an organization within a limited time period. IFAD has decided to make provision for its share by treating the deficit as an expense on a straight-line basis over a five-year period from the date of adoption, as permitted by the IAS. Accordingly, the 1999 financial statements include a provision of USD 2 600 000 (1998: Nil).

It is intended that actuarial valuations will be carried out every two years. An updated valuation will be prepared as at 31 December 1999. The results of this valuation will be available only following the finalisation of the 1999 financial statements. Any significant variation in IFAD's deemed share of unfunded liabilities will be amortised over a period not to exceed the average remaining service period of staff in accordance with the accounting standard.

From 1 January 1998, IFAD provides for the full annual service cost of this medical coverage. In 1999, such cost included in the financial statements amounted to USD 452 000 (1998 - USD 428 000).

**Note 12: Taxation**

IFAD is a specialized agency of the United Nations and as such enjoys privileged tax exemption status under the Convention on Privileges and Immunities of Specialized United Nations Agencies 1947 and the Agreement between the Italian Republic and IFAD on IFAD's Permanent Headquarters. Taxation levied where this exemption has not yet been obtained is deducted directly from the related investment income.

**Note 13: EURO**

On 1 January 1999 the Euro was introduced as a currency being legal tender in 11 European Union Member States, including Italy, and three other European states. Although this has little impact on the actual operations of IFAD, certain reported balances, such as relevant Members' contributions, have been re-denominated from the legacy currencies to the Euro during 1999 (see note 3 to Appendix E).

**Note 14: Contingencies**

**(a) Contingent Liabilities**

At 31 December 1999 the organisation had contingent liabilities in respect of expenditures incurred in 1998 for exhibition structure costs and costs related to office fixtures, equipment and fittings for the new IFAD/2 offices operations. Expenditures amounting to Lire 1 079 million (USD 559 000) are due to be reimbursed by the Italian Government although final clearance has not been given to date. Of these monies, some Lire 919 million (USD 477 000) were specifically discussed and approved by the Italian Permanent Representation.

**(b) Contingent Assets**

The organisation expects to receive some Lire 1 924 million (USD 998 000) in reimbursement of taxation deducted on investment income in prior years. These costs had been fully provided for in the accounts in previous years as the exact amount and year in which the reimbursement will be made was not certain. IFAD has recently submitted formal requests to the Italian Government to reclaim these taxes, although it is not expected that these monies will be received prior to 2001.

**Note 15: Date of Authorisation for Issue of Financial Statements**

The financial statements are authorised for issue following the endorsement of the Executive Board at its meeting of 3-4 May 2000 on the recommendation of the Audit Committee in its meeting in March 2000. The 1999 financial statements will be submitted to the Governing Council for approval at its next session in February 2001. The 1998 financial statements have been approved by the Governing Council at its session in February 2000.

The International Fund for Agricultural Development  
Rome

We have audited the accompanying financial statements (Appendices A through G) of the International Fund for Agricultural Development (the Fund) as at and for the years ended 31 December 1999 and 1998. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements give a true and fair view of the financial position of the International Fund for Agricultural Development at 31 December 1999 and 1998, and the results of its operations and its cash flows for the years then ended in accordance with International Accounting Standards.
