I. INTRODUCTION

1. The Seventy-Second Session of the Executive Board was held in Rome on 25-26 April 2001. A list of participants is attached as Annex I.

2. The Executive Board had before it the documents listed as Annex II.

II. OPENING OF THE SESSION

3. The President of IFAD, Mr Lennart Båge, opened the Seventy-Second Session of the Executive Board in his capacity as chairperson. After thanking Member States for the support given to him in electing him President by acclamation, he assured the Executive Board of his intention to collaborate closely with all Member States over the coming years. He stated that he was very committed to the international development target of halving poverty by the year 2015 and believed IFAD had an important and very specific role to play in this achievement. Given that IFAD is one of the forerunners in grass-roots rural development, the knowledge, experience and expertise the Fund has acquired in its years of operations should be put to use not only in its programmes but also by its development partners at the international and national level. As President of IFAD, he hoped to report in due course on IFAD’s contribution to the target of halving poverty.

4. The recent publication of the Rural Poverty Report 2001, he continued, was a prime example of the Fund sharing its expertise and knowledge. The report had been widely launched, and he had personally presented it to the recent meeting of the Administrative Committee on Coordination held in Nairobi. Experts the world over had already provided very favourable comments and as President he intended to ensure the report’s wide dissemination and to use this platform in policy dialogue, advocacy and outreach. He had already met with the leaders of the other two Rome-based food organizations and looked forward to close cooperation among the three institutions. He had also begun meeting with the Fund’s staff both at a general meeting and on individual divisional levels and had started to share with them his ambition for the Fund – one of an effective, forceful organization with clear goals deriving from the mandate, from the goals set by the international community and, more specifically, from the goals in the Action Plan set out for IFAD by the Consultation to Review the Adequacy of the Resources Available to IFAD.

5. During these early days of his Presidency, he had been very much impressed by the commitment and competency of IFAD’s staff – an excellent foundation on which to build. He would like to work on having more aggressive resource mobilization, a wider communications strategy and more collaboration with other institutions. Discussions had already begun as well on reviewing the Fund’s investment policy and its internal planning process. He hoped that under his chairmanship and with the support of the Directors, the Executive Board would continue deliberating in the same efficient and time-effective manner as in the past and that the decisions they made as a collective body would strengthen IFAD and, most importantly, help poor people improve their lives. He could think of no cause more urgent and more rewarding than working for the betterment of the conditions of fellow human beings subject to deprivation and poverty, and he was most grateful for the opportunity to serve such a noble cause.

6. The Executive Board noted that, in accordance with the composition agreed upon at the time of the election of the Executive Board, the United Kingdom and The Netherlands exchanged seats on 1 January 2001 for the remainder of their current term of office and, as such, the United Kingdom was now the Member with The Netherlands being its Alternate.
III. DECISIONS OF THE EXECUTIVE BOARD

A. Adoption of the Agenda (Agenda Item 2)

7. The Executive Board considered the Provisional Agenda presented in document EB 2001/72/R.1/Rev.1 and, upon concluding its discussion of this item, adopted the Agenda contained in document EB 2001/72/R.1/Rev.2. The Agenda is attached as Annex III.

B. Fifth Replenishment of IFAD’s Resources (Agenda Item 3)

(a) Report on the Fifth Replenishment of IFAD’s Resources

8. The Executive Board began its review of the Fifth Replenishment of IFAD’s Resources (document EB 2001/72/R.2 and addendum) with an oral report on the completion of Governing Council Resolution 119/XXIV on 20 February 2001. Directors particularly welcomed management’s intention, as a result of this completion, to examine the possibility of reverting back to the Fund’s normal lending level for 2001. The Board also authorized the President of IFAD to accept instruments of contribution, from Member States, for which the schedule for payment and/or the number of instalments differ from the provisions contained in paragraph II.9(a)(i) and (ii) of Resolution 119/XXIV, provided that the variations in the schedule and/or instalments do not adversely affect the operational needs of IFAD.

(b) Status of Contributions to the Fifth Replenishment of IFAD’s Resources

9. The report on the Status of Contributions to the Fifth Replenishment of IFAD’s Resources (document EB 2001/72/R.35) indicated that instruments of contribution deposited and payments made against pledges not supported by instruments of contribution amounted so far to 13% of total pledges. There was general agreement that efforts should be made to ensure that all Member States deposit their instruments of contribution as soon as possible in order to expedite the effectiveness of the Fifth Replenishment.

C. Financial Matters (Agenda Item 4)

(a) Status of Contributions to the Fourth Replenishment of IFAD’s Resources

10. The Executive Board reviewed the Status of Contributions to the Fourth Replenishment of IFAD’s Resources (document EB 2001/72/R.3 and addendum), noting that the instruments of contribution deposited and payments in cash or promissory notes received against pledges not supported by instruments of contribution amounted to the equivalent of USD 414 million, or about 98.7% of total pledges.

(b) Investment Portfolio

(i) Report on IFAD’s Investment Portfolio for 2000
(ii) Report on IFAD’s Investment Portfolio for the First Quarter of 2001

11. The Executive Board reviewed the Report on IFAD’s Investment Portfolio for 2000 (document EB 2001/72/R.4) and the Report on IFAD’s Investment Portfolio for the First Quarter of 2001 (document EB 2001/72/R.5). Directors expressed concern over the negative rates of return obtained in both periods. While recognizing that such fluctuations should be expected when investing in bonds and equities, there was a general consensus that sufficient factors existed to warrant an overall review of the Fund’s investment policies. These factors included timing – after four years of experience in diversification, and external conditions such as the perceived duration of the bear equities market.
12. Directors expressed appreciation for the informal seminar, which had clarified not only investment policies but also the various elements of the Fund’s resources. Directors made many useful comments on the draft terms of reference of the expert group to be set up to review the Fund’s investment policies, as well as the process by which this review should be undertaken. It was suggested that the group advise the Fund on its investment approach, indicating the type of eligible instruments, asset allocation and risk level, as well as socially responsible investment policies. The group would also review the adequacy of internal monitoring and assessment procedures. The President invited the Convenors of the three Lists to meet with him as soon as possible after the Session to finalize the expert group’s terms of reference and the procedural aspects. In that way, the group could be established quickly with the aim of completing its work in time to allow recommendations to be made to the September session of the Board.

(c) **Status Report on Principal and Interest Payments**

13. The Executive Board reviewed the Status Report on Principal and Interest Payments (document EB 2001/72/R.6 and addendum) and noted that, apart from the arrears of four long-outstanding cases for which no settlement plan had been possible, arrears from other borrowing countries had shown an improvement. Directors requested that future reports indicate how the Fund was pursuing those four specific cases.

(d) **Audited Financial Statements of IFAD for 2000**

14. In accordance with Regulation XII-6 of the Financial Regulations of IFAD, the Executive Board considered the audited financial statements of IFAD for 2000 (document EB 2001/72/R.7), took note of the External Auditor’s clean report, and agreed to submit the financial statements and the report to the Twenty-Fifth Session of the Governing Council for approval.

(e) **Requirements for the Twenty-Second Drawdown of Members’ Contributions in 2001**

15. The Executive Board considered the information contained in document EB 2001/72/R.8 and, in accordance with Article 4 Section 5(c) of the Agreement Establishing IFAD and Regulation V of the Financial Regulations of IFAD, approved the drawdown of USD 292.1 million in May 2001 to meet loan and grant disbursements for 2001, which would be effected by drawing down from the contributions to the Third and Fourth Replenishments, and authorized the President to proceed accordingly. The Board noted that several countries were consulting with the Secretariat on separate arrangements for payment schedules during the transition period, as foreseen in the drawdown policy adopted in December 2000.

(f) **Requirements for the Fourteenth Drawdown from the Special Resources for Sub-Saharan Africa (SRS) in 2001**

16. The Executive Board considered the information contained in document EB 2001/72/R.9 and approved a fourteenth drawdown from the Special Resources for Sub-Saharan Africa (SRS) of the remaining one per cent (1%) of the first-phase contributions and the remaining 7.8 per cent (7.8%) of the second-phase contributions from the Special Programme for Sub-Saharan African Countries Affected by Drought and Desertification to meet loan and grant disbursements in 2001, and authorized the President to proceed accordingly.
(g) Provision of Advance Financing to the Global Mechanism of the United Nations Convention to Combat Desertification

17. The Executive Board considered the information contained in document EB 2001/72/R.10 and approved that the President of IFAD advance the amounts necessary to the Global Mechanism for its operations from IFAD’s own resources, but not exceeding the annual budget that the Conference of the Parties has approved for the Global Mechanism. This on the condition that the Fund shall recover such amounts upon receipt of funds from the United Nations Convention to Combat Desertification (CCD) Secretariat.

(h) Report of the Audit Committee

18. The Executive Board endorsed the report on the seventy-second and seventy-third meetings of the Audit Committee (document EB 2001/72/R.11) presented by its chairperson and noted the committee’s concerns regarding the proposal for a common services arrangement with FAO and WFP on investment. It also noted the committee’s review of the internal audit function.

D. Progress Report on the Project Portfolio (Agenda Item 5)

19. Directors praised the Progress Report on the Project Portfolio (document EB 2001/72/R.12) as an excellent report that responded to the Executive Board’s request for emphasis on performance analysis. The Board was assured that management was giving due priority to impact assessment, particularly within its Process Re-engineering Programme (PRP), and that the PRP’s next report would provide information on IFAD’s corporate position on impact management. The Board wished to record its concern over the World Bank’s diminishing resource allocation to agricultural development, which has also resulted in decreased cofinancing of IFAD projects in Africa.

E. Annual Report on Evaluation (Agenda Item 6)

20. The Annual Report on Evaluation (document EB 2001/72/R.13) was welcomed by Directors. They encouraged management to continue using the new approach to evaluation, finding it a constructive strategy in improving the performance of IFAD operations and policies. Directors that had participated in the recent evaluation workshop and round-table discussions held in Syria commended the work undertaken and the excellent opportunity it had presented for a dialogue on policy. Such opportunities should be replicated to the extent possible.

F. Resources Available for Commitment at the Seventy-Second Session of the Executive Board and Resource Projections for 2001 (Agenda Item 7)

21. The Executive Board reviewed the Resources Available for Commitment (document EB 2001/72/R.14 and addendum) and approved the use of the Advance Commitment Authority (ACA) (document EB 2001/72/INF.5) for an amount of up to USD 70 million – as will be indicated in document EB 2001/72/R.14/Add.1/Rev.1. This will take account of the normal inflow of resources from loan repayments. At its September session, the Board will be provided with a comprehensive paper on the ACA, taking into account the issues raised at this Session.

G. IFAD’s Participation in the Debt Initiative for Heavily Indebted Poor Countries (Agenda Item 8)

22. The Board reviewed the report on the status of the Debt Initiative for Heavily Indebted Poor Countries (HIPC) and IFAD’s participation and considered the proposals for twelve countries (document EB 2001/72/R.15). In so doing, it also approved that the Guinea-Bissau and Niger arrears to IFAD be consolidated into their respective debt-relief proposals. In the light of the overall amounts
the Fund would now be foregoing as a result of its participation in the Debt Initiative and the consequent adverse effect on the Fund’s lending programme, Member States contributing to the World Bank Trust Fund were asked to earmark part of their contributions for IFAD. Alternatively, countries could contribute directly to the IFAD Trust Fund for the HIPC Debt Initiative.

23. Upon concluding its review of the proposed contributions to the reduction of the debt to IFAD, the Executive Board adopted the following resolution presented in document EB 2001/72/R.15:

“RESOLVED: that the Fund, upon declaration at the completion points by the World Bank and the International Monetary Fund that Cameroon, The Gambia, Guinea, Guyana, Madagascar, Malawi, Nicaragua, Rwanda, Sao Tome and Principe, and Zambia have satisfied the conditions for debt relief under the Debt Initiative for Heavily Indebted Poor Countries, shall reduce the value of the debt to IFAD for Cameroon, The Gambia, Guinea, Guyana, Madagascar, Malawi, Nicaragua, Rwanda, Sao Tome and Principe, and Zambia through the forgiving of their respective semi-annual debt-service obligations to IFAD (principal and service-charge/interest payments) as these fall due after the respective completion points and up to the aggregate SDR net present values listed in Table 4.

For Guinea-Bissau and Niger, debt relief will be provided, upon the decision of the Executive Board and after finalization of the legal documentation, through the integration of their arrears to IFAD into the debt relief and through forgiving their respective semi-annual debt-service obligations to IFAD (principal and service-charge/interest payments) as these fall due and up to the aggregate SDR net present values listed in Table 4.

J. Planned Project Activities and Interim Procedure for Review of Country Strategic Opportunities Papers (COSOPs) and Projects (Agenda Item 11)

42. During the discussion, general comments and some concerns were raised on the usefulness of the COSOP as a strategic tool and on the magnitude of its scope. It was agreed, however, that the Fund needed a framework for medium-term planning and that these papers provide it with the best opportunity. Accordingly, the Board agreed to allow a learning process in 2001, not only for finalizing the structure of COSOPs but also for the manner in which they would be reviewed together with project proposals. For the remaining sessions in the year 2001, it was decided that the Executive Board would review two COSOPs per session, which the Board itself would identify at its previous session. In future the Board would also review all project proposals together – in the expeditious manner that was used at this Session. For the Seventy-Third Session of the Board, it was decided to review the COSOPs for India and Mozambique, together with their respective project proposals.

43. The Executive Board reviewed, for the first time, a Country Strategic Opportunities Paper, specifically the COSOP for the Federal Republic of Nigeria (document EB 2001/72/R.29), which had been formulated along the guidelines used for the prototype COSOP presented to and approved in a seminar held for Directors in September 2000. There was a rich exchange of ideas and opinions on IFAD’s strategy in Nigeria, with comments being made on various aspects of the COSOP.

44. The main areas discussed concerned the need to: articulate policies that support and add value to IFAD-funded projects; prioritize development interventions according to strategic focus and connect those interventions with policy analysis; internalize lessons learned; and involve communities and other stakeholders in policy dialogue and project implementation. Concern to have more emphasis on gender-balanced and environmentally sustainable development was also expressed. The importance was highlighted of better articulation of the role of civil society and government institutions in rural development and poverty alleviation.
L. IFAD/NGO Extended Cooperation Programme (ECP) (Agenda Item 13)

(a) Revised Operational Procedures for the IFAD/NGO Extended Cooperation Programme

45. The Executive Board, in recognizing that the ECP’s strategic importance for IFAD had significantly increased over the years, approved the revision of its operational procedures (document EB 2001/72/R.30) as follows:

(ii) the NGO concerned will have provided, or has confirmed that it will provide, appropriate material or financial support for the effective and successful implementation of the ECP project.

(b) Any single grant to be approved by the President under paragraph (a) above shall not exceed USD 100,000, with the exception of a grant to finance an IFAD/NGO consultation, which may exceed this amount.
