1. At the Second Session of the Executive Board, it was agreed that information on planned project activities would be presented to the Board on a regular basis in order to enable its Members to keep abreast of developments in IFAD’s project/programme pipeline and prospective lending and, should they so desire, to comment on planned projects at an appropriate stage of the project cycle.

2. Part I of the document provides a comprehensive listing, by region and by stage of processing, of all projects and programmes that have entered the pipeline after approval of the inception memorandum. In addition, as agreed by the Executive Board in September 2003, Executive Directors can find detailed information on the IFAD website on projects/programmes that have reached an advanced stage of design and are thus likely to be presented at one of the Board's future sessions. Each of these projects/programmes are represented by two-page information notes, which are updated upon the completion of each major step in the project cycle.

3. In this manner, the Executive Board is provided with an ongoing opportunity to review and comment on IFAD’s short- and medium-term lending proposals.

4. As agreed at the Seventy-Second Session of the Executive Board, Part II of the document provides information on all country strategic opportunities papers (COSOPs) reviewed to date by the Operational Strategy Committee (OSC) and those reviewed by the Board. Part III provides information on planned COSOPs.
