**IFAD**

**INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT**

**Executive Board – Eighty-Fourth Session**

Rome, 18-20 April 2005

**AUDITED FINANCIAL STATEMENTS OF IFAD AS AT 31 DECEMBER 2004**

1. The Executive Board is invited to consider the attached Audited Financial Statements of IFAD (Appendixes A to H) and the Report of the External Auditor for submission to the Governing Council for approval. The statements have been audited by the external auditor, whose draft audit opinion (attached) concludes that “the financial statements give a true and fair view of the consolidated financial position of the (Fund) at 31 December 2004, and the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards”.
2. In accordance with Article 6, Section 11, of the Agreement Establishing IFAD, the financial statements will form part of IFAD’s Annual Report 2004. As in previous years, a note will be inserted to the effect that they have been submitted by the Executive Board to the Governing Council with a recommendation for their approval.
3. In 2004, the Fund reclassified contributions income relating to the Debt Initiative for Heavily Indebted Poor Countries (HIPC) within its own resources in order to more transparently reflect the underlying impact of such income, which is to directly offset the related liability borne by IFAD. Prior to 2004, that category of income was directly recognized in the accounts of the related Trust Fund. The change has had no impact on the overall consolidated results and balances and merely represents a reclassification between the two entities concerned. The prior year’s figures have been restated accordingly. A summary of the impact of the reclassification is included in Appendix H, Note 6, to the financial statements.

**4. Consolidated and IFAD-Only Statement of Revenues and Expenses (Appendix A) and IFAD-Only Statement of Operating Expenses (Appendix A1)**

- (a) Income from interest and service charges on loans amounted to USD 48.0 million in 2004 compared with USD 47.1 million in 2003. The Fund has excluded interest and service charges on loans with arrears in excess of 180 days. The amount in 2004 was USD 2.9 million compared with USD 3.5 million in 2003.
- (b) Gross income from cash and investments amounted to USD 115.9 million in 2004 compared with USD 114.5 million in 2003 on a consolidated basis. Direct charges against investment income amounted to USD 6.6 million in 2004 compared with USD 5.6 million in 2003 on a consolidated basis.
- (c) The subtotal of operating expenses amounted to USD 113.6 million in 2004 (2003 – USD 100.4 million) on a consolidated basis, of which some 91.6% related to IFAD (2003 – 92.1%). A separate analysis of the principal sources of funding of IFAD-only costs is found in Appendix A1.
- (d) Consolidated grant expenses amounted to USD 27.2 million in 2004 (2003 – USD 22.9 million).
- (e) In 2004, there was a net negative movement in the allowance for loan impairment losses of USD 53.5 million (2003 – USD 17.5 million positive movement), resulting in a balance of USD 114.1 million (2003 – USD 60.5 million). This movement included USD 4.5 million of exchange loss in 2004.
- (f) IFAD has been participating in the Debt Initiative for HIPC's since 1997. As shown in Appendix G, the total cumulative cost of debt relief is USD 368.6 million in nominal terms as at 31 December 2004, and the debt relief provided to date is some USD 48.1 million (principal) plus USD 16.6 million (interest).
- (g) In 2004, there was an accounting gain of USD 12.3 million (2003 – USD 4.3 million charge) for the After-Service Medical Coverage Scheme based on the latest actuarial valuation.

**5. Consolidated and IFAD-Only Statement of Total Recognized Gains and Losses (Appendix A2).**

These statements include the retained earnings arising from the excess of accounting revenues over expenses and the effects of foreign-exchange-rate movements. It should be noted that retained earnings are fully committed.

**6. Balance Sheet (Appendix B)**

- (a) The consolidated cash and investment portfolio, including investment receivables and payables, increased from USD 2 496.8 million as at 31 December 2003 to USD 2 699.5 million as at 31 December 2004.
- (b) Loans outstanding net of accumulated allowances for loan impairment losses and the Debt Initiative for HIPC's increased from USD 3 528.2 million as at 31 December 2003 to USD 3 799.0 million as at 31 December 2004.
- (c) Contributions to regular resources net of provisions increased from USD 4 394.1 million as at 31 December 2003 to USD 4 668.5 million as at 31 December 2004.

**7. Statement of Cash Flows (Appendix C)**

Appendix C has been prepared in accordance with IAS No. 7 (revised) based on consolidated data. The movements in cash and investments (excluding equities) in the balance sheet are dealt with in detail in this appendix. Some 94% of the balances of consolidated cash and investments relate to IFAD.

**8. Statement of IFAD-Only Resources Available for Commitment (Appendix D)**

This statement includes all assets in freely convertible currencies that may be considered committable in accordance with the policy adopted at the Thirty-Fourth Session of the Executive Board. It should be noted that in 2004 no use has been made of advance commitment authority (ACA) as regular resources were sufficient to meet loan and grant commitments. Since 2001, when ACA was used for the first time, 2004 was the first year when there has been an overall cover of ACA (amounting to USD 194.3 million) rather than net use.

**9. Statement of Member States' Contributions and Special Contributions (Appendixes E and E1)**

Appendix E combines contributions to the initial resources of the Fund and to the First to Fifth Replenishments as all amounts have been drawn down and full disclosure on non-payment has been made in Appendix H – Notes to the Financial Statements. Details are provided separately on contributions to the Sixth Replenishment.

Appendix E1 shows the complementary and supplementary contributions made by Members and non-Members.

**10. Statement of Loans (Appendix F)**

The position, country-by-country, of the Fund's borrowers is given in this appendix, with a split between United States dollar loans and loans in special drawing rights (SDR).

**11. Summary of the Debt Initiative for Heavily Indebted Poor Countries (Appendix G)**

This appendix contains an analysis, country-by-country, of the debt relief provided to date and current commitments for future relief, as authorized by the Executive Board in SDR.

**12. Notes to the Consolidated Financial Statements (Appendix H)**

This appendix contains further information both on the basis of accounting and on data underlying the principal statements.

13. The Financial Statements for 2004 are due to be reviewed in detail at a meeting of the Audit Committee on 31 March 2005. The Chairperson of the Audit Committee will make a formal report to the Eighty-Fourth Session of the Executive Board on the conclusions of the Committee with respect to these statements.

**Recommendation**

14. Accordingly, the Executive Board may wish to adopt the following decision:

“In accordance with Regulation XII-6 of the Financial Regulations of IFAD, the Executive Board considered the 2004 Audited Financial Statements of IFAD and the Report of the External Auditor thereon and agreed to submit them to the Governing Council for approval.”

**SELECTED OPERATIONAL STATISTICS FOR 2004**

**Projects/Loans/Grants:**

<b>25</b>	Number of new loans approved in 2004 (2003-25)
<b>USD 443.2 million</b>	Value of new loans approved in 2004 (2003-USD 403.6 million)
<b>USD 313.7 million</b>	Loan disbursements in 2004 (2003-USD 288.4 million)
<b>88</b>	Number of new grants approved in 2004 by IFAD (2003-70)
<b>USD 33.5 million</b>	Value of new grants approved by IFAD (2003-USD 20.3 million)
<b>23</b>	Number of new grants approved in 2004 under Supplementary Funds (2003 – 16)
<b>USD 6.7 million</b>	Value of new grants approved under Supplementary Funds (2003 – USD 4.8 million)
<b>USD 17.8 million</b>	Grant disbursements by IFAD (2003 – USD 16.0 million)
<b>USD 5.6 million</b>	Grant disbursements under Supplementary Funds (2003 – USD 3.4 million)
<b>USD 27.5 million</b>	Total repayments relating to Debt Initiative for HIPCs in 2004 (2003 – USD 13.3 million)

**Contributions:**

<b>USD 93.3 million</b>	Cash received and promissory notes drawn down from Sixth Replenishment in 2004 (2003 – USD 16.0 million)
<b>USD 116 million</b>	Cash received and promissory notes drawn down from the Initial to Fifth Replenishments in 2004 (2003 – USD 177.7 million)
<b>USD 33.4 million</b>	Supplementary and complementary contributions received in 2004, excluding the Debt Initiative for HIPCs (2003 – USD 16.8 million)
<b>USD 32.6 million</b>	Cash received for the Debt Initiative for HIPCs in 2004 (2003 – USD 8.8 million)

**Investment Portfolio:**

<b>USD 115.9 million</b>	Gross consolidated income from cash and investments in 2004 (2003 – USD 114.5 million)
<b>USD 2 699.5 million<sup>1</sup></b>	Total cash and investment portfolio (2003 – USD 2 496.8 million)
<b>4.6 %</b>	Average rate of return on consolidated cash and investment in 2004 (gross of expenses) (2003 – 4.9%)

---

<sup>1</sup> The investment portfolio is fully committed.

**INTERNATIONAL FUND  
FOR AGRICULTURAL DEVELOPMENT****CONSOLIDATED FINANCIAL STATEMENTS**  
for the years ended 31 December 2004 and 31 December 2003

- Appendix A - Consolidated and IFAD-Only Statement of Revenues and Expenses**
  - Appendix A1 - IFAD-Only Statement of Operating Expenses**
  - Appendix A2 - Consolidated and IFAD-Only Statement of Total Recognized Gains and Losses**
  - Appendix B - Consolidated and IFAD-Only Balance Sheet**
  - Appendix B1 - IFAD-Only Balance Sheet Retranslated in SDR**
  - Appendix C - Consolidated Cash-Flow Statement**

## Maturity Structure of Outstanding Loans

As at 31 December 2004 and 2003  
(USD'000)

Period due	2004	2003
Less than 1 year	199 115	185 875
1-2 years	153 973	145 116
2-3 years	159 046	144 907
3-4 years	157 628	141 684
4-5 years	155 196	140 815
5-10 years	826 127	757 172
10-15 years	663 519	582 885
16-20 years	549 596	487 706
21-25 years	490 863	438 956
More than 25 years	474 690	504 152
<b>Total</b>	<b>3 829 753</b>	<b>3 529 268</b>

<sup>1</sup> Loans approved in 1978 were denominated in United States dollars and are repayable in the currencies in which withdrawals are made. From 1979, loans have been denominated in SDRs and, for purposes of presentation in the balance sheet, the accumulated amount of loans denominated in SDRs has been valued at the USD/SDR rate of 1.549787/1 at 31 December 2004. Since the loans were valued at 31 December 2003 at the then prevailing rate of 1.48644/1, there is an increase in value in terms of United States dollars of USD 307 579 000, attributable to the movement in exchange rates from 31 December 2003 to 31 December 2004 (from 2002 to 2003, there was a increase in value in terms of United States dollars of USD 579 967 000).

<sup>2</sup> Repayment amounts include participation by The Netherlands and Norway in specific loans to these countries, resulting in partial early repayment and a corresponding increase in committable resources. For further information regarding contributions made from resulting in early repayment of loans see Appendix E1

<sup>3</sup> See Appendix H, Note 3(e).

<sup>1</sup> See Appendix H, Note 11(c).

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## Appendix H

**Note 1: Brief Description of the Fund and the Nature of Operations**

The International Fund for Agricultural Development (IFAD or the Fund) is a specialized agency of the United Nations. IFAD formally came into existence on 30 November 1977, on which date the agreement for its establishment entered into force, and has its headquarters in Rome, Italy. The Fund and its operations are governed by the Agreement Establishing the International Fund for Agricultural Development.

Membership in the Fund is open to any state member of the United Nations or any of its specialized agencies, or of the International Atomic Energy Agency (IAEA). The Fund's resources come from Member contributions, special contributions from non-Member States and other sources, and funds derived or to be derived from operations.

The objective of the Fund is to mobilize additional resources to be made available on concessional terms primarily for financing projects specifically designed to improve food production systems, the nutritional level of the poorest populations in developing countries and the conditions of their lives. IFAD mobilizes resources and knowledge through a dynamic coalition of the rural poor, governments, financial and development institutions, non-governmental organizations and the private sector, including cofinancing. Financing from non-replenishment sources in the form of supplementary funds and human resources forms an integral part of IFAD's operational activities.

**Note 2: Summary of Significant Accounting and Related Policies****(a) Basis of Accounting**

The Consolidated Financial Statements of the Fund are prepared in accordance with International Financial Reporting Standards (IFRS) and under the historical cost convention. Certain data have been aggregated in the balance sheet on the grounds of immateriality. Information is provided separately in the accounts for entities where this is deemed of interest to the readers of the accounts. Some of the prior year's information has been reclassified to conform to the current year's presentation.

Preparation of the financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates. Significant judgements have been used in the computation of estimated losses for the Debt Initiative for HIPCs and overdue loan repayments.

Financing in the form of supplementary funds and human resources forms an integral part of IFAD's operational activities. As such the Fund prepares consolidated accounts, which include the transactions and balances for the following entities:

- Special Programme for Sub-Saharan African Countries Affected by Drought and Desertification
- Other supplementary funds, including cofinancing, associate professional officers (APOs) and programmatic supplementary funds; the Belgian Survival Fund Joint Programme (BSF.JP); and the Global Environment Facility
- Debt Initiative for HIPCs Trust Fund
- After-Service Medical Coverage Scheme Trust Fund

These entities have a direct link to IFAD's core activities and are substantially controlled by IFAD. Accordingly, they are consolidated in IFAD's financial statements for reasons of completeness and clarity. All transactions and balances between these entities have been eliminated. Additional financial data for

funds is drawn up as and when requested to meet specific donor requirements.

Loans are stated at cost, less an allowance for losses due to impairment (i.e. possible reduction in the value of an asset) to be made in cases where the full amount of the loan is not being repaid in accordance with the original repayment schedule. In addition, in instances where IFAD participates in debt relief under the Debt Initiative for HIPCs framework, an allowance is established for the estimated impairment loss.

The Fund carries its investment securities at market value, with the exception of selected securities that the Fund intends to hold until maturity, which are carried on the basis of cost. Both realized and unrealized security gains and losses are included in income from investments as they arise. Both realized and unrealized exchange gains and losses are included in the account for movements in foreign exchange rates as they arise. All purchases and sales of investments are recognized on the trade date, which is the date that the Fund commits to purchase or sell the assets. Costs of purchase include transaction costs.

Service charge income and income from other sources is recognized as revenue in the period in which the related expenditures are incurred.

A contribution to IFAD replenishment resources is recorded in full as receivable when the Member deposits its instrument of contribution. Amounts receivable from Member States as contributions, loans and other receivables have been recorded at their full value except for the policy on overdue contributions described in subparagraph (f) below and on overdue loans and the Debt Initiative for HIPCs described above.

Contributions to non-replenishment resources are recorded as revenues in the period in which the related expenditures occur. For cofinancing activities, contributions received are recorded as revenues in the period in which the related grant is approved. Grants approved are therefore included as expenditures in the statement of revenues and expenses. Contributions relating to programmatic grants, APOs and other supplementary funds are recorded in the balance sheet as deferred income and are reduced by the amount of project-related expenses in the statement of revenues and expenses. Where specified in the donor agreements, contributions received and interest earned thereon, for which no direct expenditures have yet been incurred, are deferred until future periods to be matched against the related costs.

Grants, with the exception of cofinancing activities mentioned above, are recorded as expenditures on effectiveness of the approved amount and as a liability for undisbursed amounts. Cancellations of grants are recognized as an offset to the expense in the period in which they occur.

The cost of office furniture and equipment is charged directly to expense when purchased. The expenditures involved are not material in the context of the total assets of IFAD's consolidated accounts and therefore its presented financial position. In addition, the annual expenditures do not have a significant effect on the reported results of operations. Furthermore, most office furniture and some equipment is reimbursed to IFAD and therefore actually owned by the Host Government. IFAD maintains an inventory system and performs controls to monitor the related assets.

Retained earnings represent the excess of revenue over expenses net of the effects of changes in foreign exchange rates. The resulting balance is considered a reserve for accounting purposes only and is in fact currently fully committed for loans and grants. For operational purposes, reference should be made to the Statement of IFAD-Only Resources Available for Commitment (Appendix D).

**(b) Area of Consolidation**

Financing for IFAD's supplementary funds is given for the following principal purposes: technical assistance grants, cofinancing, APOs and programmatic or thematic funds.

Supplementary funds administered by IFAD also include BSF.JP, whose main activities relate to improvement of household food security and nutritional status in specific developing-country areas, capacity-building and empowerment. The BSF.JP is housed by IFAD, although the programme of work is agreed with the Belgian Government in the context of annual steering committee meetings. Furthermore, in 2002, IFAD became the executing agency for supervision of a global environment facility.

IFAD has established two trust funds, whose transactions and balances are included in these Consolidated Financial Statements. Please refer to Notes 7(c) and 11 for further information.

**Entities Housed at IFAD**

Other entities are housed at IFAD, although they do not form part of the core activities of the Fund and, as such, are not included in IFAD's accounts. These are the International Land Coalition (ILC) (formally called the Popular Coalition to Eradicate Hunger and Poverty) and the Global Mechanism of the United Nations Convention to Combat Desertification (GM). The ILC and GM are separate entities, and further financial data can be found in their respective financial statements.

**(c) Translation and Conversion of Currencies**

The Fund, as an international organization, conducts its operations in several currencies, and at the present time maintains its accounting records in United States dollars. The financial statements are expressed in United States dollars solely for the purpose of summarizing the financial position.

The Fund has translated all items in its balance sheet, except its Member States' contributions in currencies other than the United States dollar, at market rates of exchange at year-end. Member States' contributions have been translated at market rates of exchange as at date of receipt in respect of cash, including drawdown payments, and at market rates of exchange as at date of disbursement in the case of non-convertible currencies.

A statement of IFAD's balance sheet is prepared in SDR (Appendix B1), given that a majority of its assets are denominated in SDR and/or SDR currencies. This statement has been included solely for the purpose of providing additional information to readers of the accounts. In 2003 a statement of IFAD's total assets only was prepared in SDR. The statement of IFAD's total balance sheet has been provided in 2004 with comparative figures in order to present more information to enable readers to have a better understanding of the accounts.

Revenue and expense items in currencies other than the United States dollar have been recorded at appropriate rates of exchange during the period.

The exchange adjustments arising from the translation of assets and liabilities in currencies other than the United States dollar are credited or charged to an exchange adjustment account and included in the statement of revenues and expenses.

The following rates of 1 unit of SDR in terms of USD as at 31 December were used:

Year	USD
2002	1.35952
2003	1.48644
2004	1.54979

The movement in the account for foreign exchange rates is explained as follows:

	USD '000	
	2004	2003
Opening balance at 1 January	690 797	203 032
Exchange movements for the year on:		
Cash and investments	84 093	172 699
Equities	7 586	13 601
Net receivables/payables	674	(344)
Loans and grants outstanding	155 937	299 100
Promissory notes and Members' receivables	23 166	50 484
Member States' contributions	(22 783)	(47 775)
Total movements in the year	<u>248 673</u>	<u>487 765</u>
Closing balance at 31 December	<u>939 470</u>	<u>690 797</u>

In 2004 the movement on this account excludes the gain/loss related directly to operations, which instead is included in Retained Earnings from Operations. The prior year's figures have been restated accordingly.

**(d) Valuation of Financial Instruments**

**(i) Investments:** With the exception of selected securities that the Fund intends to hold until maturity, which are carried at cost, all investment securities held by the Fund are held for trading and are reported at estimated fair value, represented by the quoted market value at the balance-sheet date. Both purchases and sales of investment securities are accounted for at trade date.

**(ii) Loans:** Loans are carried in the financial statements at cost, i.e. at the full-face amount of the borrower's outstanding obligations, less an allowance for impairment losses.

**(e) Provisions**

Provisions are established when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Employee entitlements to annual leave and long-service leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave and long-service separation entitlements as a result of services rendered by employees up to the balance-sheet date.

**(f) Provisions against Overdue Member States' Contributions**

The policy on provisions against overdue Member States' contributions is as follows:

(i) Whenever a payment of an instalment against an instrument of contribution or a payment of a drawdown against a promissory note becomes overdue by 24 months, a provision will be made equal to the value of all overdue contribution payments or the value of all unpaid drawdowns on the promissory note(s) outstanding.

(ii) Whenever a payment of an instalment against an instrument of contribution or a payment of a drawdown against a promissory note becomes overdue by 48 months or more, a provision will be made against the total value of the unpaid contributions of the Member or the total value of the promissory note(s) of that Member related to the particular funding period (i.e. a replenishment period).

(iii) The end of the financial year is currently used for determining the 24- and 48-month periods.

**(g) Consolidated Cash-Flow Statement**

For the purpose of the cash-flow statement, cash and cash equivalents comprise cash in hand and deposits held at call with banks. They also include investments that are readily convertible at the balance-sheet date. Equities and net investment payables are

excluded from readily convertible investments for cash-flow purposes in accordance with the related accounting standard.

**(h) IFAD Resources Available for Commitment**

Resources available for commitment are those resources in freely convertible currencies defined in Article 4, Section 1, of the Agreement Establishing IFAD, which have been contributed by Member States and others or have been derived, or are to be derived, from operations or loan repayments by borrowers, to the extent that these resources have not already been committed for loans and grants or appropriated to the General Reserve.

The policy for determining resources available for commitment is as follows:

- (i) Only actual payments in the form of cash or promissory notes will be included in committable resources. The value of instruments of contribution against which payment in the form of cash or promissory notes has not yet been made will be excluded from committable resources.
- (ii) Provisions have been established for overdue promissory notes as per section (f) above.
- (iii) The Executive Board has authority to employ advance commitment authority (ACA) prudently and cautiously to compensate, year by year, for fluctuations in the resources available for commitment and to act as a reserve resource. ACA has been used since 2001, as regular resources have not been sufficient to meet loan and grant commitments.

A loan or grant is considered to be committed when a formal agreement is signed by the Fund and the respective borrower or grantee. PDFF costs are considered to be committed when the associated milestone for each type of activity has been reached. The Fund's Executive Board reviews a statement of resources available for commitment at every Executive Board meeting to ensure that resources are available to meet loans and grants presented for approval.

**(i) Accounting Changes**

In 2004, the Fund has reclassified contributions income relating to the Debt Initiative for HIPC's within its own resources in order to reflect more transparently the underlying impact of this income, which is to offset directly the related liability borne by IFAD. Prior to 2004, this income was recognized directly in the accounts of the related Trust Fund. This change has had no impact on the overall consolidated results and balances and merely represents a reclassification between the two entities concerned. The prior year's figures have been restated accordingly. A summary of the impact of this reclassification is included in Note 6.

**Note 3: Loans**

**(a) Background to Loans**

IFAD loans are made only to developing states that are Members of the Fund or to intergovernmental organizations in which such Members participate. In the latter case, the Fund may require governmental or other guarantees. A loan becomes effective when IFAD has received a satisfactory legal opinion from the borrower and any other conditions precedent to effectiveness have been fulfilled. Upon effectiveness, disbursement may commence.

Loan repayments and related interest payments for loans approved during 1978 are required to be made in the currency in which the respective portion of the loan was advanced or as specified in the loan agreement. In respect of all Fund loans approved after 1 January 1979, loan repayments and interest are payable in the currency specified in the loan agreement in amounts equivalent to the SDR due, based on International Monetary Fund rates on the due dates. Loans approved are disbursed to borrowers in accordance with the provisions of the loan agreement.

Currently the lending terms of the Fund are as follows:

“(a) Special loans on highly concessional terms shall be free of interest but bear a service charge of three fourths of one per cent (0.75%) per annum and have a maturity period of forty (40) years, including a grace period of ten (10) years; (b) loans on intermediate terms shall have a rate of interest per annum equivalent to fifty per cent (50%) of the variable reference interest rate, as determined annually by the Executive Board, and a maturity period of twenty (20) years, including a grace period of five (5) years; (c) loans on ordinary terms shall have a rate of interest per annum equivalent to one hundred per cent (100%) of the variable reference interest rate, as determined annually by the Executive Board, and a maturity period of fifteen (15) to eighteen (18) years, including a grace period of three (3) years; (d) no commitment charge shall be levied on any loan.”

Loans are stated at cost, minus an allowance for impairment losses. IFAD reviews its loan portfolio regularly for impairment. It makes an allowance in the event of any uncertainty about the receipt of the full amount in accordance with the original repayment schedule. The resulting write-down does not extinguish the liability of any Member State to discharge its obligations. If the write-down is no longer required, it is reversed. The net movement in the allowance for impairment loss is included as a separate line in the statement of revenues and expenses and also separately on the face of the balance sheet.

**(b) Accumulated Allowance for Impairment Losses**

The allowance is based on the difference between expected cash flows derived from those calculated on the estimated or renegotiated repayment schedule and the nominal value. The entire loan, and not just the overdue instalment, is subject to impairment. In cases where it is not possible to estimate with any reasonable certainty the expected cash flows of a loan (as in all cases for which an allowance has been established to date), an alternative approach is allowed that adopts a method similar to the benchmark used for the provisioning of Members States' contributions. This means that an allowance shall be made on loan instalments overdue by more than 24 months for all cases where a settlement plan is not being actively followed. An allowance is also made for loan instalments on the same loan overdue by less than 24 months. Once this trigger period has been reached, all amounts overdue at that time are considered to be in provision status, even in the event that part of the total outstanding debt is subsequently repaid. In cases where more than 48 months have elapsed, an allowance is made for all outstanding principal amounts of the loan concerned. The point in time from which it is necessary to determine whether or not the given period has elapsed is the balance-sheet date.

An analysis of the accumulated allowance for loan impairment losses is shown below:

	USD '000	
	2004	2003
Balance at beginning of year	60 525	78 071
Net increase/(decrease) in allowance	53 535 <sup>1</sup>	(17 546)
Balance at end of year	114 060	60 525

<sup>1</sup> This includes the effect of revaluation of USD 4.5 million; accordingly the increase net of revaluation effects is some USD 48 991 000, as shown in Appendix A.

No specific provision has been made in the Financial Statements with regard to the possibility of debt service relief, or other initiatives, for 2005 and subsequent years for IFAD borrowers adversely affected by the tsunami disaster in late December 2004. Any subsequent change in this position will be duly reported.

**(c) Non-Accrual Status**

For loans with overdue amounts in excess of 180 days interest and service charges are recognized as income only when actually received. Follow-up action is being taken with the respective governments to obtain settlement of these obligations.

Had these amounts been recognized as income, income from loans as reported in the statement of revenues and expenses for the year 2003 would have been greater by USD 2 893 000 (2003 – USD 3 466 000). The corresponding figures relating to SPA were USD 52 000 (2003 – USD 50 000). The Member States concerned are shown below:

**(i) Borrowers in Non-Accrual Status – IFAD**

	USD '000		31 December 2004	
	Principal Outstanding	Principal Overdue	Income Not Accrued in 2004	In Arrears Since
Central African Republic	32 989	3 176	310	May 2001
Cuba	12 876	12 876	493	Sep 1989
Democratic Republic of the Congo	26 513	6 412	255	Feb 1993
Guinea-Bissau	6 796	1 280	66	Nov 1995
Liberia	15 776	11 608	439	Nov 1995
Seychelles	546	252	42	Jan 2002
Sierra Leone	24 748	1 543	184	Mar 1998
Solomon Islands	3 437	398	33	Apr 2001
Somalia	26 809	11 186	257	Jan 1991
Togo	24 865	2 595	224	Sep 2000
Zimbabwe	<u>26 025</u>	<u>6 640</u>	<u>590</u>	Oct 2001
Total	<u>201 380</u>	<u>57 966</u>	<u>2 893</u>	

**(ii) Borrowers in Non-Accrual Status – SPA**

	USD '000		31 December 2004	
	Principal Outstanding	Principal Overdue	Income Not Accrued in 2004	In Arrears Since
Guinea-Bissau	3 172	535	30	Dec 1995
Sierra Leone	<u>2 275</u>	<u>29</u>	<u>22</u>	Mar 1998
Total	<u>5 447</u>	<u>564</u>	<u>52</u>	

The income from loans reported in the statement of revenues and expenses for 2004 includes USD 712 000 (2003 – USD 2 162 000) in respect of income received relating to prior years.

Details of loans approved and disbursed and of loan repayments appear in Appendix F.

**(d) Further Analysis of Loan Balances**

	USD '000	
	2004	2003

**(e) Loans to Non-Member States****Fund for Gaza and the West Bank (FGWB)**

At its Twenty-First Session in February 1998, the Governing Council adopted Resolution 107/XXI approving the establishment of a fund for the specific purpose of lending to the Gaza Strip and the West Bank. The application of Article 7, Section 1(b), of the Agreement Establishing IFAD was waived for this purpose. Financial assistance, including loans, is transferred to the FGWB by decision of the Executive Board and the repayment thereof, if applicable, is made directly to IFAD's regular resources.

**Note 4: Income from Cash and Investments****(a) Basic Principles**

The President may place or invest cash funds not needed immediately for the Fund's operations or administrative expenditures.

In investing the resources of the Fund, the President shall be guided by the paramount consideration of security and liquidity. Within these constraints, the President shall seek the highest possible return in a non-speculative manner.

Income earned from investments may, inter alia, be used by the Fund to meet its administrative and other expenditures in accordance with the approved budget.

**(b) Investment Management**

During 2004 IFAD continued to adhere to the investment policy it adopted in December 2001, which allocates 5% in cash, 44% in government bonds, 23% in diversified fixed-interest instruments, 18% in inflation-indexed bonds and 10% in equities and has a credit floor of AA- for fixed-interest investments. In 2004, it was decided to disinvest from equities and to invest USD 400 million in high-quality bond instruments to be held until maturity. The decision will be implemented during the first quarter of 2005.

Since 1994, management of the major part of IFAD's investment portfolio has been entrusted to external investment managers under investment guidelines provided by the Fund. At 31 December 2004, funds under external management amounted to USD 2 395.4 million (2003 – USD 2 142.6 million), representing some 88.7% (2003 – 85.8%) of total cash and investments.

**(c) Risk Management**

The Fund has addressed investment risks through the provision of the investment guidelines and custodial arrangements:

**(i) Credit Risk:** The investment guidelines permit investments in time deposits with selected commercial banks, government and government-guaranteed bonds, corporate bonds, bonds issued by multilateral development banks and exchange-traded derivatives of such securities. The eligibility of banks and bond issues is determined on the basis of ratings made by major credit-rating agencies.

**(ii) Market Risk:** Exposure to market risk is adjusted by modifying the duration of the portfolio, depending on the outlook for securities prices. The upper limit for the duration of the fixed-income portion of the portfolio is set at 0-2 years above the benchmarks of respective fixed-income asset classes. Options and futures are held for managing market risk rather than for trading purposes.

**(iii) Currency Risk:** The majority of the Fund's commitments are expressed in SDR. Consequently the overall assets of the Fund, including the investment portfolio and promissory notes, are maintained in such way as to ensure that, to the extent possible, commitments for undisbursed loans and grants denominated in SDR are matched by assets denominated in the currencies and in the ratios of the SDR valuation basket. Similarly, the General Reserve and commitments for grants denominated in United States dollars are matched by assets denominated in USD.

To increase returns, the Fund may invest in securities denominated in currencies other than those included in the SDR valuation basket, and enter into covered forward foreign-exchange agreements in order to maintain the matching in currency terms of commitments denominated in SDR and United States dollars.

**(iv) Custodial Risk:** IFAD has entrusted the safekeeping of its investment assets to a major custodian bank. The custodian safeguards the funds, maintains separate accounts for each externally managed investment subportfolio, and settles the investment transactions initiated by external investment managers.

**(d) Derivative Instruments**

The Fund's investment guidelines authorize the use of the following types of derivative instruments:

**(i) Futures:** Future contracts open at year-end were as follows:

	31 December	
	2004	2003
Number of contracts open:		
Buy	967	1 362
Sell	950	713
Net unrealized gains of open contracts (USD '000)	15	881
Maturity range of open contracts	31 to 437 days	67 to 354 days

The underlying instruments of future contracts open at 31 December 2004 were government bonds and currencies.

**(ii) Options:** IFAD only permits the use of investment in exchange-traded options. It does not write option contracts. Relevant data for options at year-end were as follows:

	31 December	
	2004	2003
Number of contracts open:		
Buy	-	-
Sell	225	683
Market value of open contracts gain/(loss) (USD '000)	(59)	(350)
Net unrealized gains/(losses) of open contracts (USD '000)	37	157
Maturity range of open options	49 to 77 days	51 to 348 days

The underlying instruments of option contracts open at 31 December 2004 were government bonds.

**(iii) Covered Forwards:** The unrealized market-value loss on forward contracts at 31 December 2004 amounted to USD 898 000 (2003 – gain of USD 191 000). The maturity of forward contracts at 31 December 2004 ranged from 6 to 76 days (31 December 2003 – 16 to 76 days).

The underlying instruments of forward contracts open at 31 December 2004 were currencies.

**(e) Valuation**

The Fund records its investment portfolio at market value, with the exception of selected securities that the Fund intends to hold until maturity, and which are therefore carried at cost. Both realized and unrealized gains and losses are recognized in the period to which they relate and are included in income from cash and investments.

**(f) Income from Cash and Investments**

The gross income from cash and investments for the year ended 31 December 2004 amounted to USD 115 934 000 (2003 – gross income of USD 114 500 000). This figure is gross of direct charges against investment income of USD 6 633 000 (2003 – USD 5 590 000), which are included in expenses.

	USD '000	
	2004	2003
Interest from fixed-income investments	74 854	67 515
Dividend income from equities	6 204	4 709
Net income from futures and options	4 257	2 166
Realized capital income from fixed-income securities	6 755	41 532
Realized capital gain/loss from equities	8 932	(1 631)
Unrealized gain/(loss) from fixed-income securities	1 666	(48 374)
Unrealized gain from equities	9 850	44 507
Income from securities lending and commission recapture	738	430
Interest income from banks and non-convertible currencies	<u>2 678</u>	<u>3 646</u>
Total	<u>115 934</u>	<u>114 500</u>

The above figures include income for the consolidated entities, as follows:

	USD '000	
	2004	2003
IFAD	115 239	113 477
ASMCS Trust Fund	360	256
Debt Initiative for HIIPCs Trust Fund	810	320
BSEF.JP	343	297
Other supplementary funds	628	447
Less: income deferred /reclassified	(920)	(297)
Less: ASMCS accounting gain	<u>(526)</u>	<u>-</u>
Total	<u>115 934</u>	<u>114 500</u>

The average rate of return on consolidated cash and investments in 2004 was positive 4.6% gross of expenses and positive 4.4% net of expenses (2003 – positive 4.9% gross of expenses, positive 4.7% net of expenses). The average rate of return on IFAD cash and investments in 2004 was 4.7% positive gross of expenses and 4.5% positive net of expenses (2003 – 5.1% positive gross of expenses, 4.9% positive net of expenses).

**Note 5: Income from Other Sources**

This income relates principally to reimbursement from the Host Government for specific operating expenditures. It also includes service charges received from entities housed at IFAD as compensation for providing administrative services. An analysis is given below:

	USD '000	
	2004	2003
Service charges	120	111
Host Government income	7 876	5 357
Income from other sources	<u>587</u>	<u>144</u>
Total	<u>8 583</u>	<u>5 612</u>

**Note 6: Contributions Income**

Contributions received for non-replenishment resources to finance specific activities are included in the statement of revenues and expenses in the year in which the related expenditure is incurred. For cofinancing activities, contributions received are recorded as revenues in the period in which the related grant is approved. Contributions relating to programmatic grants, APOs and other supplementary funds are recorded in the balance sheet as deferred income and reduced by the amount of project-related expenses in the statement of revenues and expenses.

Individual donors provided human resources (APOs) to assist in IFAD's activities. The benefits received from donors are recorded as revenues and the related costs included in staff costs.

Contributions received for the Debt Initiative for HIPC's Trust Fund and BSF.JP are recognized as income in the statement of revenues and expenses and matched against related expenditures. This is consistent with the accounting principle adopted with regard to IFAD's combined supplementary funds and serves to present the underlying nature of these balances more clearly. A list of such contributions can be found in Appendix E1.

As described in Note 2(i), a reclassification took place in 2004 so as to illustrate more transparently and consistently the underlying impact of the contributions received for the Debt Initiative for HIPC's, which is to directly offset the related cost borne by IFAD. The prior year's figures have been restated accordingly.

A summary of the net impact of this reclassification on IFAD only is given below (thousands of USD):

	Prior to change	Reclassification	Restated balance
2003			
<b>Balance Sheet</b>			
Other receivables	89 666	52 231	141 897
Payables and liabilities	(326 405)	19 410	(306 995)
Retained earnings carried forward	1 269 107	37 129	1 306 236
<b>Income statement</b>			
Contribution Income	-	7 002	7 002
HIPC cost	27 000	27 000	-
Net exchange rate movements	484 921	510	485 431
<b>Resources</b>			
ACA covered	367 049	71 641	438 690

As shown in Appendix D, the 2003 resources figures have not been restated as this statement is used for operational purposes.

**Note 7: Staff Numbers and Retirement and Medical Benefits****(a) Staff Numbers**

Employees that are on IFAD's payroll are part of the benefits system offered by IFAD. These benefits include participation in the United Nations Joint Staff Pension Fund and in the After-Service Medical Coverage Scheme administered by FAO.

The number of approved posts of the Fund, including the President and Vice President, at 31 December was as follows:

IFAD Posts	2004	2003
Professional	144.0	134.0
General Service	<u>172.5</u>	<u>181.5</u>
Total	316.5	315.5

The number of staff on the payroll of the Fund and other consolidated entities by principal budget source as at 31 December 2004 was as follows:

	Professional	General Service	Total
IFAD admin. budget	169	238	407
IFAD PDFF	10	22	32
IFAD other sources	5	21	26
BSF.JP	1	4	5
APO	18	0	18
Programmatic funds	13	2	15
<b>Total 2004</b>	<b>216</b>	<b>287</b>	<b>503</b>
Total 2003	192	272	464

The difference between approved posts and number of staff engaged on the payroll consists in staff engaged on temporary contracts.

As in previous years, IFAD engaged the services of consultants, conference personnel and other temporary staff to enable it to meet its operational needs.

**(b) Retirement Plan**

IFAD is a member organization participating in the United Nations Joint Staff Pension Fund (UNJSPF), which was established by the United Nations General Assembly to provide retirement, death, disability and related benefits. The Pension Fund is a funded, defined benefit plan. The financial obligation of the organization to the UNJSPF consists of its mandated contribution, at the rate established by the United Nations General Assembly, together with any share of any actuarial deficiency payments under Article 26 of the Regulations of the Pension Fund. Such deficiency payments are only payable if and when the United Nations General Assembly has invoked the provision of Article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Pension Fund as of the valuation date. At the time of this report, the United Nations General Assembly has not invoked this provision.

The actuarial method adopted is the Open Group Aggregate method. The cost of providing pensions is charged to the income statement so as to spread the regular cost over the service lives of employees, in accordance with the advice of the actuaries, who carry out a full valuation of the period plan every two years. The latest actuarial valuation was prepared as of 31 December 2003. This valuation revealed an actuarial surplus, amounting to 1.14% of pensionable remuneration. IFAD makes contributions on behalf of its staff (currently payable by the participant and IFAD at 7.9% and 15.8%, respectively, of the staff member's pensionable remuneration) and would be liable for its share of the unfunded liability, if any. Total retirement plan contributions made for staff in 2004 amounted to USD 6 250 000 (2003 – USD 5 460 000). "The plan exposes participating enterprises to actuarial risks associated with the current and former employees of other enterprises, with the result that there is no consistent and reliable basis for allocating the obligation, plan assets and costs to individual enterprises participating in the plan." (International Accounting Standards Board, *International Accounting Standards 2003*, IAS 19, p.4 (London, 2003).) IFAD is not able to identify its share of the underlying financial position and performance of the plan with

sufficient reliability for accounting purposes, and hence has not recorded any assets in its accounts in this regard, nor included related information such as the return on plan assets.

**(c) After-Service Medical Coverage Scheme**

IFAD participates in a multi-employer After-Service Medical Coverage Scheme administered by FAO for staff receiving a United Nations pension and eligible former staff on a shared-cost basis. The ASMCS operates on a pay-as-you-go basis, meeting annual costs out of annual budgets and staff contributions. Since 1995, FAO has engaged an actuary to determine the unfunded accrued liability pertaining to the scheme, of which IFAD is allocated its share, currently based principally on headcount. IAS No. 19 requires that this liability be fully provided in the accounts of an organization immediately.

The latest actuarial valuation was carried out as at 31 December 2003, the results of which are included in IFAD's 2004 accounts since they were not available at the time of preparation of the 2003 accounts. The methodology used was the projected unit-credit-cost method with service prorate. The principal actuarial assumptions used were as follows: discount rate, 5.5%; expected salary increases, 2.5%; medical cost increases, 4.5%; and inflation, 2.0%. The results determined IFAD's share of the unfunded liability as at 31 December 2003 to be some USD 15.0 million.

This results in an accounting gain for IFAD of some USD 12.3 million as, at 31 December 2001, IFAD had fully funded the allocated liability of USD 23.3 million in addition to the annual current service costs and related investment income thereon. As permitted under the related accounting standard, IFAD has fully recorded this gain in its 2004 financial statements. The 2004 and 2003 financial statements include a provision and related assets constituted as follows as at 31 December:

	USD million	
	2004	2003
<b>Past service costs</b>		
Total provision brought forward	23.3	19.1
Total charge for unfunded deficit	-	4.2
Recording of accounting gain	(8.3)	
Provision carried forward	<u>15.0</u>	<u>23.3</u>
<b>Current service costs</b>		
Provision brought forward	4.0	3.3
Charge in year	1.0	0.7
Recording of accounting gain	(3.5)	-
Reclassification of accruals	(0.5)	-
Cumulative provision	<u>1.0</u>	<u>4.0</u>
Total costs (released)/charged in year	<u>(12.3)</u>	<u>4.9</u>
<b>Interest earned</b>		
Interest brought forward	0.5	0.2
Recording of accounting gain	(0.5)	-
Interest earned on balances	<u>0.4</u>	<u>0.3</u>
Cumulative interest earned	<u>0.4</u>	<u>0.5</u>
Total provision at 31 December	<u>16.4</u>	<u>27.8</u>

IFAD provides for the full annual current service costs of this medical coverage, including its eligible retirees. In 2004, such costs included within staff salaries and benefits in the financial statements amounted to USD 993 000 including some USD 136 000 relating to the prior year (2003 – USD 721 000).

It is intended that actuarial valuations will continue to be carried out at least every two years.

In accordance with the relevant accounting standard, IFAD has set up a trust fund into which it transfers the accrued assets. This is necessary in order for these assets to qualify as ASMCS assets and as such to be used to offset IFAD's deemed liability for its former staff under this scheme.

**Note 8: Direct Bank and Investment Costs**

	USD '000	
	2004	2003
Investment management fees	(5 717)	(5 087)
Net other charges	<u>(267)</u>	<u>(190)</u>
Total	<u>(5 984)</u>	<u>(5 277)</u>

**Note 9: Operating Expenses**

An analysis of IFAD operating expenses by principal funding source is shown in Appendix A1.

The Programme Development Financing Facility finances the multi-year expenditures required for the design, implementation and supervision of projects and programmes financed by loans and grants from IFAD. When an obligation is incurred for PDFF costs, the related costs are recorded as a separate line item within expenditures in the statement of revenues and expenses and as a liability in the balance sheet for undisbursed accrued amounts. PDFF commitments are recorded as a deduction from resources available for commitment upon effectiveness of the underlying activities, based on specific milestones for each type of activity.

The costs incurred relating to PDFF, and SCP as well, are classified in the accounts in accordance with the underlying nature of the expense.

**Note 10: Grants**

The Agreement Establishing IFAD empowers the Fund to make grants to its Member States, or to intergovernmental organizations in which its Members participate, on such terms as the Fund deems appropriate.

Grants are recorded at effectiveness as a separate line item of expenditures in the statement of revenues and expenses and as a liability in the balance sheet for undisbursed amounts. Cancellations of undisbursed balances shall be recognized as an offset to the expense in the period in which they occur. These grants are deducted from resources available on approval by the appropriate authority, consistent with prior years.

Grants include annual funding for entities housed at IFAD, i.e. the International Land Coalition and Global Mechanism:

	USD '000

GM	<u>1 250</u>	<u>-</u>
Total	<u>2 650</u>	<u>500</u>

**Note 11: Debt Initiative for Heavily Indebted Poor Countries**

**(a) Background to the Debt Initiative for HIPC**

IFAD participates in the International Monetary Fund/World Bank original and enhanced Debt Initiative for Heavily Indebted Poor Countries as an element of IFAD's broader policy framework for managing operational partnerships with countries that have arrears with IFAD, or that face the risk of having arrears in the future because of their debt-service burden. Accordingly, IFAD provides debt relief by forgiving a portion of an eligible country's debt-service obligations as they become due.

In 1998, IFAD established a trust fund for the Debt Initiative. This fund receives resources from within IFAD (when approved by the Executive Board) and from other sources, specifically dedicated as compensation to the loan-fund account(s) for agreed reductions in loan repayments under the Initiative. (Refer to Appendix G for details). Amounts of debt service forgiven are expected to be

reimbursed by the trust fund on a pay-as-you-go basis to the extent that resources are available in the fund.

IFAD has funded the Debt Initiative in the amount of USD 59.7 million during the period 1998-2004. Details of funding from external donors on a cumulative basis are found in Appendix E1.

**(b) Impact of the Debt Initiative for HIPCs**

Upon approval of individual debt relief by the Executive Board, the nominal value of the principal component of estimated debt relief costs is recorded as a reduction of disbursed and outstanding loans under accumulated allowance for the Debt Initiative for HIPCs, and as a charge to income. This estimate is subject to periodic revision. Significant judgements have been used in the computation of the estimated nominal value of allowances for the Debt Initiative.

The accumulated allowance for the Debt Initiative is reduced when debt relief is provided by the trust fund (see subparagraph (c) below).

For a summary of debt relief reimbursed since the start of the Debt Initiative and of that expected in the future, please refer to Appendix G. Debt relief approved by the Executive Board to date excludes all amounts relating to the enhanced Debt Initiative for Burundi, the Central African Republic, the Comoros, the Congo, Côte d'Ivoire, the Lao People's Democratic Republic, Liberia, Somalia, the Sudan and Togo. Debt relief for these countries at the end of 2003 was announced by the World Bank/International Monetary Fund. Authorization for IFAD's share of this debt relief is expected to be given by the Executive Board in 2005. At the time of preparation of the 2004 financial statements, the estimate of IFAD's share of the overall debt relief for these countries, principal and interest, was USD 156 355 000.

Gross investment income amounted to USD 810 000 (2003 – USD 320 000) from Debt Initiative trust fund balances.

The total cumulative cost of debt relief derives from the following sources:

	USD '000		
	2004	Movement	2003
IFAD contributions 1998-2004	59 670	-	59 670
Shortfall between debt relief approved and funds available (Appendix A)	142 037	(30 167)	172 204
Subtotal (Appendix A1)			
Cumulative net exchange-rate movements	40 556	9 847	30 703
Total IFAD cumulative cost	242 407	(20 321)	262 577
Total contributions from external sources (Appendix E1)	59 997	31 118	28 879
Cumulative net investment income	2 579	808	1 771
Total (Appendix G)	304 833	11 606	293 227

**(c) Accumulated Allowance for the Debt Initiative for HIPCs**

On approval of the Executive Board, the estimated nominal value of the principal component of the debt relief to be provided under the Debt Initiative for HIPCs framework is included as a cost to the accumulated allowance for the Debt Initiative. This cost is offset by income receivable from the Debt Initiative for HIPCs trust fund to the extent that resources are available. These amounts are net of any debt relief delivered to date. The balances for the years ended 31 December are summarized below:

USD '000

	2004	2003
Balance at beginning of year	255 972	236 056
Repayments of principal	(21 853)	(9 375)
Change in provision	(4 019)	10 135
Less exchange-rate movements	<u>10 012</u>	<u>19 156</u>
Balance at end of year	<u>240 112</u>	<u>255 972</u>

**Note 12: Cash and Investment Balances**

**(a) Analysis of Balances**

USD '000

	2004	2003
Unrestricted cash	172 346	269 965
Cash subject to restriction (Note 12(b))	<u>332</u>	<u>394</u>
Total	<u>172 678</u>	<u>270 359</u>
Unrestricted investments	2 688 674	2 424 410
Investments subject to restriction (Note 12(b))	<u>386</u>	<u>400</u>
Total	<u>2 689 060</u>	<u>2 424 810</u>

**(b) Cash and Investments Subject to Restriction**

**(i) Currencies Not Freely Convertible:** Cash and investments held by the Fund at 31 December 2004 in currencies not freely convertible amounted to USD 332 000 (2003 - USD 394 000) and USD 386 000 (2003 – USD 400 000), respectively.

In accordance with the Agreement Establishing IFAD, the amounts paid into the Fund by the then Category III Member States in their respective currencies on account of their initial or additional contributions are subject to restriction in usage.

**(c) Composition of the Investment Portfolio by Instrument**

At 31 December 2004, cash and investments at market value amounted to USD 2 698 821 000, excluding restricted and non-convertible currencies (2003 – USD 2 495 963 000), and comprised the following instruments:

	USD '000	
	2004	2003
Cash	172 346	269 965
Fixed-income instruments	2 102 698	1 839 854
Unrealized market-value gain/(loss) on forward contracts	(898)	191
Time deposits and other obligations of banks	309 681	327 473
Equities	278 475	253 306
Futures	(1 224)	3 936
Options	(59)	(350)
Total cash and investments	2 861 020	2 694 375
Receivables for investments sold	40 176	31 433
Payables for investments purchased	<u>(202 374)</u>	<u>(229 845)</u>
Total	<u>2 698 821</u>	<u>2 495 963</u>

**(d) Composition of the Investment Portfolio by Currency**

The currency composition of cash and investments at 31 December was as follows:

	USD '000	
	2004	2003
Euro	752 169	694 914
Japanese yen	387 379	360 775
Pound sterling	320 708	279 472
United States dollar	1 175 746	1 061 351
Others	<u>62 819</u>	<u>99 451</u>
Total	<u>2 698 821</u>	<u>2 495 963</u>

**(e) Composition of the Investment Portfolio by Maturity**

The composition of cash and investments by maturity at 31 December was as follows:

	USD '000	
	2004	2003
Due in one year or less	580 880	529 910
Due after one year through five years	1 204 964	1 040 526
Due from five to ten years	230 875	268 688
Due after ten years	403 947	403 840
No fixed maturity (equities)	<u>278 155</u>	<u>252 999</u>
Total	<u>2 698 821</u>	<u>2 495 963</u>

The average life to maturity of the fixed-income investments included in the consolidated investment portfolio at 31 December 2004 was 80 months (2003 – 90 months).

**Note 13: Contributors' Promissory Notes and Receivables**

**(b) Sixth Replenishment**

Details of payments made for the Sixth Replenishment are shown in Appendix E. The Sixth Replenishment came into effect on 17 December 2003.

**(c) Special Programme for Africa (SPA)**

Details of contributions to the SPA under the First and Second Phases are shown in Appendix E.

**Note 14: Provisions**

In accordance with the policy referred to in Note 2(f) and (h), the Fund has established provisions as follows:

	USD '000	
	2004	2003
Balance at beginning of the year	180 671	186 755
Total movements	<u>(4 379)</u>	<u>(6 084)</u>
Balance at end of year	<u>176 292</u>	<u>180 671</u>
Analysed as:		
Promissory notes of contributors (a)	83 152	88 176
Amounts receivable from contributors (b)	<u>93 140</u>	<u>92 495</u>
Total	<u>176 292</u>	<u>180 671</u>

**(a) Provisions against Promissory Notes**

As at 31 December 2004, all IFAD replenishment contributions up to and including the Fifth Replenishment, deposited in the form of promissory notes, have been drawn down to the extent of 100% and the Sixth Replenishment has been drawn down to the extent of 30% (31 December 2003 – 100% up to the Fifth Replenishment).

As at 31 December 2004 and 2003, all First and Second Phase SPA contributions have been fully drawn down.

In accordance with the policy referred to in Note 2 (f) and (h), the Fund has established provisions against promissory notes as indicated hereunder.

Total	<u>93 140</u>	<u>92 495</u>

**Note 15: Other Receivables**

	USD'000	
	2004	2003
Receivables for investments sold	40 176	31 433
Miscellaneous	<u>17 330</u>	<u>18 773</u>
Total	<u>57 507</u>	<u>50 206</u>

The amounts above are expected to be received within one year of the balance-sheet date.

**Note 16: Payables and Liabilities**

	USD'000	
	2004	2003
Payables for investments purchased	(202 375)	(229 845)
ASMCS liability	(15 900)	(27 373)
Other payables and accrued liabilities	<u>(33 374)</u>	<u>(43 138)</u>
Total	<u>(251 649)</u>	<u>(300 356)</u>

Of the total above, some USD 42.9 million (2003 – USD 56.8 million) is estimated to be payable in more than one year from the balance-sheet date.

**Note 17: Deferred Revenues**

	USD '000	
	2004	2003
Deferred contributions	(35 751)	(50 107)
Deferred income	<u>(4 674)</u>	<u>(4 483)</u>
Total	<u>(40 425)</u>	<u>(54 590)</u>

Deferred contributions balances represent contributions received for which the revenue recognition has been deferred to future periods to match the related costs in accordance with the accounting policy stated in Note 2(a).

Deferred income includes amounts relating to service charges received for which the related costs have not yet been incurred.

**Note 18: Contributions**

The contributions to the Fund by each Member when due are payable in freely convertible currencies, except that Category III Members up to the end of the Third Replenishment period could pay contributions in their own currency whether or not it was freely convertible. Each contribution is to be made in cash or, to the extent that any part of the contribution is not needed immediately by the Fund in its operations, it may be paid in the form of non-negotiable, irrevocable, non-interest-bearing promissory notes or obligations payable on demand. The Fund, on the recommendation of its External Auditor, has considered it prudent to establish provisions against unpaid contributions (see Notes 2(f), and 14).

**Note 19: General Reserve**

The General Reserve was established in recognition of the need to cover the Fund's potential over-commitment risk as a result of exchange-rate fluctuations and possible delinquencies in receipt of loan-service payments or in the recovery of amounts due to the Fund from the investment of its liquid assets. It is also intended to cover the risk of over-commitment as a result of a diminution in the value of assets caused by fluctuations in the market value of investments.

**Note 20: Taxation**

IFAD is a specialized agency of the United Nations and as such enjoys privileged tax-exemption status under the Convention on Privileges and Immunities of Specialized United Nations Agencies of 1947 and the Agreement between the Italian Republic and IFAD on IFAD's Permanent Headquarters. Taxation levied where this exemption has not yet been obtained is deducted directly from the related investment income.

**Note 21: Contingencies****(a) Contingent Liabilities**

IFAD has contingent liabilities in respect of debt relief announced by the World Bank/International Monetary Fund for eleven countries. See Note 11(b) for further details of the potential cost of loan principal and interest relating to these countries, as well as the

future interest not accrued on debt relief already approved as shown in Appendix G.

**(b) Contingent Assets**

The organization expects to receive some EUR 1 million (currently USD 1.4 million: 31 December 2003: USD 1.2 million) in reimbursement of taxation deducted on investment income in prior years. These costs were fully provided for in the accounts of previous years as the exact amount, of and year in which, the reimbursement will be made was not certain. IFAD has submitted a formal request to the Italian Government to reclaim these taxes.

**Note 22: Date of Authorization for Issue of Financial Statements**

The financial statements are authorized for issue following the recommendation of the Audit Committee in March 2005 and endorsement by the Executive Board in April 2005. The 2004 financial statements will be submitted to the Governing Council for formal approval at its next session in February 2006. The 2003 financial statements were approved by the Governing Council at its Twenty-Eighth Session in February 2005.

The International Fund for Agricultural Development  
Rome

We have audited the accompanying consolidated Financial Statements (Appendices A through H) of the International Fund for Agricultural Development (the Fund) as at and for the year ended 31 December 2004. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements give a true and fair view of the consolidated financial position of the International Fund for Agricultural Development at 31 December 2004 and the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Rome,
