MINUTES OF THE EIGHTY-EIGHTH SESSION OF THE EXECUTIVE BOARD

I. INTRODUCTION

1. The eighty-eighth session of the Executive Board was held in Rome on 13 and 14 September 2006. A list of participants is attached as Annex I.

2. The Board had before it the documents listed in Annex II.

II. OPENING OF THE SESSION

3. In his capacity as chairperson, the President of IFAD, Mr Lennart Båge, opened the eighty-eighth session of the Executive Board.

III. DECISIONS OF THE EXECUTIVE BOARD

A. Adoption of the agenda (agenda item 2)

4. The Executive Board considered the provisional agenda (EB 2006/88/R.1) and adopted the agenda contained in document EB 2006/88/R.1/Rev.1. The agenda is attached as Annex III.

B. IFAD Policy on Targeting (agenda item 3)

5. The Executive Board considered and approved the IFAD Policy on Targeting (EB 2006/88/R.2, to be revised as EB 2006/88/R.2/Rev.1). The fundamental importance of this policy to the work of IFAD and to ensuring the Fund’s development effectiveness in rural poverty reduction was emphasized. There was extensive discussion and a number of issues were raised relating to the policy’s implementation.

6. Several Directors underscored the difficulty of targeting and the importance of monitoring and continuous learning. Directors urged management to pay close attention to promoting a participatory approach to targeting and to ensuring enhanced partnerships and synergy with other agencies. The importance of explicitly linking the targeting process to interventions designed to boost productive activities and livelihoods was stressed. Monitoring and evaluation were also highlighted as key factors in the success of the targeting policy, as was the issue of benefit capture and the need for it to be contained. The results framework for the policy was to be revised, taking into account the comments made by Directors, and circulated for the information of the Board (EB 2006/88/R.2/Add.1, to be revised as EB 2006/88/R.2/Add.1/Rev.1 and subsequently included in the policy document). In addition, these comments would be integrated into the operational guidelines. A checklist and composite scoring system to assess targeting performance would also be developed in this context.

C. Strategic priorities, and programme of work and budget of IFAD and its Office of Evaluation for 2007 (agenda item 4)

7. The Board welcomed the document on the strategic priorities and programme of work and budget of IFAD and its Office of Evaluation for 2007 (EB 2006/88/R.3). The levels of the Fund’s programme of work for 2007 of US$605 million, subject to the availability of resources, and of the proposed administrative budget were generally supported. Directors commended the reduction in the administrative costs (administrative budget plus Programme Development Financing Facility [PDFF]) ratio to 16.8%, in accordance with the Board’s recommendation in December 2005 and, within this framework, some Directors expressed the need to adhere to a zero real growth budget. Guidance was
provided on the preparation of the final document for submission to the December session of the Board. The Board expressed the desire for greater budget transparency and clarification with respect to the use of the PDFF and its relation to administrative costs and calculation of the relevant deflator. These and other issues raised by Directors would be addressed in the final document. It was agreed that in the first half of 2007 the Audit Committee would consider possible improvements in the organization and presentation of the IFAD budget to further clarify both the distribution of budget resources between administrative and programme costs and the funding sources for activities.

8. The Board also discussed, and expressed its overall agreement with, the proposed work programme and resource issues for the Office of Evaluation (OE) for 2007. In particular, while conveying interest in the planned joint evaluation with the African Development Bank, some Directors expressed concern about the proposed OE budget increase. OE was asked to provide the Evaluation Committee, at its forty-fifth session to be held in October 2006, with further details about the objectives, scope and modalities of cooperation, and about the budget and timetable of this joint evaluation, including the proposed share for each organization. Furthermore, OE was requested to consider delaying the beginning of some of the evaluations planned for 2007 so as to reduce the overall level of resources it would require to implement its work programme in the coming year.

9. In accordance with the decision made by the Board in April of this year, the Audit Committee would review the final programme of work and budget in November 2006. In this regard, Directors were invited to address their comments and questions to the Committee in advance of the meeting.

D. Action Plan deliverables (agenda item 5)

(a) Results-based country strategic opportunities programme

10. The Board considered and approved the new framework for results-based country strategic opportunities programmes as provided in document EB 2006/88/R.4, and welcomed the broad consultative process that had led to the finalization of the framework. Directors appreciated in particular the enhanced importance given to country ownership, alignment with national poverty reduction strategies and harmonization with the activities of other partners in development, which should reinforce IFAD’s comparative advantage through innovative, scalable projects. Both the seminar, held on 12 September 2006, and the Board session had provided useful comments that would assist in completing the operational guidelines.

(b) Revised approval format for projects

11. The revised approval format for projects (EB 2006/88/R.5) was reviewed by the Executive Board. While approving the new format, some Directors expressed concern that the focus of the revised President’s report on key institutional issues rather than on operational matters might hinder a thorough review of proposals. These Directors emphasized their responsibility for project proposal oversight and performance results, thus the need for adequately detailed and timely information. The new format would be reassessed in September 2007, in the context of Action Plan progress reporting, in order to assess its effectiveness. Management affirmed its commitment to provide timely responses to written comments from the Board, to post appraisal reports and key files of project design documents on the restricted website in accordance with document EB 2006/88/R.5, and to make more comprehensive and regularly updated information available on projects in the pipeline. All proposals for submission to the December session of the Board would observe the new format, and confidential electronic access to the background documentation would be granted in a timely fashion to Executive Board Directors.
(c) **Action Plan update**

12. An oral update was provided to the Board on the progress made in implementing IFAD’s Action Plan for Improving its Development Effectiveness. Directors welcomed the news that work on the deliverables was on track and that activities were within the approved budget ceiling. As was advised at the Board’s April 2006 session, an analysis was carried out to assess the need for a medium-term plan. The Board recognized that a framework existed both for the programme of work and budget during the Seventh Replenishment period and for the medium-term effectiveness targets established in the Action Plan. Board Directors therefore agreed that there was no need for an additional instrument in the form of a medium-term plan.

13. The issue of quality assurance had also been studied in consultation with external partners. As a result, a quality assurance team would be established in 2007 and would focus initially on appraising the effectiveness of IFAD’s approach to the quality agenda in the Action Plan itself – and exploring the best modalities for assessing the quality of project design and implementation support. The team would bring together external and internal experts, and would be located within IFAD but outside of the Programme Management Department.

14. The Board was assured that risk management and mitigation, integration and consistency, and the involvement of staff across the entire institution to ensure broad ownership of the Action Plan were all important issues cutting across the full range of activities being carried out.

E. **Enhanced Associate Professional Officer Programme (agenda item 6)**

15. In accordance with the recommendation of the Consultation on the Seventh Replenishment of IFAD’s Resources, the Board considered the pilot proposal for an enhanced Associate Professional Officer (APO) Programme (EB 2006/88/R.6) that would include participants from developing countries. The concept of offering broader and equal opportunities to candidates from all Member States was well received. These APOs would be well-qualified candidates, responding to organizational needs and recruited on the basis of merit, and it is expected that they will have advanced university degrees. The Board approved the proposal described in document EB 2006/88/C.R.P.1/Rev.1, as amended during the discussion (EB 2006/88/C.R.P.1/Rev.2) for a three-year pilot programme, whose cost would be limited to US$1 million. After the three-year pilot phase, an evaluation would be undertaken and the future of the programme decided in the light of the evaluation.

F. **Evaluation (agenda item 7)**

   (a) **Report of the Chairperson on the forty-fourth session of the Evaluation Committee**

16. The report on the forty-fourth session of the Evaluation Committee (EB 2006/88/R.7), held on 8 September 2006, was presented to the Board by the newly elected Chair, Mr Vladimir Hernández Lara of Mexico. The Board was informed that, as a result of the election held for the Chair of the Committee, Mexico would hold the seat until August 2007, at which time Indonesia would take over until the end of the current composition’s term of office.

17. The Board endorsed the recommendations contained in the Evaluation Committee’s report. Some questions were raised regarding the proposed approach to the evaluation of the Action Plan, and the Evaluation Committee was requested to review these issues and to provide OE due guidance in order to facilitate their task in this respect.
18. The Board was informed that the Evaluation Committee had reviewed the evaluation of IFAD’s regional strategy for Asia and the Pacific (EB 2006/88/R.8) at its recent meeting. Directors recognized the excellent quality of the evaluation, which provided interesting and far-reaching conclusions that would prove valuable in guiding IFAD’s strategic direction and overall activities in the region. At the recommendation of the Committee, the Board broadly endorsed the key recommendations made in the agreement at completion point (ACP), noting, however, that the usefulness of developing a new regional strategy required further consideration.

G. President’s report on the implementation status of evaluation recommendations and management actions (agenda item 8)

19. The Executive Board considered the President’s report on the implementation status of evaluation recommendations and management actions (EB 2006/88/R.9), inclusive of comments from the Office of Evaluation. Improvements made in the presentation of the report were widely welcomed. Both the high compliance with the ACP recommendations and the document’s increased potential as a management tool were commended, particularly as the recommendations were prioritized. It was agreed that in future the report would not contain detailed information on the status of the implementation of operational recommendations.

H. Country strategic opportunities programme (COSOP) documents (agenda item 9)

(a) Eritrea

20. The Executive Board reviewed the country strategic opportunities programme (COSOP) for Eritrea (EB2006/88/R.10) and acknowledged the excellent quality of the document. The Board commended IFAD for continuing its operations in an extremely challenging environment and for maintaining excellent policy dialogue with the country’s stakeholders. In discussions on the COSOP, it was agreed that particular attention should be paid to: (i) enhancing further partnership; (ii) empowerment of IFAD’s target group; and (iii) building institutional capacity at every level (community, provincial and national). Some Directors expressed concern over the unresolved World Food Programme (WFP)/Government of Eritrea food distribution issue and information was provided on the latest developments in the ongoing negotiations. Management was urged to identify means of assisting its sister United Nations agency in negotiating a positive outcome in this regard.

(b) Swaziland

21. Directors expressed appreciation for the COSOP for Swaziland, which had been presented in the new results-based COSOP format. The high quality of the document, as a result of the analysis and use of the lessons learned from previous IFAD interventions, was commended. It was recommended that future COSOPs should also show the status of the country with respect to its engagement with other international financial institutions. Two specific recommendations on the Swaziland COSOP were:

(i) The importance of building on partnerships with other development partners and moving towards joint agricultural and rural development strategies, given that allocations to Swaziland under the performance-based allocation system were small; and

(ii) The need to develop better indicators in the results framework.

22. The Board was informed that the fine-tuning of the results framework was a work in progress. Indicators would be sharpened as results began to emerge from the small grants programme for
microenterprises and rural finance and with the commencement of the design activities for a programme that would likely result from the small grants programme.

(c) Turkey

23. The Executive Board reviewed the COSOP for the Republic of Turkey (EB 2006/88/R.12). Directors noted the incorporation of value-added elements in terms of support for improved supply chain management and market linkages in the COSOP and emphasized that – for middle-income countries – such features, together with an exit strategy, were essential.

(d) Venezuela (Bolivarian Republic of)

24. The Board welcomed the COSOP for the Bolivarian Republic of Venezuela, noting that it represented a good example of how to improve policy dialogue and country ownership. The Government’s current efforts to combat poverty, and the challenge that the conversion of these actions into structural changes represents, were highlighted. The role that IFAD can play in this process was emphasized by the Executive Director for Brazil, who also mentioned the poverty reduction programmes of the Government of Brazil, the importance of strengthening rural poor community organizations and IFAD’s Dom Hélder Câmara Project in the semi-arid North-East of Brazil, which contributes to the development of social and economic organizations. Appreciation was expressed for the focus of the strategic objectives and the design of the COSOP, specifically the proposal for the development of the innovative networking of rural poverty reduction policies and programmes at the regional level. Several technical questions were responded to regarding the privatization of extension services, the effects of the 2001 legislative framework on land distribution and the evaluation of the Government’s social programmes. During the discussion, the representative for the United States of America expressed concern about the trafficking in persons in Venezuela and how it was important to prevent this and to generate real economic opportunities for women.

I. Resources available for commitment (agenda item 10)

25. The Board reviewed the documents on the resources available for commitment at this session (EB 2006/88/R.14 and its addendum). With net inflows from 1 January to 31 August 2006 estimated at US$172.8 million and a required total for loan and grant proposals presented for approval at this session of approximately US$96.6 million, resulting in a cumulative total for the year to date of US$252.2 million, the Board approved the use of advance commitment authority (ACA) for an amount of up to US$30.3 million. This brought the level of ACA carried forward to US$375.4 million.

41. The Executive Board considered the report on the Seventh Replenishment of IFAD’s resources (EB 2006/88/R.29), which provided information on the status of contributions and on the votes created under the Seventh Replenishment. In accordance with the decision of the Governing Council, the target level of the Seventh Replenishment was adjusted on the basis of pledges received by 16 August 2006. As at that date, pledges of approximately US$612.5 million had been received. The target level was therefore set at US$720 million. In this regard, Member States that had not yet announced their pledges were encouraged to do so as soon as possible.

42. Directors noted that – as at 6 September 2006 – instruments of contribution deposited and payments not supported by instruments of contribution totalled US$120.6 million equivalent, approximately 20% of the total amount pledged for the Seventh Replenishment. Directors were reminded that the replenishment would become effective once instruments of contribution had been deposited in an amount equivalent to 50% of the total pledges. Member States were therefore urged to deposit their instruments of contribution.
(b) **Report on the status of contributions to the Sixth Replenishment of IFAD’s resources**

43. The Board reviewed the status of contributions to the Sixth Replenishment of IFAD’s resources (EB 2006/88/R.30), noting that, to date, pledges amounted to US$509.1 million, or 91% of the Sixth Replenishment target of US$560 million. Instruments of contribution and payments not supported by instruments of contribution had been deposited in an amount equivalent to US$467.5 million, or 92% of pledges, whereas payments had been received totalling US$427 million, or 84% of pledges.

(c) **Report on IFAD’s investment portfolio for the second quarter of 2006**

44. The report on IFAD’s investment portfolio for the second quarter of 2006 (EB 2006/88/R.31 and its corrigendum, to be revised as EB 2006/88/R.31/Rev.1) was reviewed by the Board. The document included an annex providing figures for the entire first quarter of 2006. Directors noted that, during the second quarter of 2006, there had been a positive net investment income of US$10 million and that a net income of US$25 million had been estimated for the two months of July and August 2006. On a year-to-date basis, at 31 August 2006, the estimated net income was US$35 million.

(d) **Report of the Audit Committee**

45. The newly elected Chair of the Audit Committee, Mr Augusto Zodda of Italy, presented a report on the Committee’s recent meeting (EB 2006/88/R.32), at which the reappointment of the external auditor was reviewed. In endorsing the Committee’s report, the Board approved the appointment of PricewaterhouseCoopers as external auditor for the 2006 financial statements and the related fee of EUR 132,000, and also reappointed PricewaterhouseCoopers as external auditor of the financial statements for 2007-2011.

(e) **Remuneration of General Service staff in Rome – Response to the recommendation of the International Civil Service Commission: Retroactive adjustment of the General Service salary scale**

46. The Board considered the retroactive adjustment of the General Service salary scale (EB 2006/88/R.33) in response to the 12.16% increase recommended by the International Civil Service Commission (ICSC) with an effective date of 1 November 2005. After extensive consideration, the Board authorized the submission to the Governing Council, for a vote by correspondence, of a request to approve a special retroactive expenditure on staff costs of US$1.4 million to cover the costs for November-December 2005. Concern was expressed about the budgetary consequences of a significant retroactive increase and some Directors urged consideration of less disruptive alternatives (such as interim cost-of-living adjustments) as well as performance-based salary increases. In this regard, management reiterated its commitment to undertake an in-depth workload analysis, to be completed by the end of 2006. The Board also noted that, under IFAD’s current status as observer to the ICSC, acceptance by IFAD of ICSC recommendations was not automatically mandatory. The Board would be informed of the outcome of the vote by correspondence at its eighty-ninth session in December 2006.

N. **Report on IFAD’s engagement with indigenous peoples (agenda item 15)**

47. The Board noted the advances made by IFAD in its engagement with indigenous peoples (EB 2006/88/R.34), which would further strengthen the voices of marginalized rural people in the rural development context. Management was urged to continue and, indeed, reinforce its efforts to champion the needs of indigenous peoples in its projects and programmes.
O. Debt sustainability framework (agenda item 16)

48. The Executive Board reviewed the item on the debt sustainability framework at IFAD (EB 2006/88/R.35) and agreed to defer formal consideration of a proposal in this regard to April 2007. Management would provide Board Directors with a report on this matter in February 2007 to facilitate an informal discussion on the framework on a date to be decided at the December 2006 session of the Board. The importance of having the framework in place before Board consideration of projects was stressed.

P. President’s report on the external evaluation of the International Land Coalition (agenda item 17)

49. The President’s report on the external evaluation of the International Land Coalition (EB 2006/88/R.36) was reviewed. Directors noted that, subsequent to a thorough analysis of the evaluation and its implications, proposals would be presented to the Board in December 2006 on the best way to proceed regarding IFAD’s collaboration with the Land Coalition.

Q. Draft provisional agenda for the thirtieth session of the Governing Council (agenda item 18)

50. The Executive Board approved the draft provisional agenda for the thirtieth session of the Governing Council (EB 2006/88/R.37), to be held on 14-15 February 2007.

R. Chairmanship of replenishment consultations (agenda item 19)

51. In response to a request made at its previous session, the Board considered document EB 2006/88/R.38 on the chairmanship of replenishment consultations. Directors welcomed the information provided in the report, and noted its usefulness for the Consultation on IFAD’s Eighth Replenishment, to be launched in 2008.

S. Other business (agenda item 20)

(a) Election of representatives of the Governing Council to the IFAD Staff Pension Committee (EB 2006/88/R.39)

52. Ms Siti Nugraha Mauludiah of Indonesia was elected by the Executive Board to represent the Governing Council on the IFAD Staff Pension Committee as second alternate member to serve for the remainder of the current term of office, i.e. until 30 September 2007.

(b) Letter agreement between IFAD and the International Bank for Reconstruction and Development for the transfer of the Grants Facility for Indigenous Peoples

53. The Executive Board approved the contribution from the International Bank for Reconstruction and Development for the transfer of the World Bank’s Grants Facility for Indigenous Peoples to IFAD, as set forth in the letter agreement contained in document EB 2006/88/R.40. In this regard, it was noted that the operation of the grant facility in IFAD was time-bound in the sense that, when the financing available through the facility was exhausted, operations under the facility would come to an end. IFAD was not taking on any longer-term obligations.

(c) Cooperation Agreement with Agence Française de Développement

54. The Board authorized the President to negotiate and finalize a cooperation agreement with Agence Française de Développement as set out in document EB 2006/88/R.41.
(d) **Agreement with the Organization of the Petroleum Exporting Countries Fund for International Development for Marine Resources Management Programme in the Red Sea**

55. The Executive Board approved the provisions of the agreement with the OPEC Fund for International Development for the purpose of cofinancing the Marine Resources Management Programme in the Red Sea, as contained in document EB 2006/88/R.42.

(e) **Approval of disclosure of documents**

56. The Executive Board approved the disclosure of the documents that had been submitted to the eighty-eighth session, inclusive of the revisions required, and noted that the documents would be subsequently posted on IFAD’s public website.
