PLANNED PROJECT ACTIVITIES

2006-2007

1. At the second session of the Executive Board, it was agreed that information on planned project activities would be presented to the Board regularly to enable members to keep abreast of developments in IFAD's project/programme pipeline and prospective lending and, should they so desire, to comment on planned operations at an appropriate stage of the development cycle.
2. Part I of the document provides a comprehensive listing, by stage of processing and by region, of all projects and programmes that have entered the pipeline after approval of the inception memorandum. In addition, as agreed by the Executive Board in September 2003, Executive Board members may find detailed information on the IFAD website on projects/programmes that have reached an advanced stage of design and are thus likely to be presented at a future session of the Board. Each of these operations is described in a two-page information note, which is updated upon completion of each major step in the project cycle.
3. In this manner, the Executive Board is provided with an ongoing opportunity to review and comment on IFAD's short- and medium-term lending proposals.
4. As agreed at the Board's seventy-second session, part II of this document provides information on all country strategic opportunities papers (COSOPs) and subregional strategic opportunities papers (SRESOPs) reviewed to date by the Operational Strategy and Policy Guidance Committee (OSC) and those reviewed by the Board. Part III provides information on planned COSOPs/SRESOPs.
5. The current session of the Board will be reviewing a proposal for the new results-based country strategic opportunities programme (COSOP) along with the relevant papers for Eritrea, Swaziland, Turkey and the Bolivarian Republic of Venezuela.
