RECOMMENDATION FOR APPROVAL

It is recommended that the Executive Board approve the contribution from the International Bank for Reconstruction and Development and its governance as set forth in paragraphs 6-12 of Annex I and in the attached letter agreement (Annex II).
LETTER AGREEMENT BETWEEN IFAD AND
THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT ON
THE TRANSFER OF THE GRANTS FACILITY FOR INDIGENOUS PEOPLES

1. The Executive Board is invited to note that IFAD entered into an agreement with the International Bank for Reconstruction and Development on 22 June 2006 to support the transfer of the World Bank’s Grants Facility for Indigenous Peoples to IFAD for the purpose of making small grants to indigenous peoples organizations for development projects. It is intended that these projects will be for activities consistent with IFAD’s Strategic Framework and, as such, the initial contribution, as well as the related outflows, will be recorded as supplementary funds in IFAD’s books of account.

2. The Board is requested to approve the contribution from the International Bank for Reconstruction and Development and its governance as set forth in paragraphs 6-12 of Annex I and in the attached letter agreement (Annex II).

3. Relevant background information and the letter agreement are attached.
I. CONTEXT AND BACKGROUND

1. Since the establishment of the United Nations Permanent Forum for Indigenous Issues (UNPFII) in 2000, there has been a very strong and consistent demand from indigenous leaders for IFAD and other international financial institutions (IFIs) to provide resources in support of projects by and for indigenous peoples. In this regard, significant potential exists for more effective and development-oriented dialogue between IFIs, UNPFII and indigenous peoples’ communities and organizations with a view to enhanced partnership and cooperation. In an effort to implement a proactive approach to establishing a direct partnership with indigenous peoples, the World Bank in 2003 established the Grants Facility for Indigenous Peoples (GFIP). The objective was to assist indigenous peoples in designing, approving and implementing sustainable development projects based on their own perspective of self-determined development. The World Bank allocated US$2 million from its Development Grant Facility for a period of three years. The principal innovations of the GFIP are: (a) the provision of grants directly to indigenous peoples’ organizations for the empowerment and inclusion of indigenous peoples in decision-making processes; (b) the governance structure, inasmuch as the Facility is managed by a board comprised of indigenous people with a voting majority; and (c) the sustainability commitment to establish the Facility in separate institutions and disseminate the experience learned from indigenous, demand-driven development initiatives.

2. Against this backdrop, a series of meetings were held between IFAD, the World Bank and UNPFII in the first half of 2006 to discuss the handover of the GFIP to IFAD in pursuit of the World Bank objective of establishing the Facility in a separate institution. As a result, in June 2006 the World Bank and IFAD signed a letter agreement to make available to IFAD a contribution in the amount of US$415,000 to transfer the Facility to IFAD, where it would take on the name of Indigenous Peoples Assistance Facility. The World Bank agreed to assist IFAD during the transitional period of housing the Facility at IFAD by assigning World Bank personnel to provide staff time to support and train IFAD staff and by transferring to IFAD a contribution of US$500,000 equivalent to be provided by the Kingdom of Norway and earmarked for this purpose.

II. RATIONALE AND RELEVANCE TO IFAD

3. Recognizing that IFAD has gained considerable experience, knowledge and wide recognition on indigenous issues and after extensive consultation with the Chair and members of UNPFII, the World Bank officially requested IFAD to take over the GFIP and continue its mandate to support indigenous peoples. The recently concluded fifth session of UNPFII also recommended that IFAD should house the Facility. The transfer of the GFIP to IFAD would provide the Fund with an important instrument for implementing the Programme of Action of the Second International Decade of the World’s Indigenous People.1 It would also effectively implement one of the main recommendations of the IFAD-UNPFII Brainstorming Workshop on Indigenous and Tribal Peoples’ Perspectives on selected IFAD-funded projects held in November 2005.2

1 The five objectives of the Programme of Action for the Second International Decade are the following: (i) inclusion of indigenous peoples in the design, implementation and evaluation of international, regional and national processes regarding laws, policies, resources, programmes and projects; (ii) promoting full participation of indigenous peoples in decisions that directly or indirectly affect them through the principle of free, prior and informed consent; (iii) supporting development policies with a strong focus on identity and respect for the cultural and linguistic diversity of indigenous peoples; (iv) adopting targeted policies, programmes, projects and budgets for the development of indigenous peoples with particular emphasis on indigenous women, children and youth; and (v) development of strong monitoring mechanisms. General Assembly Resolution A/RES/59/174, 22 December 2004.

2 IFAD should proactively provide resources and skills directly to communities to enable them to articulate and pursue their visions of development and to assist them in negotiating mainstream challenges and creating employability. Brainstorming Workshop on Indigenous and Tribal Peoples’ Perspectives on Selected IFAD-funded Projects, Workshop report, IFAD, November 2005.
4. IFAD has been very effective in its work with indigenous peoples from its early years, thanks to its targeted approach to rural development. Moreover, it has channelled a significant part of its loan and grant funds to support indigenous peoples in various regions of the world. Based on this experience, IFAD has observed that capacity-building, self-determined development and ownership can be considerably enhanced by entrusting indigenous communities and their institutions with the direct management of resources and funds. Through such a facility, IFAD will enhance its effectiveness in enabling indigenous peoples, as part of its target group, to overcome their poverty and in integrating their perspectives in its development initiatives for reaching the Millennium Development Goals. Such a facility will also create opportunities for indigenous communities to find their own solutions. Building on a proven mechanism that has been piloted for three years and has worked well at the World Bank, IFAD has a comparative advantage to manage such a facility.

III. THE INDIGENOUS PEOPLES ASSISTANCE FACILITY PROGRAMME

Purpose

5. The President of IFAD signed a letter agreement with the International Bank for Reconstruction and Development on 22 June 2006 to receive a contribution in the amount of US$415,000 for making small grants to indigenous peoples’ organizations for development initiatives. With this contribution, IFAD will set up a time-bound Indigenous Peoples Assistance Facility Programme with the objectives of: (a) supporting the transfer to IFAD of the Grants Facility for Indigenous Peoples managed within the World Bank not later than 31 December 2006, and (b) providing small grants ranging from US$10,000 to US$30,000 to indigenous peoples’ organizations and communities to support culturally appropriate development projects, including but not limited to the following priority areas: (i) planning and preparation of development projects implemented by indigenous organizations and communities; (ii) increasing the capacity of indigenous peoples’ organizations and communities for self-determined development; (iii) development partnerships and alliances between indigenous peoples’ organizations and other stakeholders; (iv) innovative pilot projects that build on indigenous culture, identity, knowledge, natural resources, intellectual property rights, human rights and/or institutions; and (v) critical issues identified in the mandate of UNPFII. Eligibility to apply for a grant is open to indigenous peoples’ community organizations and indigenous peoples’ not-for-profit organizations or NGOs legally registered in the country of grant implementation. The organization must be fully functioning and its application must contain, at a minimum, its by-laws, its certificate of registration and evidence of its legal capacity to receive donor funds under applicable law.

Governance

6. IFAD will provide its no objection for the programme to continue to be managed by the Board of the existing Grants Facility for Indigenous Peoples, which is composed of a majority of indigenous people. The Board will review and approve grant proposals to be financed by the proceeds of the contribution, and will provide general oversight for the programme, whose day-to-day activities will be carried out by IFAD staff and facilities. IFAD will be represented on the Board by a staff member responsible for indigenous issues and by legal counsel as a non-voting resource person. The Board will work closely with assigned IFAD staff, who will be responsible for the administrative, technical and financial aspects of the Facility, including the logistics of meetings and information dissemination.

7. All proposals received in response to a call for proposals from the Indigenous Peoples Assistance Facility will be reviewed through a rigorous and competitive process according to the criteria of project effectiveness, project feasibility, institutional capacity and institutional credibility.
Balance within the grant portfolio will be ensured in terms of geographical distribution, gender and sectors. The Board will review and make the final recommendation on grant awards.

**Implementation and Financial Sustainability**

8. The programme will be managed by IFAD as a time-bound facility that will expire once all the available funds received are disbursed. If the Facility receives strong support from indigenous peoples’ organizations and from UNPFII and if there is a strong willingness on the part of donors and others for it to continue, IFAD would likely be willing to maintain the Facility and make appropriate adjustments to its framework, scope and governance, subject to the availability of adequate resources. The World Bank will support IFAD’s initiatives to raise funds from other donors.

9. In addition to its fiduciary responsibilities, IFAD will also have certain operational responsibilities: (a) through its participation on the Facility’s Board, IFAD will be part of the small-grants approval process and will further hold veto power over any proposal that it deems would result in any risk for IFAD; and (b) IFAD will oversee the use of small grants in a reasonable manner by undertaking a desk review of the grants awarded by the Facility and conducting an assessment of a small sample of representative activities in countries where IFAD has operations under way.

10. IFAD will sign an agreement with each small-grant recipient requiring inter alia that they submit a report to IFAD on activities (progress and financial) within the three months following completion of the activities supported by the grant. IFAD will be responsible for monitoring receipt of such completion reports. A summary of the reports received and overdue will be included as part of the six-monthly reports IFAD will send to the World Bank.

11. During an initial transitional period of six months as from the date of approval by the IFAD Executive Board, the World Bank will assist IFAD in setting up the Facility at IFAD by:

   • assigning World Bank personnel to support the establishment of the Facility at IFAD, including training of the respective IFAD staff;
   • transferring to IFAD the contribution to be provided by the Kingdom of Norway for the Facility; and
   • supporting IFAD initiatives to raise funds from other donors.

12. The Facility is currently expected to be financially sustainable. In accordance with the letter agreement signed by the World Bank and IFAD in handing the Facility over to IFAD, the World Bank agreed to the following provisions:

   • The World Bank will arrange to have the contribution funds paid to IFAD only after it receives confirmation from IFAD that the IFAD Executive Board has approved the content of the letter agreement.
   • An amount of 5% overhead – that IFAD will use to defray the costs of administering the Facility – will be charged to the contribution.
   • Up to US$40,000 to cover the cost of the Facility Board’s meetings (travel and per diem allowances) will be charged to the contribution.
   • Interest earned on investing the World Bank’s contribution will be used by IFAD to defray the Facility’s administrative costs.
• The amount of US$30,000 equivalent of World Bank staff time – to assist IFAD with the establishment of the Facility and to train staff in administering it – will be charged to the contribution.
