## **Recommendation for approval**

The Executive Board is invited to consider the requirements for the twenty-eighth drawdown of Member State contributions in 2007 and adopt the following decision:

“The Executive Board, in accordance with Article 4, Section 5(c), of the Agreement Establishing IFAD and Regulation V of the Financial Regulations of IFAD, approves the drawdown of 30 per cent of Seventh Replenishment contributions in May 2007 to meet loan and grant disbursements for 2007, or as may be stipulated in agreements with individual Member States. Any further funds required for disbursement needs in 2007 not otherwise covered by the drawdown of these contributions will be met from the liquid assets of the Fund. The Executive Board authorizes the President to proceed accordingly.”

## **Requirements for the twenty-eighth drawdown of Member State contributions in 2007**

1. This document proposes a level of drawdown of Member State contributions for 2007 based on estimates of loan and grant disbursements for 2007.
2. Article 4, Section 5(c), of the Agreement Establishing IFAD outlines the provisions to be applied regarding drawdowns. At its seventy-first session (December 2000), the Executive Board adopted a policy of 100 per cent drawdown of Member State contributions for disbursement requirements. Member States are allowed to enter into separate arrangements for individual encashment schedules of drawdown calls. The drawdown policy was based on the premise that these individual arrangements should not adversely affect the operational needs of the Fund and would remain in force until changed within the context of a replenishment, if so required, or until such time as callable resources are depleted. At the time, this was intended to be a one-off, transitional measure. Instead, the number of special arrangements is increasing, with some payment periods for Sixth Replenishment contributions now extending up to 2009.
3. The Executive Board will recall that the amount called each year is adjusted to reflect the difference between the total drawdown and the total disbursed in the previous year. As can be seen in annex I, the deficit in actual encashment from 2006 (last column) is US\$35.1 million. This was due to the exceptional level of actual disbursements made during the year. The projected requirement for 2007 loan and grant disbursements is US\$410.0 million. Adding to that the underdrawn amount brought forward of US\$35.1 million, the resulting net drawdown requirement for 2007 is US\$445.1 million.
4. A number of Member States have not paid calls against previous drawdowns for some time. A full list of such Members is reported in the 2006 consolidated financial statements of IFAD (EB 2007/90/R.29). The Fund will make every effort to secure encashment of promissory notes and/or cash payments, as appropriate. However, in accordance with the procedure for the calculation of drawdowns of Member State contributions approved by the Executive Board at its fifty-fifth session (September 1995), no increase will be made in the drawdown call to cover anticipated non-payment of drawdown calls.
5. As the drawdown necessary to meet 100 per cent of projected loan and grant disbursements for 2007 is estimated at US\$445.1 million, this would require drawing down a theoretical 76.1 per cent of the Seventh Replenishment amount, based on the current pledge level (excluding complementary contributions). However, the 2007 drawdown currently requested reflects only the first instalment due (30 per cent) for unqualified contributions under the Seventh Replenishment resolution. Based on the level of instruments of contribution received at the end of January 2007, this drawdown would cover about US\$90.2 million. This figure will change as Member States make payments during the course of 2007. The difference between the projected disbursement needs and the funds available as a result of this drawdown will have to be met from the Fund's liquid assets and loan reflows.
6. Detailed information on the cumulative approved drawdowns, amounts called and disbursements from 1978 to 2006 is provided in annex I. An estimate of future disbursements and expected drawdowns based on the current level of pledges for the Seventh Replenishment is given in annex II.

<sup>a</sup> The difference between the cumulative "amount called" and the cumulative "amount called updated for movements in the provision for overdue contributions" represents unpaid calls that are in provision status, namely US\$169.4 million as at 31 December 2006.

<sup>b</sup> Total IFAD disbursements for 2006 amounted to US\$409.9 million. Disbursements amounting to US\$384.7 million were met from the 2006 encashments and US\$25.2 million from the closing under-encashment of 2005.

<sup>a</sup> These estimates are based on exchange rates prevailing at 31 December 2006. Future movements in exchange rates will impact, inter alia, the projected disbursements and the value of Member State contributions at the time of drawdown. The estimates also assume that the projected disbursement figure will be attained and that there will be no amount carried forward from 2007 to 2008.

<sup>b</sup> The percentage drawdown for 2007 reflects the first instalment due for unqualified contributions, which is due within 30 days of effectiveness, or on deposit of their instrument of contribution, if later. The Seventh Replenishment became effective on 22 December 2006. The attention of Member states is drawn to the increasing disbursement needs of the Fund, which reflect its growing loan and grant programmes. Under the 100 per cent drawdown policy approved by the Executive Board in December 2000, these disbursement needs exceed the forecast contributions available for drawdown in 2007, as in prior years.

<sup>c</sup> Projected disbursements are based on loan and grant disbursements for the year 2007 taking into account the normal disbursement pattern of the loan portfolio. The 2006 disbursement figure reflects the actual amount.
