Planned project activities including activities proposed and approved under lapse-of-time procedure 2010-2011

1. At the second session of the Executive Board, it was agreed that information on planned project activities would be presented to the Board regularly to enable members to keep abreast of developments in IFAD's project/programme pipeline and prospective lending and, should they so desire, to comment on planned operations at an appropriate stage of the development cycle.
2. To this end, part I of this document provides a comprehensive listing, by stage of processing and by region, of all projects and programmes that have entered the pipeline as part of the results-based country strategic opportunities programmes or after approval of the concept note. In addition, as agreed with the Executive Board in September 2003, IFAD has made available on its website – at <http://www.ifad.org/operations/pipeline/index.htm> – information on projects and programmes that have reached an advanced stage of design and are thus likely to be presented at a future session of the Board. Each of these operations is described in a two-page information note, which is updated upon completion of each major step in the project cycle. As communicated to the Board at the ninety-seventh session, these two-page information notes will now be made available only in English and the language of the country concerned. Following discussions with Board members regarding the desirability of receiving information on new planned interventions well in advance, dates for future key country meetings are being provided to facilitate in-country discussion/consultation. Additional details of future country meetings and project- and programme-related documentation are available on request from the primary IFAD contact given in this document. Supplementary loans/grants that are part of approved, ongoing projects and are to be considered by the Board during the 2010 Board sessions are not reflected in the current document.
3. At the ninety-eighth session of the Executive Board held in December 2009, the Board endorsed the proposal to streamline the Executive Board's approval process for investment projects and programmes (EB 2009/98/R.15). It was agreed that two procedures would be used for project/programme approval: (i) the lapse-of-time procedure; and (ii) the standard procedure. Under the lapse-of-time procedure, eligible proposals, which meet specific criteria, will be considered approved by the Executive Board if no request for formal discussion by the Executive Board is received by a specified deadline. Under the standard procedure, all IFAD-funded projects/programmes that do not fall under the lapse-of-time procedure will follow the existing standard procedure for Board approval.
4. To facilitate the implementation of this new process, it was agreed that the former Planned project activities document (now renamed Planned project activities including activities proposed and approved under lapse-of-time procedure) would be enhanced by adding information on the proposed approval type. Therefore, part I-A of the document now contains a column showing the proposed approval type for each project/programme. Part I-B of the document will now include information about projects/programmes (and supplementary loans/grants) which are currently proposed for approval through the lapse-of-time procedure during the inter-sessional period, and the estimated amount. According to the lapse-of-time procedure, proposals for projects/programmes submitted by the President pursuant to article 7, section 2(c) of the Agreement Establishing IFAD shall be considered approved by the Executive Board if no request for consideration during a session of the Executive Board is received from any member within 30 days of the delivery of the document to the members. Part I-B of the document will also provide a list of all projects/programmes (and supplementary loans/grants) approved by adopting the lapse-of-time procedure in the preceding period. This procedure will also be adopted

for future global/regional and country grants exceeding US\$500,000 and approved through the lapse-of-time procedure in line with the recently revised grant policy (EB 2009/98/R.9/Rev.1).

5. In September 2006, the Executive Board approved a new framework for a results-based country strategic opportunities programme (COSOP), as provided in document EB 2006/88/R.4. The results-based COSOPs will also serve as the vehicle for entry of projects/programmes into IFAD's official pipeline. Some of these pipeline projects/programmes will be processed within the current 2010-2012 cycle of the performance-based allocation system (PBAS), while others will be included in subsequent PBAS allocation periods. Part II provides information on planned COSOPs and subregional strategic opportunities programmes (SRESOPs) and, where available, identifies dates of forthcoming country meetings and stakeholder consultation meetings.
6. As agreed at the Board session in April 2001 (EB 2001/72/R.28), part III of this document provides information on all COSOPs and SRESOPs reviewed to date by the Operational Strategy and Policy Guidance Committee (OSC) as well as those reviewed by the Board.

Overview

7. This document includes 65 projects/programmes that are in IFAD's official pipeline – others will be identified during the course of the year.
8. In terms of geographical distribution, the pipeline includes 7 projects/programmes in Western and Central Africa, 15 in Eastern and Southern Africa, 17 in Asia and the Pacific, 13 in Latin America and the Caribbean and 13 in the Near East and North Africa region.
9. In addition, IFAD foresees presenting supplementary loans/grants in the context of ongoing projects: Participatory Small-scale Water Resources Sector Project (Bangladesh), Rural and Agricultural Finance Programme (Ghana), Community-based Agricultural and Rural Development Programme (Nigeria), Rehabilitation and Community-based Poverty Reduction Project (Sierra Leone) and Programme for the Mobilization of Surface Water and Sustainable Land Management (reserve) (Djibouti).
10. With regard to the operationalization of the lapse-of-time procedure for the approval of projects/programmes during the intersessional period (May-September 2010), IFAD proposes using the lapse-of-time procedure for the approval of two projects and two supplementary loans/grants totalling approximately US\$24.69 million (for more details see part I-B).
11. The current session of the Board will review four COSOPs: Azerbaijan, Dominican Republic, Nigeria and Sierra Leone.
