

IFAD12 Impact Assessment

Implementation progress

124th session of the Evaluation Committee

22 March 2024
Rome, Italy

IFAD12 Impact Assessment: Overview

IFAD12 Impact Assessment sample: 16 projects sampled from those closing between 2022 and 2024 (15% of portfolio).

Random Selection:

- Regionally stratified **random sampling**

Cost Effectiveness:

- **Synergies** between project end-line data collection and IA activities, when possible.
- **Toolkits** produced in IFAD11 are used to streamline IFAD12.

IFAD12 Impact Assessment: Sample

IFAD12 Impact Assessments: Progress

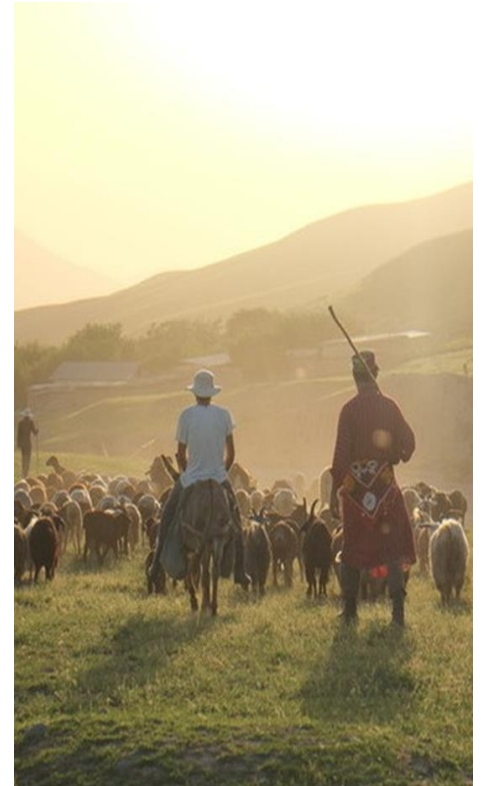

Progress to date:

- **Five** completed: Türkiye, Nepal, Uzbekistan, Montenegro, Madagascar
- **Eight** ongoing: Colombia, Benin, Honduras, Eswatini, Cameroon, Cape Verde, Uganda, Cambodia
- **Three** to start data collection: Bangladesh, China, Mongolia

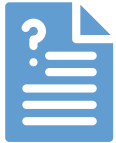

Activities to be completed in 2024

- Finish data collection and finalize analysis
- Prepare for aggregation and projection to portfolio
- Develop knowledge products

IFAD12 Impact Assessment: Timeline

- **Updates to EC:** March 2025
- **Draft IFAD12 IA report:** June 2025
- **Presentation EC and EB:** September 2025

IFAD's Impact Assessment: Validation Approach

- **Objectives:**

- Ensuring **robustness** to IFAD's IA methodology
- Helping **improve, refine,** and make it more **cost-effective**
- Strengthening **partnerships** for **quality assurance,** validation, and **knowledge generation**

IFAD's Impact Assessment: Validation Approach

Three track approach:

- **Advisory Panel:** Eminent and respected academics to validate and strengthen approach
- **Peer Reviewers:** Senior professionals from international organizations to improve project specific impact assessment
- **Push Button Replicators:** Young scholars to ensure clarity and transparency of data use and analysis

Thank you!
