

## The ballot retrieval process

1. The Governing Council, during its thirty-second session, will consider the appointment of the President of IFAD.
2. To ensure the efficient running of this process, the ballot papers to be collected at the beginning of the private session by those delegates designated to cast their country's vote, have been divided and shall be distributed from four separate tables.
3. For ease of reference, and to assist the accredited representatives in proceeding to the correct table, the table number assigned to each Member State is shown in the attachment.
