¹ الفقرة 22، الصفحة 8، "... سيتوقف تقديم [الصندوق] مزيد من التمويل [للانتماء الدولي المعني بالأراضي] على تحقيق الأهداف الموضوعية للتمويل المشترك من قبل الجهات المانحة الأخرى، كأن يكون قد تم، عند بلوغ نقطة الأربعة والعشرين شهراً، تحديد مساهمة الجهات المانحة الأخرى بتمويل مشترك للميزانية الإجمالية بما لا يقل عن 65% من الإيرادات اللازمة، وفي إطار هذا التمويل المشترك من الجهات المانحة الأخرى يجب ألا يقل الجزء الإداري منه عن 50 في المائة". وقد تم إعداد خطة العمل هذه استجابة لتقييم خارجي للانتماء بناء على طلب من الصندوق، وكانت نافذة المفعول حتى ديسمبر/كانون الأول 2008 عندما تم توقيع مذكرة تفاهم بين الانتماء والصندوق. ومع ذلك استمر الانتماء في سعيه الحثيث نحو استقلالية واستدامة مالية مضمونة.

Results-based logical framework

	Objectives-hierarchy	Objectively verifiable indicators	Means of verification	Assumptions
Goal	Secure and equitable access to and control over land for poor women and men	Percentage of farming rural households having access to tenure security (ownership rights, secure leaseholds agreement) in areas covered by ILC's land monitoring activities ; Reduction in the frequency, severity of land disputes in areas covered by ILC's land monitoring activities	Compilation of results of CSO-IGO monitoring activities (Land Watch; Observatories; World Bank's Land Governance Assessment Framework) Surveys and study reports on Impact Ad hoc expert task force's opinion/assessment (to be organized by ILC biennially)	
Objectives	1.influence formulation & implementation of national policy 2. Influence global & regional land-related processes and systems 3. Building the world's leading knowledge network on land governance	Number of ILC's target countries in which pro-poor provisions in national land law, policy or program are strengthened (target: 2); Number of ILC target countries in which the implementation of existing progressive land policy is improved (target: 2); Number of households (<i>gender disaggregated data</i>) that gained or protected their land rights as a result of ILC direct action on the ground (target: 50,000 households) Number of global or regional land related policy process or document in which ILC inputs are reflected in a discernable manner (target: 3); Positive rating of relevance and impacts of at least 3 multi-stakeholder dialogues initiated or supported by ILC on emerging issues . Land Portal appears as one of the 10 first results for searches on Google, and other major internet search engines for land governance related topics; Number of hits, log-ins to Portal increase of 30%; Sample of leading experts positively rate the knowledge contribution of ILC's publications (four out of five scale); Sample of member and partners attending collective learning initiatives confirm that they are using the knowledge acquired	Legislative and Legal Provisions National Programmes and Budget Monitoring government targets (i.e. Ministries, local authorities, national committees) Monitoring Media and other relevant group (Church, NGOs etc.) Progress and final reports of 25 supported actions Global Policies and Agreement Monitoring international targets Media monitoring Land Portal webpage Survey reports Expert task-force opinion/assessment	Focus countries enjoy a stable political environment necessary for land reform and implementation to proceed Land issues retain or gain in the level of interest in the global development agenda Interpretative barriers on concepts hold by ILC constituents 'sub-groups do not hinder the generation of "collective knowledge"
Outputs	Strengthened or initiated collaborative partnerships in focus countries Land Policies Implementation pilot tested, documented, shared and adopted CSOs, Int. Orgs, Govs and other actors have a better understanding of land issues Global and regional processes benefit from perspectives, knowledge and expertise from actors traditionally excluded World leading online platform to share land related information established Contributed to bridging the gap between grassroots, academic research	4 country-level collaborative partnerships Land watch/observatory (ILC's focus countries) Comprehensive country profiles (ILC's focus countries) 10 ILC supported direct interventions on the ground Number of events organized at national level to share results High rating by expert/interest group panel (4 in a scale of 5) of the relevance and significance of results of pilot interventions Number of global advocacy events organized and attended (panel discussions, side events etc.) Number of dialogues with key actors on emerging land-related issues (foreign investment in land, FPIC,	Progress and final reports from grant recipient Media clips Documenting and evaluation reports Proceedings and other documentation of workshops Trip reports by secretariat, regional coordinators members and partners web-statistics Survey of participants in training, learning routes and internship programmes Expert task-force	Members, partners and other relevant actors perceive the benefits of participating in the national dialogue higher than its costs. Local authorities and communities targeted remain receptive Appropriate inputs are provided in a timely and effective manner Government agencies remains committed to implement policies and laws

	Objectives-hierarchy	Objectively verifiable indicators	Means of verification	Assumptions
		etc.). High rating (4 in a scale of 5) by participants of the relevance and quality of ILC-facilitated events ILC inputs are reflected in a discernable manner in at least 5 global land related policy agreement processes Number of members and partners contributing to ILC consultations and involved in joint advocacy initiatives Number of members and partners attending international events Number of policy brief, declarations and policy papers resulting from ILC consultation Continuous expansion of Land portal including at least 25 baseline country profiles completed Land Portal appears as one of the 10 first results for web searches land governance related topics Number of hits, log-ins to Portal increase of 30% Increase Number of collaborative research on the ground on priority themes Collaborative research generates high-value knowledge products Increase in number of workshops and other knowledge sharing events 25% increase of members and partners attending collective learning initiative (learning routes, training of trainers etc.) Average high rating (4 out of 5 scales) of the quality of learning routes, training activities by beneficiaries Evidence of positive impacts of internship programmes Positive rating of knowledge sharing efforts	opinion/assessment Feedback from members and partners	International organizations working on development remains committed to include land issues in their policies International organisations remains open to include alternative voices in the consultations on policy formulation and implementation High heterogeneity of data do not impede the comparability of reports
Key Activities	1.1.1 Develop ILC National Engagement Strategies 1.1.2 Support national multi-actor dialogues 1.1.3 Raising public awareness 1.2.1 Empowerment & capacity building CSOs 1.2.2 Support Piloting and documenting 2.1.1 Initiating & coordinating multi-actor dialogues 2.1.2 Participation in international for a and initiatives 2.2.1 Facilitating consultations 3.1.1 Launch & further develop Land Portal 3.1.2 Monitoring land governance (Land Watches) 3.2.1 Collaborative research and 3.2.2 identification, sharing of good practices 3.3.3 Learning routes 3.3.4 training of trainers 3.3.5 Internship programmes	National strategy focal point organization Contracts for multi-stakeholder dialogue Regional coordinators Funding for 10 initiatives on the ground Funding for documenting and sharing results of pilots and other initiatives on the ground Inclusive dialogue coordinators Funding for participation in international forums Coordination of consultation at global and regional level Land Portal Coordinator hired Contracts for supporting monitoring activities at national and regional level Funding for collaborative learning initiatives Focal point organisations for learning initiatives Regional and global coordination		Donors retain interest
