Mainstreaming Climate, Gender, Nutrition and Youth

Consultation on the Eleventh Replenishment of IFAD's resources: Third Session 19-20 October 2017

Adolfo Brizzi, Director, Policy and Technical Advisory Division
Table of contents

Key characteristics

What's new for IFAD 11?
- Youth agenda
- Transformational agenda
- Upgrade of the existing Action Plans

Capacity to deliver

Financing
Key characteristics

* Cross-cutting issues
* Cannot be addressed in isolation from the overall context
* To be applied across the board irrespective of the thematic focus of a project
* Influence the behavior of the whole portfolio rather than through free-standing approaches
* Apply specific thematic lenses to make the portfolio "smarter"
* Routine part of our business, embedded in our processes: COSOPs, targetting, SECAP, quality reviews
* Every year $1B of investments made climate, gender, nutrition-smart

The Main Stream Portfolio
What's new for IFAD11?

The Main Stream Portfolio

- Climate
- Gender
- Nutrition
- Youth

5 points Action Plan

Mainstreaming
Elaborate a mainstreaming youth Action Plan (mid 2018):
Possible target: 100% of COSOPs; 50% of projects

Revisit our targeting guidelines

Financing mechanism for direct investments in rural SMEs employing youth or for young entrepreneurs (SIF)

Using SSTC as a modality for exchange of best practices

Advocacy:
* Consider the establishment of a Youth Advisory Council
* Global events such as G20 Rural Youth Employment Initiative

Youth

  - Integration
  - Mainstreaming

The Main Stream Portfolio
Transformational agenda

* Addressing the root causes rather than the symptoms
* Rely on more disaggregated data, local knowledge, cultural factors, incentives and behaviors
* Build on the synergies and the interaction among the four themes
* Elaborate an Integrative Framework (mid 2018) with hands-on guidance to project teams
  • Provide an operational definition of transformational approaches for better monitoring of performance
  • Design tools and methodologies for multisectoral interventions
* Promote innovative approaches (GALS, nutrition-sensitive value chains, youth & SME financing)
New Environmental/Climate Strategy and Action Plan (end 2018)

Mitigation-Adaptation co-benefit approaches. Renewable/green technologies, carbon sequestration.

Better alignment with countries’ Nationally Determined Contributions (NDCs) and related processes.

Expand climate finance tools and business plans (Green Climate Fund, GEF, LDCF, SCCF, ASAP II)
Beyond mainstreaming: adopt new transformative approaches, definitions, targets (from 15% to 25%)

Strengthen gender architecture, and integration with other themes

Build on IOE's ES report on gender equality

HR measures on staff diversity targets (esp. P-5 and above)
Increase target for nutrition sensitive projects from 33% to 50% of all new projects

Independent MTR by mid 2018

Better integration with the other themes

Seek institutional arrangements with partner organizations

Nutrition
Capacity to Deliver

Management resolve to ensure adequate capacity is in place

To be informed by Opex review:
* implementation of the action plans and possible contribution by supplementary funds
* new decentralized approach and local capacity
* enhanced teams integration and institutional set-up
* incorporation into business processes: SECAP, targeting, CPMT/QE for design and supervision

Improved sex and age-disaggregated data within the RIMS and link with RMF

Operations Academy
Financing the mainstreaming agenda

Conducive to replenishment financing since embedded into country programs

PBAS being reformed to include vulnerability variable (climate & nutrition)

Continued use of UCCs (climate & others as available)

Climate; pursue co-financing opportunities: GEF, GCF, ASAP II

Mainstreaming agenda: opportunity to address the underlying causes of SOFI-identified challenges: increasing undernourishment, food insecurity and conflict
