This paper will provide details on IFAD's operational priorities for IFAD12 and the financing framework. The paper builds on the IFAD12 Strategic Directions paper and feedback received and has been updated to include the implications of COVID-19. Of particular focus will be IFAD's unique comparative advantage, its role in the international development architecture, the services it offers and the demand for these services across different country contexts. IFAD's approach to engaging in fragile and conflict-affected situations and to building resilience will receive particular attention. The paper will include (i) proposals for the country programme approach in IFAD12, including delivery of the programme of loans and grants (PoLG), various tools and instruments foreseen, interlinkages between the PoLG, ASAP+ and the Private Sector Financing Programme and between lending and non-lending engagement; (ii) a revised financing framework, scenarios for IFAD12, and the proposed resource allocation approach and mechanisms; (iii) steps to continue making IFAD fit-for-purpose, including further decentralization, strengthening IFAD's capacity to deliver and IFAD policy to preventing and responding to sexual harassment, sexual exploitation and abuse (SH/SEA); and (iv) indications of expected results and impact, particularly relative to specific Sustainable Development Goal indicators, measurement methodologies, and trade-offs across the different financial scenarios.
