Prerequisites to participate in a Zoom meeting

In order to participate actively in a Zoom meeting, participants will need a computer with an Internet connection and a smartphone.

IMPORTANT: Since this meeting has Registration enabled, you will need to have either the Zoom application installed on your computer or the Zoom mobile app on your smartphone to join the meeting. Join the Zoom meeting via Web is not a supported option for Zoom meetings with Registration enabled.

1. Participants who do not have the Zoom application installed on their devices (computer and smartphone) will need to download and install it following the instructions available in Annex A to this document.
2. Participants who already have the Zoom application installed on their devices (computer and smartphone) will need to ensure that they are using the latest available version of Zoom client application (Desktop or Mobile) for attending IFAD meetings.
3. Please click on the following links for instructions on how to check your installed version and update it:
[Where can I see my Zoom version number?](#)
[Where Do I Download The Latest Version?](#)
4. Having the latest version of the Zoom application is important to ensure that participants can use the interpretation feature.

Use language interpretation during the meeting

NOTE: The Language interpretation feature is only available on Zoom Desktop client or Zoom Mobile app. See the Prerequisite page on this quick guide.

If using the internal microphone on a notebook, be aware of directionality of the mic – do not move around; face the notebook directly when speaking. If possible, use a headset. Try to hold meetings in quiet, indoor locations to control ambient noise.

1. Please use the microphone icon to mute your microphone when not speaking and use the same icon to unmute yourself when given the floor (1).
2. Select the language you wish to listen to in the Interpretation menu (2). Please note that, due to a technical limitation of the platform, you can listen to the language interpretation to Arabic on the Korean channel.
3. If you wish to take the floor, click on the raise hand button available on the Participants panel (3). Before speaking, make sure you have selected the language channel of the language you are going to speak into. For example, if you are going to speak Spanish in your intervention you should be on the Spanish channel.

4. Please adjust your speech to the remote distance environment (speak slower and more clearly, avoid excessive use of acronyms, etc.).
5. If you intend to read a prepared statement, in order to ensure accuracy of interpretation, please send it before the meeting starts or well before you speak to gb@ifad.org. It is solely for internal use and will be treated as confidential.
