

IFAD13 BMFF - Fragility

Second Session of the
Consultation on the Thirteenth
Replenishment

19 June 2023

IFAD13
REPLENISHMENT

 IFAD | FIDA

Wide diversity in fragile contexts

Covid19, Conflict, Climate change in the Sahel

SD3C programme to address growing
food insecurity and **malnutrition**

Small Island Developing States Kiribati

Improve household **food security**,
nutrition and access to **clean water**

Remain engaged Federal Republic of Somalia

Increase **productivity**, **incomes**, **food & nutrition security** and enhance the **resilience** of rural smallholder families, in particular **rural women and youth**

Community-based approaches DRC, CAR, Mali, Burundi, Liberia

“Caisses de resilience” aim to enhance **community resilience** to **conflict and institutional instability**, or **climate change**.

Rural Poverty Stimulus Facility

Key lessons learned

- Simple project focuses ensured **rapid delivery**
- In certain contexts, third parties provided **efficient alternative** implementation mechanisms
- **Digital services** increased outreach, especially to remote or insecure settings

Key principles of engagement

Dimensions

Social

Environmental
& Climate

Political &
Institutional

Principles of engagement

Resilience

Prevention

Do no harm

Remain engaged

Entry points

Local institutions
and communities

Food and
nutrition
security

Sustainable
natural resource
management

Women, youth
and vulnerable
people

Our enhanced approach : eight key operational features

1 Diagnostics

1

Improved fragility assessments to cover multiple dimensions of fragility, specific drivers, at COSOP and designs.

1

Enhanced risks assessments to inform on the specific risks and identify mitigation measures on each fragility driver.

2 Programming

2

Strengthened fragility sensitive programming: project design will add-contingency plans and a disaster risk reduction component. *Multi-phased / regional approaches will be streamlined to the situation (piloted).*

2

Reinforced emphasis on targeting and inclusion of women and vulnerable people to strengthen their role and resilience.

3 Stronger support

3

New operational guidance : strengthen capacities esp. in financial and procurement matters in fragile situations.

3

New fragility unit to support operational delivery, policy and coordination.

Improved learning from results using smart ICT tools.

4 Strategic partnerships

4

Strengthened strategic partnerships along the HDP nexus for increased complementarity, and for impactful and efficient operations. ⁴

4

Working better in fragility: resource implications

Every **\$1** we spend now on building resilience can save up to **\$10** in emergency aid in the future

New cost items*

Update of
operational systems

Specialised
trainings

Fragility unit

Variable costs**

Project supervision

Field expenses

Third party
implementation

Fragility assessment

Leveraging finance for fragility

Partnerships: sharing diagnostics
and knowledge

Partnerships : Co-financing

Supplementary funds
