Executive Board — 103rd Session
Rome, 14-15 September 2011

For: Information

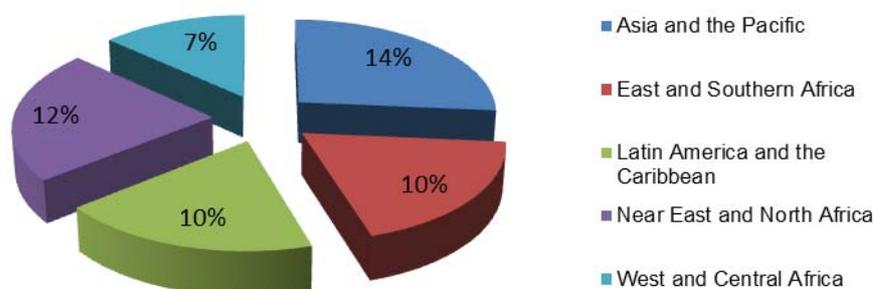

Planned project activities including those proposed under the lapse-of-time procedure 2011-2012

1. At the second session of the Executive Board (EB/2), it was agreed that information on planned project activities would be presented to the Board regularly to enable representatives to keep abreast of developments in IFAD's project/programme pipeline and prospective lending and, should they so desire, to comment on planned operations at an appropriate stage of the development cycle.
2. At its ninety-eighth session held in December 2009, the Board endorsed the proposal to streamline the approval process for investment projects and programmes (EB 2009/98/R.15/Rev.1) and adopted rule 24 of the Rules of Procedure of the Executive Board. For IFAD-funded projects/programmes, the Fund will apply two approval procedures: (i) the standard procedure and (ii) the lapse-of-time (LOT) procedure as outlined in document EB 2010/100/R.41.
3. Part I - Table 1 of this document provides a comprehensive listing of all projects and programmes that have entered the pipeline as part of results-based country strategic opportunities programmes (RB-COSOPs) or after approval of concept notes, and which are planned for submission to the Executive Board under the standard procedure.
4. Part I - Table 2 provides a list of proposed and eligible projects and programmes planned for consideration under the LOT procedure, which will be considered approved by the Executive Board if no request for formal discussion by the Executive Board is received by a specified deadline.
5. Management also reports information in Part I – Table 3 on the proposed global/regional grants currently planned for financing under the LOT procedure.
6. In September 2006, the Executive Board approved a new framework for a results-based country strategic opportunities programme (RB-COSOP) (EB 2006/88/R.4). RB-COSOPs provide a framework for entry of projects/programmes into IFAD's official pipeline. Some of these pipeline projects/programmes will be processed within the current 2010-2012 cycle of the performance-based allocation system (PBAS), while others will be included in subsequent PBAS allocation periods. Part II – Table 1 provides information on planned COSOPs and subregional strategic opportunities programmes (SRESOPs) and, where available, identifies dates of forthcoming country and stakeholder consultation meetings.¹
7. As agreed at the Board session in April 2001 (EB 2001/72/R.28), Part II – Table 2 of this document provides information on all COSOPs and SRESOPs reviewed to date by the Operational Strategy and Policy Guidance Committee (OSC) as well as those reviewed by the Board.
8. As communicated to the Executive Board in September 2003 (EB 2003/79/R.29/Rev.1), IFAD has made available on its public website – at www.ifad.org/operations/pipeline/index.htm – information on projects and programmes that have reached an advanced stage of design and are thus likely to be presented at a future session of the Board. Each of these operations is described in a two-page information note, which is updated on completion of each major step in the project cycle.

¹ As a result of lessons learned from the COSOP process since 2007, countries with three or more projects in a given PBAS cycle will normally require a full COSOP. Borderline cases such as transitional situations with three or more operations but a relatively modest PBAS allocation, e.g. below US\$15.0 million, will require guidance from Management. Countries with only two operations in the pipeline but with a PBAS allocation of a US\$20.0 million or above will require a COSOP to guide overall country engagement.

Overview

9. Interventions will continue focusing on priority areas as identified in the IFAD Strategic Framework 2007-2010, the IFAD Strategic Framework 2011-2015 (approved by the Executive Board in May 2011), the IFAD Medium-term Plan 2011-2013 and the relevant results-based COSOPs or concept notes. Enabling poor rural people to improve their food security and nutrition, raise their incomes and strengthen their resilience will be at the centre of IFAD's work.
10. This document includes the 53 projects/programmes currently in IFAD's official pipeline; others will be identified during the course of the year. The OSC plans to review concept notes for projects/programmes in Cape Verde and Nepal in the near future. The figure below illustrates the official pipeline in terms of geographical distribution:

11. COSOPs for Benin, China, the Lao People's Democratic Republic, Liberia, Mozambique and Zambia will be reviewed at the 103rd session of the Board, while COSOPs for Bangladesh, the Democratic Republic of Congo, the Pacific Islands and Niger are currently scheduled for presentation at the December 2011 Board session.
12. The Spanish Food Security Cofinancing Facility Trust Fund (Spanish Trust Fund) was approved in September 2010 (EB 2010/100/R.29/Rev.2). Through a loan of over EUR 285 million (or about US\$400 million) and a grant of EUR 14.5 million from the Government of Spain, IFAD will have the opportunity to scale up the operations it funds and achieve a greater and more meaningful impact.

13. The below table lists those eligible countries and EUR amounts for which proposals are planned for Spanish Trust Fund cofinancing in during the period 2011-2012:

<i>Country</i>	<i>EUR (million)</i>	<i>US\$ (million)</i>	<i>Planned for Approval</i>
