## **Negotiated financing agreement: "Sustainable Agricultural Production Programme (SAPP)"**

(Negotiations concluded on 19 October 2011)

### **FINANCING AGREEMENT**

Loan Number: \_\_\_\_\_

Grant Number: \_\_\_\_\_

Programme Title: Sustainable Agricultural Production Programme [the "Programme"]

The Republic of Malawi (the "Borrower/Recipient")

and

The International Fund for Agricultural Development (the "Fund" or "IFAD")

(each a "Party" and both of them collectively the "Parties")

hereby agree as follows:

#### **Section A**

1. The following documents collectively form this Agreement: this document, the Programme Description and Implementation Arrangements (Schedule 1), the Allocation Table (Schedule 2), and the Special Covenants (Schedule 3).

2. The Fund's General Conditions for Agricultural Development Financing dated 29 April 2009, as may be amended from time to time (the "General Conditions") are annexed to this Agreement, and all provisions thereof shall apply to this Agreement. For the purposes of this Agreement the terms defined in the General Conditions shall have the meanings set forth therein.

3. The Fund shall provide a Loan and a Grant to the Borrower/Recipient (the "Financing"), which the Borrower/Recipient shall use to implement the Programme in accordance with the terms and conditions of this Agreement.

#### **Section B**

1 A. The amount of the Loan is fourteen million six hundred and fifty thousand Special Drawing Rights (SDR 14 650 000).

B. The amount of the Grant is fourteen million two hundred and fifty thousand Special Drawing Rights (SDR 14 250 000).

2 The Loan is granted on highly concessional terms.

3. The Loan Service Payment Currency shall be the United States Dollar.

4. The first day of the applicable Fiscal Year shall be 1 July 2012.

5. Payments of principal and service charge shall be made on each 1 April and 1 October.
6. There shall be a designated Account for the benefit of the Ministry of Finance and Development Planning in the Reserve Bank of Malawi.
7. The Borrower/Recipient shall provide counterpart financing for the Programme for a total amount of approximately USD 4.2 million, to cover a portion of salaries and in the form of exemption of duties and taxes for the Programme in accordance with Annual Work Plans and Budgets (AWPBs).

### **Section C**

1. The Lead Programme Agency shall be the Ministry of Agriculture, Irrigation and Water Development (MoAIWD).
2. The following are designated as Programme Parties: the Ministries of Finance and Development Planning (MoFDP), Local Government and Rural Development (MLGRD), and Industry and Trade (MoIT), regional and international organizations and private sector, non-governmental (NGOs) and farmer organizations.
3. The Programme Completion Date shall be the ninth anniversary of the date of entry into force of this Agreement.

### **Section D**

The Loan will be administered and the Programme will be supervised by IFAD.

### **Section E**

1. The following are designated as additional specific conditions precedent to withdrawal:
  - (a) The Borrower/Recipient shall provide evidence that measures have been put in place to ensure taxes and duties related to the procurement by the Programme shall be waived; and
  - (b) The Borrower/Recipient shall have opened the Designated Account referred to in Section B.6 above.
2. This Agreement is subject to ratification by the Borrower/Recipient.
3. For the purposes of this Agreement, the definition of "Project Completion Date" in Article 2, Section 2.01 of the General Conditions shall be amended to read:

"Project Completion Date" means the date specified in an Agreement on which the implementation of the Project is to be completed, or such date, upon request by the Borrower/Recipient, as the Fund may designate by notice to the Borrower/Recipient".

4. The following are the designated representatives and addresses to be used for any communication related to this Agreement:

For the Borrower/Recipient:

Secretary to the Treasury  
Manager  
Ministry of Finance and  
Development Planning  
P.O. Box 30049  
Lilongwe 3  
Malawi

For the Fund:

Country	Programme
	International Fund for Agricultural Development Via Paolo di Dono 44 00142 Rome, Italy

This Agreement, dated \_\_\_\_\_, has been prepared in the English language in six (6) original copies, three (3) for the Fund and three (3) for the Borrower/Recipient.

## Schedule 1

### *Programme Description and Implementation Arrangements*

#### **I. Programme Description**

1. *Target Population.* The Programme shall principally benefit smallholder food security households (SHFS) in the participating districts, comprising productive men and women who have the potential to achieve household food security, but due to limited resources find it difficult to produce a surplus for market. They aim at food security and need technical and financial support in terms of basic inputs such as seed and fertiliser to increase food crop yields. This group constitutes 80% of smallholder farmers, and is the focus of the public extension service. The majority of this group are responsive to interventions aimed at alleviating hunger, but often depend on external support for technologies which involve purchased inputs. The SHFS group also includes the ultra-poor who have few assets, those who may be chronically ill or with disabilities, and may live in elderly or child-headed households. This extremely vulnerable group relies mainly on low-paid seasonal labour. Small scale commercial farmers will also be targeted by the Programme given that they tend to be most active and influential in farmer groups and become the first adopters and volunteer to be Lead Farmers. They will therefore be targeted by the Programme to facilitate early adoption of good agricultural practices (GAPs).

2. *Goal.* The goal of the Programme is to contribute to the reduction of poverty and improved food security among the rural population. The main thrust of the Programme is enhancement of agricultural productivity based on simple/affordable GAPs which are suitable for smallholder adoption, and will help to bridge the large gap between actual and potential crop yields. Promotion of better agricultural practices will greatly improve the effectiveness and impact of the Farm Input Subsidy Programme (FISP), which provides selected farmers with access to improved seeds and fertilisers, but does little to promote their efficient and effective use. An adaptive research programme will be supported to fine-tune GAP packages to Malawian socio-economic and agro-ecological conditions; in conjunction with knowledge management and communication initiatives to ensure that knowledge generated within the Programme is communicated to stakeholders, and that relevant knowledge from outside is made available to all. A range of extension tools will be deployed to train farmers to adopt improved agricultural technologies that will sustainably increase staple crop yields, improve soil health, and make way for greater crop diversification and commercialisation. The Programme will also facilitate farmers in obtaining access to the inputs needed to utilise GAPs including tools, equipment, seeds of alternative (mainly legumes) crops, fertilisers, financial services, and post-harvest storage facilities.

3. *Objectives.* The specific development objective is to achieve a viable and sustainable smallholder agricultural sector employing GAPs.

4. *Components.* The Programme shall consist of the following Components: (i) Adaptive Research and Knowledge Management; (ii) Farmer Adoption of GAPs; and (iii) Programme Management and Coordination.

4.1 Component 1: Adaptive Research and Knowledge Management will further refine improved agricultural techniques to the conditions of Malawi. This will be undertaken in partnership with national, regional and international agricultural research and knowledge institutions.

- (a) Sub-Component 1.1: Adaptive Research. A well-focussed programme of adaptive research will validate and adjust proven agricultural technologies in terms of their applicability to Malawian agro-ecological and socio-economic conditions. The approach will be differentiated according to the maturity of the various technologies and the level of experience with their utilisation. Some basic techniques can be recommended for immediate adoption by farmers. Others require validation through trials on farmers' fields in different agro-ecological zones before packages of recommended practices can be formulated and demonstrated.

The Adaptive Research Sub-Component will be managed by the MoAIWD Research Department and implemented in conjunction with a number of partners including Bunda College, NRC, and CGIAR institutions. Sub-Component 1.1 will primarily address issues which are of most relevance to the six Programme districts, many of which will also have broader national relevance. The adaptive research programme will be managed on a rolling three-year basis with annual reviews. In the first year, a full nine-year programme will be drawn up, with detailed plans and budgets for the first three year cycle. The principal activities to be undertaken will include: (i) Research planning and management; (ii) Capacity building for adaptive research; (iii) On-farm trial programme; (iv) Soil fertility enhancement; and (v) Research on adoption behaviour.

- (b) Sub-Component 1.2: Knowledge Management and Communication. The Programme's emphasis on the development, refinement and dissemination of GAPs calls for knowledge and learning intensive approach to be mainstreamed in all sub-components. The Programme will therefore support capacity building for systematic knowledge management and communication in MoAIWD in general, and within the participating Agricultural Development Divisions (ADDs) and Districts, and in relevant stakeholder institutions. The output of Sub-Component 1.2 will be knowledge about GAPs effectively gathered, managed and communicated to stakeholders. The principal activities to be undertaken will include: (i) a Knowledge management and communication strategy; (ii) Knowledge harvesting, storage and processing; (iii) Knowledge sharing and learning partnerships; and (iv) Formal Training in GAPs.

4.2 Component 2: Farmer Adoption of GAPs will facilitate the dissemination and adoption of GAPs which aim to increase crop yields, diversify production, reduce yield variability, reduce labour inputs and improve soil health through integrated packages of improved soil and water management. This will draw on the lessons learned from similar initiatives in the region, with refinements to suit Malawian agro-ecological and socio-economic conditions informed by the adaptive research and knowledge management initiatives of Component 1. The two main requirements for farmer adoption of GAPs include: (i) increased awareness of the technologies available and their benefits and costs; and (ii) access to the key inputs needed. The outcome of Component 2 is expected to be widespread farmer adoption of GAPs leading to sustainably improved productivity and crop yields.

- (a) Sub-Component 2.1: Improved Agricultural Extension: this will be based on a low-cost farmer-to-farmer extension network modelled on several successful partnerships between the MoAIWD Department of Agricultural Extension Services (DAES) and NGOs. The output of Sub-Component 2.1 will be the improvement of agricultural extension services accessible to target group households, raising awareness and sensitising farmers about GAPs. The principal activities to be undertaken will include: (i) Farmer-to-Farmer Extension Network creation; (ii) Extension Coordination, (iii) DAES support at headquarters level; (iv) DAES support at ADD and district level; (v) DAES Support at EPA level; (vi) Training for DAES Staff;

(vii) Farmer Group Development; (viii) Development of Extension Materials and Mass Media; and (ix) Extension of programme management.

- (b) Sub-Component 2.2: Access to Key Agricultural Inputs. Farmers are often unable to adopt GAPs because of the non-availability or un-affordability of key inputs. This applies particularly to legume seeds (beans, soya beans, cowpea, pigeon pea, groundnuts and leguminous trees) which are an important element of the GAPs to be offered by the Programme. To address this constraint the Programme will engage with private seed companies to support the multiplication and distribution of selected seeds through the network of farmer groups created under Sub-Component 2.1. The Programme will also engage with input suppliers/agro-dealers to encourage the commercialisation of inputs needed for GAPs (fertilisers, seeds, agro-chemicals, tools, implements etc.); and will establish partnerships with micro-finance institution(s) to facilitate the adoption of agricultural practices which require access to financial services, especially seasonal crop loans, leasing, insurance services etc. The principal activities to be undertaken will include: (i) Seed multiplication and Distribution; (ii) Engagement with Agro-Dealers; (iii) Post Harvest Management; and (iv) Access to Financial Services.

4.3 Component 3: Programme Management and Coordination. SAPP will be implemented within the Borrower/Recipient's Agricultural Sector Wide Approach (ASWAp) policy and institutional framework.

## **II. Implementation Arrangements**

1. The MoAIWD will be responsible for the overall management of the SAPP. It will plan, implement, monitor, review and report component activities of the Programme.
2. Coordination of Programme activities will be done by the ASWAp Secretariat, in MoAIWD, while the Executive Management Committee of the ASWAp will be the Programme Steering Committee responsible for providing strategic direction and guidance.
3. The ASWAp Coordinator will oversee Programme implementation. Direct Programme management responsibility will be assigned to the ASWAp Deputy Coordinator (Management) and Deputy Coordinator (Technical). The Deputy Coordinator (Management) will be responsible for management-related activities especially under Component 3 of the Programme. The Deputy Coordinator (Technical) will be responsible for managing the implementation of core activities under Components 1 and 2. Responsibility for field operations under Component 2 will be assigned to the ADDs and District Councils (DCs) under the control of the ADD Programme Managers and District Agricultural Development Officers (DADOs) respectively. NGOs will be engaged to support District and Extension Planning Area level extension efforts in partnership with Government officers.
4. The Programme will outsource implementation and management of some of the activities to NGOs, research institutions, private sector and other service-providers. These will be governed by output-based contracts or MOUs.

5. MoAIWD will ensure that an adequate number of staff is assigned to the Programme implementation and that the objectives of the Programme are met. These will include an M&E Officer and a Knowledge Management and Communication Officer (Planning Department); a Procurement Officer (Procurement Unit), and two accountants (Finance Department). They will be supported during the initial years by a Programme Management Advisor, Financial Management Advisor, Procurement Advisor and an M&E/Knowledge Management Advisor. These Advisors will support the entire ASWAp programme, not just the SAPP. ASWAp will continue to provide procurement advisory services and will ensure that procurement capacity is maintained throughout the Programme implementation.

## Schedule 2

### Allocation Table

1. *Allocation of the Loan and Grant Proceeds.* (a) The Table below sets forth the categories of Eligible Expenditures to be financed by the Loan and the Grant, the allocation of the amounts of the Loan and the Grant and the percentages of expenditures for items to be financed in each category:

Category	Loan Amount Allocated (expressed in SDR)	Grant Amount Allocated (expressed in SDR)	Percentage of Expenditure to be Financed
I. Vehicles Motorcycles and Equipment	465 000	400 000	100% net of taxes
II. Technical Assistance, Training, Workshops and Studies	545 000	245 000	100%
III. Support for Adaptive Research and Knowledge Management			
(a) Support for Adaptive Research	910 000	910 000	100% net of Govt. Contribution
(b) Support for Knowledge Management	325 000	325 000	100%
IV. Support for Farmer Adaption of GAPs			
(a) Support for improved Agricultural Extension	8 755 000	8 755 000	100% net of tax
(b) Support for Access to Key Agricultural Inputs	1 645 000	1 645 000	100% net of beneficiary contribution
V. Recurrent costs			
(a) Salaries and allowances	110 000	60 000	100% of Govt. contribution
(b) Incremental Operating Costs	795 000	795 000	100% net of tax
Unallocated	1 100 000	1 115 000	
<b>TOTAL</b>	<b>14 650 000</b>	<b>14 250 000</b>	

(b) For all category allocations, each withdrawal application for eligible expenditures shall be apportioned between the Loan and Grant in the ratio of 1:1, until the balances on the categories are exhausted.

### **Schedule 3**

#### *Special Covenants*

In accordance with Section 12.01(a)(xxiii) of the General Conditions, the Fund may suspend, in whole or in part, the right of the Borrower/Recipient to request withdrawals from the Loan Account and the Grant Account if the Borrower/Recipient has defaulted in the performance of any covenant set forth below, and the Fund has determined that such default has had, or is likely to have, a material adverse effect on the Programme:

1. The Borrower/Recipient shall ensure that the ASWAp will continue to be adequately staffed and will be charged with responsibility for the coordination and management of SAPP activities.
2. MoAIWD will ensure that an adequate number of staff is assigned to the Programme implementation. Key staff shall consist of: an M&E Officer, a Knowledge Management and Communications Officer, a Procurement Officer(s) and two Accountants who would be assigned to the Programme immediately upon entry into effect of this Agreement.
3. The Borrower/Recipient confirms its commitment to engage with regional and international organizations, private sector and NGOs as implementing partners and service providers, with the active participation of the Programme's target group, in order to ensure that the SAPP objectives are met.

## **Negotiated financing agreement: "Sustainable Agricultural Production Programme (SAPP) – Programme Preparatory Facility (PPF)"**

(Negotiations concluded on 19 October 2011)

### **FINANCING AGREEMENT**

Grant Number: \_\_\_\_\_

Programme Title: Sustainable Agricultural Production Programme – Programme Preparatory Facility ["PPF"]

The Republic of Malawi (the "Recipient")

and

The International Fund for Agricultural Development (the "Fund" or "IFAD")

(each a "Party" and both of them collectively the "Parties")

WHEREAS (A) The Fund has agreed to extend financing to the Recipient on the terms and conditions set forth in a Financing Agreement of even date (the "Financing Agreement") for the purpose of financing the Sustainable Agricultural Production Programme (the "Programme"); and

(B) in order to assist the Recipient in fulfilling the conditions precedent to the effectiveness of the Financing Agreement and starting up the Programme, the Fund has also agreed to provide the Recipient with a Programme Preparatory Facility ("PPF") grant (the "PPF Grant");

NOW THEREFORE the Parties hereto hereby agree as follows:

#### **Section A**

1. The following documents collectively form this Agreement: this document, the Programme Description and Implementation Arrangements (Schedule 1) and the Allocation Table (Schedule 2).

2. The Fund's General Conditions for Agricultural Development Financing dated 29 April 2009, as may be amended from time to time (the "General Conditions") are annexed to this Agreement, and all provisions thereof shall apply to this Agreement. For the purposes of this Agreement the terms defined in the General Conditions shall have the meanings set forth therein.

3. The Fund shall provide the PPF Grant to the Recipient, which the Recipient shall use to implement the PPF in accordance with the terms and conditions of this Agreement.

## **Section B**

- 1 The amount of the Grant is 600 000 United States Dollars.
2. There shall be a Grant Advance Account for the benefit of the Ministry of Finance and Development Planning in the Reserve Bank of Malawi.

## **Section C**

1. The Lead Programme Agency shall be the Ministry of Agriculture, Irrigation and Water Development.
2. The Programme Completion Date shall be the second anniversary of the date of entry into force of this Agreement.

## **Section D**

The PPF shall be supervised by IFAD.

## **Section E**

1. The following is designated as an additional ground for suspension of this Agreement: the Financing Agreement is suspended.
2. The following are designated as additional grounds for cancellation of this Agreement:
  - (a) The Financing Agreement does not enter into force; and
  - (b) The Financing Agreement is cancelled.
3. The following are designated as additional specific conditions precedent to the first withdrawal:
  - (a) The Recipient shall assure the Fund that taxes and duties related to the procurement by the PPF shall be waived; and
  - (b) The Financing Agreement has been signed.
4. The following is designated as an additional specific condition precedent to the second and all subsequent withdrawals: the Financing Agreement shall have been ratified and shall have entered into force.
5. The following are the designated representatives and addresses to be used for any communication related to this Agreement:

For the Recipient:

Secretary to the Treasury  
Manager  
Ministry of Finance and  
Development Planning  
P.O. Box 30049  
Lilongwe 3  
Malawi

For the Fund:

Country Programme  
International Fund for  
Agricultural Development  
Via Paolo di Dono 44  
00142 Rome, Italy

This Agreement, dated \_\_\_\_\_, has been prepared in the English language in six (6) original copies, three (3) for the Fund and three (3) for the Recipient.

\_\_\_\_\_  
For the Fund  
[insert name and title]

\_\_\_\_\_  
For the Recipient  
[insert name and title]

## **Schedule 1**

### *Description of the activities to be financed under the PPF Grant*

PPF Grant proceeds shall be used for activities including, but not limited to, the following:

- (a) Provision of international and national technical assistance to support key start-up activities. The selection of consultants and/or technical advisors shall be made upon acceptance of candidature by the Fund;
- (b) Provision of temporary logistical support for the Programme management team, including the purchase of vehicle(s), equipment and office facilities for six to twelve months;
- (c) Orientation of MoAIWD and participating sector staff through workshops at headquarters and district levels;
- (d) Technical assistance for detailed design of the M&E system;
- (e) Technical assistance for the preparation of the knowledge management and communication strategy;
- (f) Finalisation of the SAPP Programme Implementation Manual (PIM), based on the draft PIM;
- (g) Preparation of the first Annual Workplan and Budget and finalisation of the 18-month procurement plan, based on the draft procurement plan;
- (h) Procurement and installation of accounting software;
- (i) Procurement of office supplies and equipment;
- (j) Miscellaneous supplies and services needed during the first year; and
- (k) Conduct of a start-up workshop and Programme launch.

**Schedule 2***Allocation Table*

1. *Allocation of the Grant Proceeds.* The Table below sets forth the categories of Eligible Expenditures to be financed by the Grant and the allocation of the amounts of the Grant to each category as well as the percentages of expenditures for items to be financed in each category:

Category	Grant Amount Allocated (expressed in USD)	Percentage of Expenditures to be Financed
I. Vehicles Motorcycles and Equipment	100 000	100% net of tax
II. Technical Assistance, training workshop and studies	400 000	100%
III. Recurrent costs	100 000	100% net of tax
TOTAL	600 000

<p><b>Development Objective:</b> A viable and sustainable smallholder agricultural sector employing good agricultural practices (GAPs).</p> <ul style="list-style-type: none"> <li>Outcome 1: Appropriate agricultural technologies/GAPs developed and understood by potential beneficiaries.</li> </ul>	<ul style="list-style-type: none"> <li>Average maize yields in target group households increase from 1.3t/ha to 3.0 t/ha.</li> <li>% of land planted to high value (non-maize) crops increased from 10% to 20%.</li> <li>At least 33% of target group farmers accessing crop inputs through commercial channels.</li> <li>Number of improved agronomic packages tested and demonstrated.</li> <li>Awareness of improved agronomic packages amongst stakeholder groups.</li> </ul>	<ul style="list-style-type: none"> <li>Baseline and follow-up crop production and yield surveys in Programme areas.</li> <li>Records of FISP and independent monitoring reports on Programme.</li> <li>Documents describing key elements of agronomic packages tested and demonstrated.</li> <li>Awareness surveys (baseline and follow-up).</li> </ul>	<ul style="list-style-type: none"> <li>GOM will be prepared to phase out subsidies once farmers are able to finance procurement of inputs themselves.</li> <li>GAP packages suitable for adoption by target groups will be identified and accepted by potential beneficiaries.</li> </ul>
<p><b>Output 1.1:</b> Action research programmes which develop/refine GAP packages adapted to various agro-ecological and socio-economic contexts, and improved methods of disseminating such packages to rural communities.</p>	<ul style="list-style-type: none"> <li>Results of action research programmes which demonstrate superior GAP packages suitable for smallholders.</li> <li>Farmer and researcher evaluation of GAP packages.</li> </ul>	<ul style="list-style-type: none"> <li>Reports on trials and demonstrations.</li> <li>Measurements of crop productivity and profitability.</li> </ul>	<ul style="list-style-type: none"> <li>Suitable partners to undertake action research programmes will be engaged.</li> </ul>
<p><b>Output 1.2:</b> Knowledge about GAPs effectively gathered, managed and communicated to smallholders.</p>	<ul style="list-style-type: none"> <li>Regional knowledge centres on GAPs effectively networked.</li> <li>Knowledge generated by programme widely disseminated and understood by stakeholders.</li> </ul>	<ul style="list-style-type: none"> <li>Reports of regional knowledge networking activities.</li> <li>Information dissemination materials produced and distributed.</li> <li>Reports on other knowledge management activities (e.g. workshops).</li> <li>Surveys on awareness and acceptance of GAPs amongst farmers, extension workers and researchers.</li> </ul>	<ul style="list-style-type: none"> <li>Regional agricultural knowledge sharing networks will be effectively engaged.</li> <li>Other partners will cooperate in the development of effective knowledge management systems.</li> </ul>
<p><b>Outcome 2:</b> Widespread farmer adoption of GAPs leading to improved productivity and crop yields.</p>	<ul style="list-style-type: none"> <li>At least 80,000 smallholders adopting GAPs in the Programme area.</li> <li>40% of farmers continue to apply GAPs after Programme support ended.</li> </ul>	<ul style="list-style-type: none"> <li>Baseline and follow-up surveys on agricultural practices in Programme areas.</li> </ul>	<ul style="list-style-type: none"> <li>Farmers will be willing and able to procure the necessary inputs to sustain use of GAPs after support ends.</li> </ul>

<p><b>Output 2.1:</b> Improved agricultural extension services accessible to target group households raising awareness and sensitising farmers about GAPs.</p>	<ul style="list-style-type: none"> <li>• At least 50% of target group households receiving extension services on GAPs.</li> <li>• 135,000 households adopting GAPs by Year 9</li> <li>• At least two thirds of farmers satisfied with extension services.</li> <li>•</li> </ul>	<ul style="list-style-type: none"> <li>• Records of extension service providers (Govt., NGO, private).</li> <li>• Baseline and follow-up studies on adoption behaviour</li> <li>• Baseline and follow-up surveys on households receiving services and level of satisfaction.</li> <li>• Extensions materials and training curricula.</li> </ul>	<ul style="list-style-type: none"> <li>• An adequate number of suitably qualified extension service providers will be available.</li> <li>• Adequate research-extension linkages will be established and maintained.</li> </ul>
<p><b>Output 2.2:</b> Target group has access to necessary inputs for sustained adoption of GAPs.</p> <p><b>Outcome 3:</b> Programme efficiently and effectively integrated within the ASWAp framework.</p>	<ul style="list-style-type: none"> <li>• 160 tonnes per annum of improved (non-maize) seed produced and distributed to target group households.</li> <li>• At least 75% of agro-dealers in Programme area stocking key agricultural inputs (type, quantity) needed for GAPs.</li> <li>• 9,700 grain silos distributed.</li> <li>• Level of storage losses decreased from 20% to 5%</li> <li>• At least half of target group households accessing formal credit for purchase of crop inputs.</li> <li>• ASWAp performance indicators (see ASWAp PIM)</li> </ul>	<ul style="list-style-type: none"> <li>• Records maintained by partners engaged to undertake seed multiplication and distribution.</li> <li>• Baseline and follow-up surveys of agro-dealers.</li> <li>• Records maintained by partners engaged to provide financial services to target group farmers.</li> <li>• Quarterly and annual ASWAp progress reports.</li> <li>• IFAD supervision reports.</li> </ul>	<ul style="list-style-type: none"> <li>• It will be possible to engage suitable partners for seed multiplication and distribution, agro-dealer support and rural financial services.</li> <li>• Programme will be implemented within the emerging ASWAp framework.</li> <li>• MOAFS will provide adequate resources for efficient and effective management.</li> </ul>
<p><b>Output 3.1:</b> Programme management systems fully integrated within the ASWAp management system.</p>	<ul style="list-style-type: none"> <li>• Assessments of the ASWAp Secretariat's effectiveness in facilitating Programme implementation.</li> </ul>	<ul style="list-style-type: none"> <li>• ASWAp consolidated AWPBs.</li> <li>• ASWAp M&amp;E reports.</li> <li>• Mid-Term Review and programme completion report.</li> </ul>	<ul style="list-style-type: none"> <li>• Adequate resources allocated to Programme management, monitoring and evaluation in a timely fashion.</li> </ul>
