

## The Working Group on Governance and IFAD's List System

Ra it Pertev Secretary of IFAD 14 April, 2015

### Working Group on Governance Responsibilities

Review and assess:

- The structure, appropriateness and relevance of the IFAD List system;
- The composition and representation of the replenishment consultation; and
- The length of replenishment cycles in IFAD11 and beyond.

## Outcomes of the Corporate-level Evaluation on IFAD's Efficiency (CLEE) (2013)

Paragraph 21 of the CLEE (2013) states:

"The List system (or Categories I, II and III as they were previously called) was appropriate when IFAD was established. However, it might be worth considering if the List system is still relevant in today's global context, especially in light of the economic, developmental and geopolitical evolution of IFAD Member States over the years."

#### **1974 - IFAD's creation**

#### IFAD was created by a resolution of the 1974 World Food Conference:

- "1. An International Fund for Agricultural Development should be established immediately to finance agricultural development projects primarily for food production in the developing countries...
- 3. The Fund should be administered by a Governing Board consisting of representatives of contributing developed countries, contributing developing countries, and potential recipient countries, taking into consideration the need for ensuring equitable distribution of representation amongst these three categories and regional balance amongst the potential recipient representations;..."

#### **1975 - UN Secretary General convenes first IFAD Meeting**

### **1994 - The Special Committee on Resource Requirements & Governance**

A 'Special Committee' on Resource Requirements and Governance Issues was established by the Governing Council in 1994, to address, inter alia, the following issues:

- The voting rights of Member States; and,
- The composition of the Executive Board

What were the outcomes?

### **1995 - Recommendations of the Special Committee Approved by the EB and GC**

- The Category structure was deemed to be no longer necessary and Member Countries were to be divided into Lists A, B & C.
- The important role of developing countries in the governance of IFAD should be preserved. This was to be done by dividing the total votes between membership and contribution votes in such a way as to ensure that those Members of the current Category III always receive one-third of the total votes as membership votes.

### List entry and exit points for Member States
